For the current fiscal year, the funds appropriated for State Aid to Classrooms represent the State's contribution to the Aid to Classrooms program for direct instruction of students in kindergarten through grade twelve in our state, which is seventy-five percent of the total cost of funding one teacher salary for every 11.2 students. The salary cost used to determine the amount of funding required for the state effort is based on that of a teacher having a master's degree and twelve years of experience, which equates to \$55,104 on the statewide minimum salary schedule for the current fiscal year and including fringe benefits is \$72,991. The calculation of teachers for every student ratio includes those teachers eligible pursuant to Section 59-20-50(4)(b), to include classroom teachers, librarians, guidance counselors, psychologists, social workers, occupational and physical therapists, school nurses, orientation/mobility instructors, and audiologists in the school districts of the State. School districts are required to meet the statewide minimum salary schedule in the current fiscal year and are required to provide the annual step increase pursuant to Section 59-20-50. No school district is required to increase teacher salaries above the amount necessary to meet the statewide minimum salary schedule as prescribed in this act. For the current fiscal year, the provisions of Section 59-20-50(3) of the 1976 Code, as amended, are suspended.

To allocate the funds, the department will calculate the total number of weighted pupil units (WPUs) in each school district and in the State. The funds appropriated herein for State Aid to Classrooms represent the state share of the total Aid to Classrooms program, which is seventy-five percent. The local required effort is twenty-five percent of the total program. The total Aid to Classrooms funding for each district is calculated based on the district's percentage of the total statewide weighted pupils multiplied by the total Aid to Classrooms program. The district's local share is calculated by multiplying the total local share by the district's imputed index of taxpaying ability, which is the district's relative fiscal capacity compared to that of all other districts in the State. The State Aid to Classrooms amount allocated to each district will be determined by subtracting the calculation of the district's local share

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

from the calculation of the district's total Aid to Classrooms projected funding. The Statewide Public Charter School District and any approved institution of higher education authorizing charter schools shall receive one hundred percent of the Aid to Classrooms funding from the State. For Fiscal Year 2023-24, no local match is required for the State Aid to Classroom EIA distributions for the base funding rolled up from the previous fiscal year.

Each district will receive either the amount determined by this new methodology or the actual state funding received in Fiscal Year 2021-22 from State Aid to Classrooms, Aid School Districts, Student Health and Fitness, Guidance/Career Specialists, Handicapped – Profoundly Mentally, EIA - Aid to Districts, EIA - Students at Risk of School Failure, Allocations EIA – Teacher Salaries, Allocations EIA – Employer Contributions, EIA – Student Health and Fitness Act - Nurses, and EIA - South Carolina Public Charter Schools.

To provide flexibility, each district may expend the funds as determined by the local school board of trustees to meet the educational needs of students as defined in Section 59-1-50, Chapter 18, Title 59, and as delineated in a child's Individualized Education Program (IEP). Pursuant to Section 59-20-80, each school board of trustees must make available by September first of each fiscal year its annual budget that includes state, local, and federal investments in education. The budget must be available on the district's website. The department, in collaboration with local school districts, will provide a template that each district must use in reporting its budget.

To provide transparency, Revenue and Fiscal Affairs will document annually, through an online financial dashboard, the expenditure of all state, local, and federal funds by each district and by each charter school authorizer and other relevant data. To ensure that the public reporting meets the needs of educators, parents, citizens, and policymakers, the department, in conjunction with Revenue and Fiscal Affairs, will consult routinely with a group of educators, parents, citizens, and policymakers. District expenditures for the prior fiscal year must be published on the department's website for public disclosure by January 1.

If a traditional school district, charter school authorizer, or special school district fails to submit expenditure data needed for the online financial dashboard, the Revenue and Fiscal Affairs Office will notify the Department of Education. Within thirty days of such notification, the Department of Education must then withhold ten percent of all state

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

payments to the district or authorizer until the district or authorizer complies and all payments will then be made.

To ensure accountability, each district's annual audit that is submitted to the Department of Education pursuant to Section 59-17-100 must be conducted using an auditing firm from an approved list provided by the State Auditor. The State Auditor will develop standards and criteria for determining qualifying auditors. Each district's annual audit must be available on the district's website.

For the current fiscal year the South Carolina Public Charter School District and any institution of higher education sponsoring a public charter school shall receive and distribute state Aid to Classroom funds to the charter school. Students enrolled in charter schools authorized by the South Carolina Public Charter School District or an institution of higher education will receive in addition to the base weight of 1.00 or in addition to the disability weight of 2.60 an additional weight based upon the type of charter school that they attend. These additional funds must support the provision of educational services for children served by a charter school that does not receive local revenues. These students are also eligible to receive additional weights for personalized instruction. The department will make any necessary adjustments to account for the state share for Charter and Special Districts.

Three and four year old students with a disability, who are eligible for services under IDEA and enrolled in brick and mortar charter schools sponsored by the South Carolina Public Charter School District or registered IHE, shall be included in student counts solely for the purposes of receiving the additional weighting for students attending a brick and mortar charter school.

For Fiscal Year 2023-24, special districts and alternative schools will receive the amount received in the prior fiscal year from these funds.

The Revenue and Fiscal Affairs Office, must post in a prominent place on their website for each school district projections, including the per pupil state, federal and local revenues, excluding revenues of local bond issues, for the current fiscal year. Also, as soon as practicable, upon determining the exact numbers regarding pupil count and funding, the Revenue and Fiscal Affairs Office, shall also post on their website the one hundred thirty-five-day average daily membership for each school district and per pupil state, federal and local revenues, excluding revenues of local bond issues, based on the most recent audited financial statement as reported annually pursuant to Section 59-17-100. The Department of Education and the Education Oversight Committee shall

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

provide in a prominent place on their internet websites a link to the information posted by the Revenue and Fiscal Affairs Office, including the projected numbers and the exact numbers.

For the current fiscal year, the pupil classification weightings are as follows:

(1) K-12 pupils or base students including homebound students 1.00

Students served in licensed residential treatment facilities (RTFs) for children and adolescents as defined under Section 44-7-130 of the 1976 Code shall receive a weighting of 2.10.

(2) Weights for students with disabilities as documented by their Individualized Education Plan (IEP)	2.60
(3) Precareer and Career Technology	1.20
(4) Charter school students	
(a) Enrolled in brick and mortar school	1.25
(b) Enrolled in virtual charter school	0.65
(5) Additional weights for personalized instruction:	
(a) Gifted and Talented	0.15
(b) Academic Assistance	0.15
(c) Limited English Proficiency	0.20
(d) Pupils in Poverty	0.50

Students in poverty are students who qualify for Medicaid, SNAP, TANF, or are homeless, transient, or in foster care.

Gifted and talented students are students who are classified as academically or artistically gifted and talented or who are enrolled in Advanced Placement (AP), International Baccalaureate (IB), and Cambridge International courses in high school. Districts shall set-aside twelve percent of the funds for serving artistically gifted and talented students in grades three through twelve.

Students in need of academic assistance are students who do not meet state standards in mathematics, English language arts, or both on state approved assessments in grades three through eight and high school assessments for grades nine through twelve. The additional weight generates funds needed to provide additional instructional services to these students.

Students with limited English proficiency are students who require intensive English language instruction programs and whose families require specialized parental involvement intervention.

Further, the Department of Education may use school district student counts for personalized instruction as collected in the same manner as the prior fiscal year, PowerSchool or other available existing data

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

sources as determined by the department to calculate the school district add on weightings for the personalized instruction classifications and the determination of the school districts monetary entitlement. End of year adjustments shall be based on the one hundred thirty-five-day student average daily membership for all classifications. During the current fiscal year, the department will update PowerSchool calculations, reports, screen development, documentation, and training to incorporate the new pupil classification weightings and to make final district allocation adjustments by June 30. The department must provide districts with technical assistance with regard to student count changes in PowerSchool.

Up to ten percent of any funds appropriated for State Aid to Classrooms at the end of the fiscal year may be carried forward into the subsequent fiscal year and allocated to school districts, the South Carolina Public Charter School District, and an institution of higher education that authorizes charter schools pursuant to this provision. The additional funds must first support increases in student enrollment and any balance may be allocated proportionately utilizing weighted pupil units to districts. Any additional unexpended funds shall revert to the general fund or to the EIA Fund.

With the funds that the Department of Education receives for health insurance for school districts, the department shall allocate the funds to school districts proportionately utilizing weighted pupil units. The department shall allocate to districts funds received for retirement benefits through the State Aid to Classrooms formula.

1.4. (SDE: Employer Contributions/Allocations) It is the intent of the General Assembly that the appropriation contained herein for "Public School Employee Benefits" shall not be utilized to provide employer contributions for any portion of a school district employee's salary that is federally funded.

State funds allocated for school district employer contributions must be allocated by the formula and must be used first by each district to cover the cost of fringe benefits for personnel required by the Defined Program, food service personnel and other personnel required by law. Once a district has expended all state allocated funds for fringe benefits, the district may utilize food service revenues to fund a proportionate share of fringe benefits costs for food service personnel.

The Department of Juvenile Justice and the Department of Corrections' school districts must be allocated funds under the fringe

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

benefits program in accordance with criteria established for all school districts.

1.5. (SDE: Employer Contributions/Obligations) In order to finalize each school district's allocations of Employer Contributions funds for retiree insurance from the prior fiscal year, the Department of Education is authorized to adjust a school district's allocation in the current fiscal year accordingly to reflect actual payroll and payments to the Retirement System from the prior fiscal year. In the event the Department of Education is notified that an educational subdivision has failed to remit proper payments to cover Employee Fringe Benefit obligations, the Department of Education is directed to withhold the educational subdivision's state funds until such obligations are met.

1.6. (SDE: Educational Responsibility/Foster Care) The responsibility for providing a free and appropriate public education program for all children including disabled students is vested in the public school district wherein a child of lawful school age resides in a foster home, group home, orphanage, or a state operated health care facility including a facility for treatment of mental illness or chemical dependence and habilitation centers for persons with intellectual disabilities or persons with related conditions located within the jurisdiction of the school district or alternative residences. The districts concerned may agree upon acceptable local cost reimbursement. If no agreement is reached, districts providing education shall receive from the district where the child last resided before placement in a facility an additional amount equivalent to the statewide average of the local base student cost multiplied by the appropriate pupil weighting as set forth in Section 59-20-40 of the Education Finance Act. If a child from out of state is residing in a facility owned and/or operated by a for profit entity, the district providing educational services shall be reimbursed by the for profit entity the local district's local support per weighted pupil above the statewide average base student cost multiplied by the appropriate pupil weighting as set forth in Section 59-20-40 of the Education Finance Act. Participation will be evidenced by a written agreement from the IEP team or 504 team, written referral, or the school district initiating the placement process. School districts providing the education shall notify the nonresident district in writing within forty-five calendar days that a student from the nonresident district is receiving education services pursuant to the provisions of the proviso. The notice shall also contain the student's name, date of birth, and disabling condition if available. If appropriate financial arrangements cannot be effected

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

between institutions of the state, including independent school districts under the authority of the Department of Disabilities and Special Needs, and school districts, institutions receiving educational appropriations shall pay the local base student cost multiplied by the appropriate pupil weighting. Children residing in institutions of state agencies shall be educated with nondisabled children in the public school districts if appropriate to their educational needs. Such institutions shall determine, on an individual basis, which children residing in the institution might be eligible to receive appropriate educational services in a public school setting. Once these children are identified, the institution shall convene an IEP meeting with officials of the public school district in which the institution is located. If it is determined by the committee that the least restrictive environment in which to implement the child's IEP is a public school setting, then the school district in which the institution is located must provide the educational services. However, that school district may enter into contractual agreements with any other school district having schools located within a forty-five mile radius of the institution. The cost for educating such children shall be allocated in the following manner: the school district where the child last resided before being placed in an institution shall pay to the school district providing the educational services an amount equivalent to the statewide average of the local base student cost multiplied by the appropriate pupil weighting as set forth in Section 59-20-40 of the Education Finance Act; the school district providing the educational services shall be able to count the child for all funding sources, both state and federal. The institution and school district, through contractual agreements, will address the special education and related services to be provided to students. Should the school district wherein the institution is located determine that the child cannot be appropriately served in a public school setting, then the institution may request a due process hearing pursuant to the procedures provided for in the Individuals with Disabilities Education Act.

The agreed upon acceptable local cost reimbursement or the additional amount equivalent to the statewide average of the local base student cost multiplied by the appropriate pupil weighting set forth in Section 59-20-40, for instructional services provided to out-of-district students, shall be paid within sixty days of billing, provided the billing district has provided a copy of the invoice to both the Superintendent and the finance office of the district being invoiced. Should the district not pay within sixty days, the billing district can seek relief from the Department of Education. The department shall withhold EFA funding equal to the

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

billing from the district refusing to pay and submit the funding (equal to the invoice) to the billing school district.

The agency placing a child in any situation that requires changing school districts, must work with the schools to assure that all required school records, including confidential records, are transferred from the sending to the receiving school within three working days. School records to be transferred should include grade transcripts, state birth certificate, certificate of immunization, social security card, attendance records, discipline records, IEP's, psychological reports (or notation in the school records that a psychological report on the child is available at the school district office) and any other records necessary for the appropriate placement of the child in the new school. School districts must release all records upon presentation of a court order or appropriate permission for confidential release. If evaluation or placement is pending, the receiving school district is responsible to secure information and to complete the placement. The receiving school will maintain appropriate confidentiality of all records received on a child. Upon discharge or release from the treatment facility, the agency placing the child in the receiving school must work with the school district where the student will reside after treatment to assure continuity of the student's education.

1.7. (SDE: Instruction in Juvenile Detention Centers) It shall be the responsibility of the school district where a local juvenile detention center is located to provide adequate teaching staff and to ensure compliance with the educational requirements of this State. Students housed in local juvenile detention centers are to be included in the average daily membership count of students for that district and reimbursement by the Department of Education made accordingly.

1.8. (SDE: Revenue Authorization) The State Department of Education is hereby authorized to collect, expend, and carry forward revenues in the following areas to offset the cost of providing such services: the sale of publications, manuals and forms, the sale of Apple Tags, royalties, contributions, donations, foundation funds, special grants and contracts, brochures, photo copies, listings and labels, Directory of South Carolina Schools, student health record cards, items to be recycled, and high school diplomas and certificates; the collection of out-of-state and in-state investigation fees, registration fees for non-SDE employees, recurring facility inspection fees, teacher certification fees; the handling of audio-visual film; the provision of contract computer services to school districts and other state agencies,

The Department of Education is authorized to collect revenue for deposit into the State General Fund for testing material purchases and test rescore fees. The Department of Education is authorized to expend revenue collected for lost and damaged instructional materials and the sale of unusable instructional materials for the purpose of contracting for the purchase and maintenance of a statewide textbook inventory management system, provided that schools' newly-adopted instructional materials needs are met first.

1.9. (SDE: School District Bank Accounts) Each school district in this State, upon the approval of the district's governing body, may maintain its own bank account for the purpose of making disbursement of school district funds as necessary to conduct school district business and each county treasurer is hereby authorized to transfer such amount as needed, upon receipt of a written order certified by the district governing body or their designee. Such order shall contain a statement that such amount is for immediate disbursement for the payment of correct and legal obligation of the school district.

1.10. (SDE: Travel/Outside of Continental U.S.) School District allocations from General Funds, lottery, and EIA funds shall not be used for travel outside of the continental United States. The International Baccalaureate Program shall be exempt from this restriction.

1.11. (SDE: Year End Closeout) The State Department of Education is authorized to expend federal and earmarked funds (not including state or EIA funds) in the current fiscal year for expenditures incurred in the prior year; however, state funds appropriated in Part IA, Section 1, X, Aid to School Districts, for the Children's Case Resolution System or private placements for services provided to children with disabilities may be used for those expenditures in prior fiscal years. If the department uses the specifications of another state, the department must submit a report to the Chairman of the Senate Finance Committee and the Chairman of the House Ways and Means Committee detailing the methodology by which the alternative specifications were determined to be safe, more economical, and in the public interest, when compared to the specifications set forth by the School Bus Specifications Committee.

(SDE: School Districts and Special Schools Flexibility) All school districts and special schools of this State may transfer and expend funds among appropriated state general fund revenues, Education Improvement Act funds, and Education Lottery Act funds, and funds received from the Children's Education Endowment Fund for school facilities and fixed equipment assistance, to ensure the delivery of academic and arts instruction to students. However, a school district may not transfer funds allocated specifically for state level maintenance of effort requirements under IDEA, funds allocated specifically for state level maintenance of effort requirement for federal program, funds provided for the Education and Economic Development Act, funds provided for Career and Technology Education, nor funds required for debt service or bonded indebtedness. All school districts must report the student teacher ratio for every classroom to the Department of Education at the forty-fifth and the one hundred and thirty-fifth day mark. The department shall report this information to the General Assembly for the current school year.

In order for a school district to take advantage of the flexibility provisions, at least seventy-five percent of the school district's per pupil expenditures must be utilized within the In\$ite categories of instruction, instructional support, and only transportation, food service, and safety within non-instruction pupil services. No portion of the seventy-five percent may be used for facilities, business services, debt service, capital outlay, program management, and leadership services, as defined by In\$ite. The school district shall report to the Department of Education the actual percentage of its per pupil expenditures used for classroom instruction, instructional support, and transportation, food service, and safety within non-instruction pupil services for the current school year ending June thirtieth. Salaries of on-site principals must be included in the calculation of the district's per pupil expenditures.

“In\$ite” means the financial analysis model for education programs utilized by the Department of Education.

School districts are encouraged to reduce expenditures by means, including, but not limited to, limiting the number of low enrollment courses, reducing travel for the staff and the school district's board, reducing and limiting activities requiring dues and memberships,

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

reducing transportation costs for extracurricular and academic competitions, restructuring administrative staffing, and expanding virtual instruction.

School districts and special schools may carry forward unexpended funds from the prior fiscal year into the current fiscal year.

Prior to implementing the flexibility authorized herein, school districts must provide to Public Charter Schools the per pupil allocation due to them for each categorical program.

Quarterly throughout the current fiscal year, the chairman of each school district's board and the superintendent of each school district must certify where non-instructional or nonessential programs have been suspended and the specific flexibility actions taken. The certification must be in writing, signed by the chairman and the superintendent, delivered electronically to the State Superintendent of Education, and an electronic copy forwarded to the Chairman of the Senate Finance Committee, the Chairman of the Senate Education Committee, the Chairman of the House Ways and Means Committee, and the Chairman of the House Education and Public Works Committee. Additionally, the certification must be presented publicly at a regularly called school board meeting, and the certification must be conspicuously posted on the internet website maintained by the school district.

For the current fiscal year, Section 59-21-1030 is suspended. The foreign language program assessment, and the physical education assessment must be suspended. School districts and the Department of Education are granted permission to purchase the most economical type of bus fuel.

For the current fiscal year, savings generated from the suspension of the assessments enumerated above must be allocated to school districts based on weighted pupil units.

School districts must maintain a transaction register that includes a complete record of all funds expended over one hundred dollars, from whatever source, for whatever purpose. The register must be prominently posted on the district's internet website and made available for public viewing and downloading. The register must include for each expenditure:

- (i) the transaction amount;
- (ii) the name of the payee; and
- (iii) a statement providing a detailed description of the expenditure.

The register must not include an entry for salary, wages, or other compensation paid to individual employees. The register must not

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

include any information that can be used to identify an individual employee. The register must be accompanied by a complete explanation of any codes or acronyms used to identify a payee or an expenditure. The register must be searchable and updated at least once a month.

Each school district must also maintain on its internet website a copy of each monthly statement for all of the credit cards maintained by the entity, including credit cards issued to its officers or employees for official use. The credit card number on each statement must be redacted prior to posting on the internet website. Each credit card statement must be posted not later than the thirtieth day after the first date that any portion of the balance due as shown on the statement is paid.

The Comptroller General must establish and maintain a website to contain the information required by this section from a school district that does not maintain its own internet website. The internet website must be organized so that the public can differentiate between the school districts and search for the information they are seeking.

The provisions contained herein do not amend, suspend, supersede, replace, revoke, restrict, or otherwise affect Chapter 4, Title 30, of the South Carolina Freedom of Information Act. Nothing in this proviso shall be interpreted as prohibiting the State Board of Education to exercise its authority to grant waivers under Regulation 43-261.

1.22. (SDE: Medical Examination and Security Reimbursement/Expenditures) From funds authorized in Part IA, Section 1, VII.B. Other Operating Expenses, the Department of Education may directly pay, or reimburse employees, for the cost of a medical examination as required in Part 391, Subpart E of the Federal Motor Carrier Safety Regulations, for employees that are required to operate a state vehicle transporting hazardous materials and that are required to undergo a national security background check because of the required Hazmat endorsement to their CDL.

1.23. (SDE: Budget Reduction) In compensating for any reduction in funding or an operating deficit publicly recognized by the School Board of Trustees, local districts must give priority to preserving classroom teachers and operations. Funding reductions should first be applied to administrative and non-classroom expenses before classroom expenses are affected.

1.24. (SDE: School District Furlough) Should there be a midyear reduction in state funding to the districts, school districts may institute employee furlough programs for district-level and school-level professional staff. Before any of these employees may be furloughed,

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

the chairman of the governing body of the school district must certify that all fund flexibility provided by the General Assembly has been utilized by the district and that the furlough is necessary to avoid a year-end deficit and a reduction in force. The certification must include a detailed report by the superintendent of the specific action taken by the district to avoid a year-end deficit. The certification and report must be in writing and delivered to the State Superintendent of Education and a copy must be forwarded to the Chairman of the Senate Finance Committee and the Chairman of the House Ways and Means Committee.

The local school district board of trustees may implement a furlough of personnel once certification to the State Superintendent documents all funding flexibility has been exhausted and continued year-end deficits exist. Local school boards of trustees shall have the authority to authorize furloughs of these employees in the manner in which it sees fit. However, instructional personnel may be furloughed for up to five non-instructional days if not prohibited by an applicable employment contract with the district and provided district administrators are furloughed for twice the number of days. District administrators may only be furloughed on non-instructional days and may not be furloughed for a period exceeding ten days. District administrators shall be defined by the Department of Education using the Professional Certified Staff (PCS) System. For individuals not coded in PCS, the determination shall be made based upon whether the individual performs the functions outlined in position codes identified by the department as administration. Educators who would have received a year's experience credit had a furlough not been implemented, shall not have their experience credit negatively impacted because of a furlough implementation.

During any furlough, affected employees shall be entitled to participate in the same benefits as otherwise available to them except for receiving their salaries. As to those benefits that require employer and employee contributions, including, but not limited to, contributions to the South Carolina Retirement System or the optional retirement program, the district will be responsible for making both employer and employee contributions if coverage would otherwise be interrupted; and as to those benefits which require only employee contributions, the employee remains solely responsible for making those contributions. Placement of an employee on furlough under this provision does not constitute a grievance or appeal under any employee grievance procedure. The district may allocate the employee's reduction in pay

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

over the balance of the fiscal year for payroll purposes regardless of the pay period within which the furlough occurs.

Each local school district must prominently post on the district's internet website and make available for public viewing and downloading the most recent version of the school district's policy manual and administrative rule manual.

This proviso shall not abrogate the terms of any contract between any school district and its employees.

1.25. (SDE: School Lunch/Attendance Supervisors) For those counties in which an entity other than the school district administers the school lunch supervisor and/or attendance supervisor programs, the school districts in that county shall transfer to the entity the amount available in the previous fiscal year for administration of the school lunch supervisor and/or attendance supervisor programs. Each district shall transfer a pro rata share of the total cost based upon the percentage of state EFA funds distributed to the districts within the county.

1.26. (SDE: No Discrimination Requirement) State funds must not be appropriated to a school that discriminates against or participates with or is a member of an association with policies that discriminate or afford different treatment of students based on race or national origin.

1.27. (SDE: Medicaid Cash Match Accounting) The department is granted authority to transfer funds between budget lines and object codes to identify, reconcile, reimburse, and remit funds required for Medicaid cash match to the Department of Health and Human Services.

1.28. (SDE: Student Report Card-GPA) For each high school student, school districts shall be required to print the student's individual cumulative grade point average for grades nine through twelve on the student's report card.

1.29. (SDE: Lost & Damaged Instructional Materials Fees) Fees for lost and damaged instructional materials for the prior school year are due no later than December first of the current school year when invoiced by the Department of Education. The department may withhold instructional materials funding from schools that have not paid their fees by the payment deadline.

1.30. (SDE: State Aid to Classrooms Reserve Fund) There is created in the State Treasury a fund separate and distinct from the General Fund of the State and all other funds entitled the State Aid to Classrooms Reserve Fund. All unexpended general funds appropriated to the Department of Education for the State Aid to Classrooms in the current fiscal year shall be transferred to the State Aid to Classrooms

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

Reserve Fund. In the event that the amount appropriated for the State Aid to Classrooms is insufficient to fully fund the designated student-teacher ratio as established by this act, revenues from the State Aid to Classrooms Reserve Fund may be used to supplement the funds appropriated. The General Assembly may make direct appropriations to this fund. All unexpended funds in the State Aid to Classrooms Reserve Fund and any interest accrued by the fund must remain in the fund and may be carried forward into the current fiscal year.

1.31. (SDE: Prohibit Advertising on School Buses) The Department of Education and local school districts are prohibited from selling space for or the placement of advertisements on the outside or inside of state-owned school buses.

1.32. (SDE: Residential Treatment Facilities Student Enrollment and Funding) Each South Carolina resident of lawful school age residing in licensed residential treatment facilities (RTFs) for children and adolescents identified on the State Qualified Providers list and meets the requirements of Section 44-7-130 of the 1976 Code, (students) shall be entitled to receive educational services from the school district in which the RTF is located (facility school district). The responsibility for providing appropriate educational programs and services for these students, both with and without disabilities, who are referred, authorized, or placed by the State is vested in the facility school districts. For purposes of this proviso, an authorization must be pursuant to a physician's determination of medical necessity. If clinically appropriate, the facility school district, the RTF, and the parent or guardian of a student referred or placed in a RTF may consider the appropriateness of providing the student's education program virtually through enrollment in either the facility district's virtual program, the South Carolina virtual school program provided through the Department of Education (Virtual SC), or a virtual charter school authorized by the South Carolina Public Charter School District, or a virtual charter school authorized by an approved institute of higher education. This decision should be made jointly with the best interest of the student and what is clinically indicated being considered.

A facility school district must provide the necessary educational programs and services directly to the student at the RTF's facility, provided that the RTF facility provides and maintains comparable adequate space for the educational programs and services consistent with all federal and state least restrictive environment requirements. Adequate space shall include appropriate electrical support and Internet

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

accessibility. Unless the parent or legal guardian of the student seeks to continue the student's enrollment in the resident school district under a medical homebound instruction program and the district approves, if appropriate, then, under these circumstances, the facility school district shall enroll the student and assume full legal and financial responsibility for the educational services including enrolling the student, approving the student's entry into a medical homebound instructional program, if appropriate, and receiving and expending funds, unless the resident school district undertakes to carry out its educational responsibilities for the student directly. Alternatively, a facility school district may choose to provide the necessary educational programs and services by contracting with the RTF provided that the RTF agrees to provide educational services to the student at the RTF's facility. Under these circumstances, the facility school district must enroll the student and pay the RTF for the educational services provided. If the facility school district determines the educational program being offered by the RTF does not meet the educational standards outlined in the contract, the facility district shall be justified in terminating the contract.

The facility school districts are entitled to receive the base student cost multiplied by the Education Finance Act pupil weighting for pupils in a Residential Treatment Facility of 2.10, as set forth in Proviso 1.3 of this act and any eligible categorical and federal funds. These funds may be retained by the facility school districts for the purpose of providing the educational programs and services directly to students referred or placed by the State or the facility school districts may use these funds to reimburse RTFs for the educational programs and services provided directly by the RTFs. A facility school district is entitled to reimbursement from a resident school district for the difference between (1) the reasonable costs expended for the educational services provided directly by the facility school district or the amount paid to the RTF; and (2) the aggregate amount of federal and state funding received by the facility school district for that student. However, the reimbursement rate may not exceed \$90 per student per day. Through a joint agreement with the facility school district and the RTF, the funding received for RTF students must be utilized to deliver an instructional program that meets the needs of the students, and when applicable, the requirements of the Individuals with Disabilities Education Act and Section 504 of the Rehabilitation Act of 1973. Facility school districts providing the educational services shall notify the resident district in writing within forty-five calendar days that a student from the resident district is

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

receiving educational services pursuant to the provisions of the proviso. Reimbursements shall be paid within sixty days of billing, provided the facility district has provided a copy of the invoice to both the District Superintendent and the finance office of the resident district being invoiced. Should the facility school district be unable to reach agreement with the resident school district regarding reasonable costs differences, the facility school district shall notify the Department of Education's Office of General Counsel. The Department of Education shall facilitate a resolution of the dispute between the facility school district and the resident school district within forty-five days of the notice of dispute. If the issue of reasonable cost differences should remain unresolved, a facility school district shall have the right to file a complaint in a Circuit Court. Should a resident school district fail to distribute the entitled funding to the facility school district by the one hundred thirty-five day count, the Department of Education is authorized to withhold the equivalent amount of EFA funds and transfer those funds to the facility school district.

RTF facilities on the State Qualified Provider List not located within the boundaries of the state shall be reimbursed at a rate that may not exceed \$45 per student per day for education services and school districts shall be eligible to receive a base student cost weighted funding of 2.10 provided that the student remains enrolled in the school district. Facilities providing the educational services shall notify the resident district in writing within forty-five calendar days that a student from the resident district is receiving educational services pursuant to the provisions of the proviso. Reimbursements shall be paid within sixty days of billing, provided the qualified facility has provided a copy of the invoice to both the District Superintendent and the finance office of the resident district being invoiced. Should the facility be unable to reach agreement with the resident school district regarding reasonable costs differences, the provider shall notify the Department of Education's Office of General Counsel. The Department of Education shall facilitate a resolution of the dispute between the facility and the resident school district within forty-five days of the notice of dispute. If the issue of reasonable cost differences should remain unresolved, a facility shall have the right to file a complaint in a Circuit Court. Additionally, qualified RTF providers' general education curriculum must be aligned to the South Carolina academic standards in the core content areas. All students with disabilities who are eligible for special education and related services under the Individuals with Disabilities Education Act

(IDEA), as amended, and the State Board of Education (SBE) regulations, as amended, shall receive special education and related services in the least restrictive environment by appropriately certified personnel. Students in a qualified RTF will at all times be eligible to receive the educational credits (e.g., Carnegie Units) earned through their educational efforts. The resident school district and the RTF should develop a memorandum of understanding to outline the responsibilities of the RTF in providing the educational services and responsibilities, if any, of the resident school district while the student is housed in the RTF.

If a child from out of state is placed in a RTF by an out-of-state school district or agency, the child's home state remains responsible for the educational services. The facility school district may choose to provide the educational program to the child and, upon choosing to do so, shall contract with the appropriate entity for payment of educational services provided to the child. Out-of-state students provided educational services by a facility school district shall not be eligible for funding through the Education Finance Act.

If a child is placed in a RTF by the child's parent or guardian and is not referred, authorized, or placed by the State, the facility school district may choose to provide the educational program to the child, and upon doing so, must negotiate with the resident school district for services through medical homebound procedures. A facility school district is responsible for compliance with all child find requirements under Section 504 of the Rehabilitation Act of 1973 and Individuals with Disabilities Act of 2004 (IDEA).

All students enrolled in the facility school districts shall have access to the facility school districts' general education curriculum, which will be tied to the South Carolina academic standards in the core content areas. All students with disabilities who are eligible for special education and related services under the Individuals with IDEA, as amended, and the State Board of Education (SBE) regulations, as amended, shall receive special education and related services in the least restrictive environment by appropriately certified personnel. Students in an RTF will at all times be eligible to receive the educational credits (e.g., Carnegie Units) earned through their educational efforts.

With respect to students enrolled in the facility school districts, for accountability purposes, the assessment and accountability measures for students residing in RTFs shall be attributed to a specific school only if the child physically attends the school. The performance of students residing in a RTF who receive their educational program on site at the

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

RTF must be reflected on a separate line on the facility school district's report card and must not be included in the overall performance ratings of the facility school district. The Department of Education shall examine the feasibility of issuing report cards for RTFs. For the current fiscal year, a facility school district shall not have the district's state accreditation rating negatively impacted by deficiencies related to the delivery of an educational program at a RTF.

RTFs shall notify the facility school district as soon as practical, and before admission to the RTF if practical, of a student's admission to the RTF. RTFs, the facility school districts and the Department of Education shall use their best efforts to secure and/or exchange information, including documents and records necessary to provide appropriate educational services and/or related services as necessary to assist the facility school district in determining the resident school district. The Department of Education, in collaboration with state placing agencies, RTFs, facility school districts, and resident school districts, shall implement a system to follow the release of students from a RTF and re-enrollment in public, private, or special schools to ensure these students, when appropriate, are not recorded as dropouts.

In the event the department, during the audit process determines that the annual allocations of the prior fiscal year are not accurate, the department must adjust the allocations for the current fiscal year to account for the audit findings. The department must provide the results of the annual audit findings to the General Assembly no later than December first. Of the funds appropriated, \$300,000 shall be allocated to the Education Oversight Committee to conduct an annual evaluation of the South Carolina Child Development Education Pilot Program and to issue findings in a report to the General Assembly by March first of each year. To aid in this evaluation, the Education Oversight Committee shall determine the data necessary and both public and private providers are required to submit the necessary data as a condition of continued participation in and funding of the program. This data shall include developmentally appropriate measures of student progress. Additionally, the Department of Education shall issue a unique student identifier for each child receiving services from a private provider. The Department of Education shall be responsible for the collection and maintenance of data on the public state funded full day and half-day four-year-old kindergarten programs. The Office of First Steps to School Readiness shall be responsible for the collection and maintenance of data on the state funded programs provided through private providers. The Education Oversight Committee shall use this data and all other collected and maintained data necessary to conduct a research based review of the program's implementation and assessment of student success in the early elementary grades along with information, recommendations, and a timeline for how the state can increase the number of students served in high-quality programs.

the option of their eligible child attending an out-of-district school that participates in CERDEP.

For the current fiscal year, the Office of First Steps may expend: (1) up to \$2,000,000 to pilot a program to provide higher reimbursement rates to high-quality providers. The reimbursement rate for students enrolled by child care providers rated B or higher in the ABC Quality System operated by the Department of Social Services may be increased by up to 10% of the per-student base following guidelines developed by the Office of First Steps; and (2) up to \$250,000 to provide one-time supplemental, needs-based incentive grants in an amount not to exceed \$30,000 for newly created and/or newly approved private providers proposing to expand service to ten or more CERDEP eligible children in communities unable to enroll all eligible students in a public, private, or Head Start setting during the prior fiscal year. These grants are designed to address building renovations, documented as necessary to bring proposed classrooms into compliance with licensing regulations, materials and staffing costs, and/or other obstacles currently preventing their participation in the program. The First Steps Board of Trustees shall develop and approve an application process that incorporates formal review and fiscal safeguards designed to ensure grant funds are used solely to address documented barriers to program participation. Providers receiving this one-time supplement shall be expected to participate in the program and provide high-quality, center-based programs as defined herein for a minimum of three years. Failure to participate for three years shall require the provider to return a portion of the supplemental allocation at a level determined by the Office of First Steps to School Readiness. First Steps shall submit a report detailing its process, expenditures and expanded enrollment to the Chairman of the House Ways and Means Committee and the Chairman of the Senate Finance Committee by March 15.

If by August first, the Department of Education or the Office of First Steps determines that appropriations will exceed expenditures, available funds may be used to fund an extended program and to increase the length of the program to a maximum of eight and a half hours per day or two hundred and twenty days per year or to fund summer programs. If a district chooses to fund summer enrollment, the program funding shall conform to the funding in this act for full year programs; however, it shall be reduced on a pro rata basis to conform with the length of the program. A summer program shall be no more than eight and a half hours per day and shall be not more than ten weeks in length. The per

pupil allocation and classroom grant must conform with the appropriated amount contained in this act and end of year adjustments shall be based on the one hundred and thirty-five-day student average daily membership or later student average daily membership for districts choosing to extend the program past one hundred and eighty days. Funds may also be used to provide parent engagement, professional development, and quality evaluations of programs. No later than April first, the Department of Education and the Office of First Steps shall report to the Chairman of the Senate Finance Committee and the Chairman of the House Ways and Means Committee on the expenditure of these funds to include the following information: the amount of money used and specific steps and measures taken to enhance the quality of the 4K program and the amount of money used for professional development as well as the types of professional development offered and the number of participants. The Office of First Steps is directed to determine if the provision of extended programs in private centers improves the ability of parents to enter the workforce or to pursue postsecondary training or industry credentials.

On or before November 15, the Department of Education and the Office of First Steps shall share data that identifies the total number of children enrolled in CERDEP in both public and private providers. If available appropriations exceed the instructional costs of serving children enrolled in the program and if a waiting list of eligible children can be documented by the Department of Education and by the Office of First Steps, then the Executive Budget Office may authorize the transfer of funds between the Department of Education and the Office of First Steps.

The Office of First Steps and the Department of Education shall collaborate with the South Carolina Head Start State Collaboration Office to inform parents of all publicly funded full-day 4K programs including Head Start by participating in PalmettoPreK and First5SC.

1.49. (SDE: Summer Reading Camps) For the current fiscal year, funds appropriated for summer reading camps must be allocated as follows: (1) up to twenty percent to the Department of Education to provide bus transportation for students attending the camps; (2) \$700,000 allocated to the department to provide grants to support community partnerships whereby community organizations shall partner with local school districts to provide enrichment activities as part of after school programs or summer reading camps that utilize volunteers, mentors or tutors to provide instructional support to struggling readers

in elementary schools that have a poverty index of forty percent or greater. All mentors and tutors that are a part of these after school programs or summer reading camps must have passed a SLED criminal background check. Participant to volunteer or teacher ratio must conform to that of the school district in which the program is located; and (3) the remainder on a per pupil allocation to each school district based on the number of students who substantially failed to demonstrate third-grade reading proficiency as indicated on the prior year's state assessment as defined by Section 59-155-120(10) of the 1976 Code. Summer reading camps must be at least six weeks in duration with a minimum of four days of instruction per week and four hours of instruction per day, or the equivalent minimum hours of instruction in the summer. School transportation shall be provided. The camps must be taught by compensated teachers who have at least an add-on literacy endorsement or who have documented and demonstrated substantial success in helping students comprehend grade-level texts. The Department of Education shall assist districts that cannot find qualified teachers to work in the summer camps. Districts may also choose to contract for the services of qualified instructors or collaborate with one or more districts to provide a summer reading camp. Schools and school districts are encouraged to partner with county or school libraries, institutions of higher learning, community organizations, faith-based institutions, businesses, pediatric and family practice medical personnel, and other groups to provide volunteers, mentors, tutors, space, or other support to assist with the provision of the summer reading camps. In the current school year, any student in third grade who substantially fails to demonstrate third-grade reading proficiency by the end of the school year must be offered the opportunity to attend a summer reading camp at no cost to the parent or guardian. The purpose of the reading camp is to provide students who are significantly below third-grade reading proficiency with the opportunity to receive quality, intensive instructional services, and support. A district may also include in the summer reading camps students who are not exhibiting reading proficiency at any grade and may charge fees for these students to attend the summer reading camps based on a sliding scale pursuant to Section 59-19-90, except where a child is found to be reading below grade level in the first, second or third grade. A parent or guardian of a student who does not substantially demonstrate proficiency in comprehending texts appropriate for his grade level must make the final decision regarding the student's participation in the summer reading camp.

A private or charter school may not be expelled from or have its membership unreasonably withheld by the association, body, or entity or restricted in its ability to participate in interscholastic athletics including, but not limited to, state playoffs or championships based solely on its status as a private school or charter school. The association, body, or entity shall set reasonable standards for private or charter school admission. A private or charter school denied membership must be provided, in writing within five business days, the reason or reasons for rejection of its application for membership;

(b) guarantees that a South Carolina home school athletic team that is a member of a home school athletic association may not be denied access to preseason and regular season interscholastic athletics including, but not limited to, jamborees and invitational tournaments, based solely on its status as a home school athletic team; other rules or policies of the association, body, or entity would apply;

(b) a member of the panel serves until his successor is appointed and qualifies. A vacancy on the panel is filled in the manner of the original appointment;

(c) members of the appellate panel do not concurrently serve as officers of the association, body, or entity and may not have served as a member of the executive committee within the last three years.

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

(4) a procedure in place for emergency appeals to be held and decided upon in an expedited manner if the normal appellate process would prohibit the participation of a student, team, program, or school in an athletic event, to include practices; and

(5) provisions, implemented within one year after the effective date of this section, that require the composition of the executive committee of the association, body, or entity be geographically representative of this State.

(B) In the event an association, body, or entity fails to include one of the items listed in this proviso, public school districts and schools must end their affiliation with the association, body, or entity prior to the beginning of the upcoming school year and are prohibited from paying dues or fees to the association, body, or entity.

(C) Eligibility requirements for new students to participate in interscholastic athletics shall be no more restrictive in language or application than the rules or policies of the association, body, or entity that were in effect on January 1, 2020.

1.51. (SDE: Reading/Literacy Coaches) (A) For the current fiscal year, of the funds appropriated for Reading/Literacy Coaches, the Department of Education shall retain up to \$14,000,000 to be expended for the Palmetto Literacy Project. The Department shall identify schools in the Palmetto Literacy Project that have one-third or more of its third grade students scoring at the lowest achievement level on the statewide summative English language arts assessment. For each school identified and participating in the Palmetto Literacy Project in the prior school year, the Department of Education shall provide, at a minimum, the following support: provision of reading specialists, professional learning, and curriculum resources based on the science of reading. (C) These funds must be allocated to school districts by the Department of Education as follows: for each primary and elementary school, the school district shall be eligible to receive up to \$62,730 or the actual cost of salary and benefits for a full-time reading/literacy coach.

(D) By accepting these funds, a school district warrants that they will not be used to supplant existing school district expenditures, except for districts that either are currently, or in the prior fiscal year, were paying for reading/literacy coaches with local funds. A district may only utilize these funds to employ reading/literacy coaches that may serve in a primary, elementary, or middle school or a combination of these schools depending on the area of highest need in the district except in the event that the district can request and receive a waiver from the Department of Education to expend the funds on interventionists who spend more than fifty percent of their time providing direct support to struggling readers in grades kindergarten through grade five. The school district must align the placement of coaches to the district reading plan that is approved by the department.

(E) Funds appropriated for reading/literacy Coaches are intended to be used to provide primary, elementary, and/or middle schools with reading/literacy coaches who shall serve according to the provisions in Chapter 155, Title 59.

(F) Schools and districts accepting funding to support a coaching position agree that the reading/literacy coach must not serve as an administrator. If the department finds that school districts are using these funds for administrative costs as defined in statute they must withhold that districts remaining balance of funds allocated pursuant to this proviso.

(G) The Department of Education must publish guidelines that define the minimum qualifications for a reading/literacy coach. These guidelines must deem any licensed/certified teacher qualified if, at a minimum, he or she:

(2) holds a bachelor's degree or higher and is actively pursuing the literacy coach or literacy specialist endorsement; or

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

(3) holds a master's degree or higher in reading or a closely-related field.

Within these guidelines, the Department of Education must assist districts in identifying a reading/literacy coach in the event that the school is not successful in identifying and directly employing a qualified candidate.

(H) The Department of Education shall require:

(1) any school district receiving funding to identify the name and qualifications of the supported reading/literacy coach; as well as the school in which the coach is assigned; and

(2) any school district receiving funding to account for the specific amounts and uses of such funds.

(I) With the data reported by the school districts, the department shall report by January fifteenth of the current fiscal year on the hiring of and assignment of reading/literacy coaches by school. The department shall also report the amount of funds that will be used for Summer Reading Camps.

The department shall continue to work with the publishers of instructional materials to ensure that districts have options for print/digital student materials to include class sets of print student editions, if needed. Funds appropriated for the purchase of instructional materials (print/digital) may be used for reimbursing school districts to offset the costs of refurbishing science kits on the state-adopted instructional materials inventory, purchasing new kits or those adopted as supplemental from the central textbook depository, or a combination of refurbishment and purchase. The refurbishing cost of kits may not exceed the cost of the state-adopted refurbishing kits plus a reasonable amount for shipping and handling. Costs for staff development, personnel costs, equipment, or other costs associated with refurbishing kits on state inventory are not allowable costs. Funds provided for Instructional Materials may be carried forward from the prior fiscal year into the current fiscal year to be expended for the same purposes by the department, school districts, and special schools. These funds are not subject to flexibility.

The data shall document how federal funds are expended at the state and district level in accordance with federal guidelines on allowable expenditures and shall include information on how the funds have been used to offset the learning loss students are facing and mitigations taken due to the COVID-19 pandemic. The Department of Education and the Executive Budget Office shall post the monthly reports on their websites.

1.80. (SDE: Public School Virtual Program Funding) For the current fiscal year, all school districts and brick and mortar charter schools shall be permitted to offer a virtual education program for up to five percent of its student population based on the most recent 135 day ADM count without impacting any state funding. School districts offering a virtual program must report their ADM counts for students participating in their virtual program and the number of students participating face to face for the 5th, 45th, 90th, and 135th day to the Department of Education.

For every student participating in the virtual program above the five percent threshold, the school district will not receive 47.22% of the State per pupil funding provided to that district as reported in the latest Revenue and Fiscal Affairs revenue per pupil report pursuant to Proviso 1.3. This amount shall be withheld from State Aid to Classroom's district allocation.

The five percent threshold shall not apply to students whose IEP or 504 status requires their participation in a program administered in a virtual format.

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

1.81. (SDE: Capital Funding for Schools) The funds appropriated for Capital Funding for Schools shall be prioritized by the Department of Education pursuant to subsections (A),(B), and (C).

real property, centralized district administration facilities, or other facilities, including those normally identified with interscholastic sports activities.

The department shall develop an application process for public and charter school districts to request funding for facilities upgrades aligned with school safety priorities and establish policies, procedures, and priorities for the making of grants pursuant to this subsection. Criteria for prioritizing the awarding of grants shall include, but not be limited to, percentage of students enrolled from low-income families, the age and condition of the existing school facilities to be upgraded as well as the ability to commence construction in a timely matter and the quality of the application. The criteria must also require that all proposed projects do not create new recurring annual expenses and comply with local, state, and federal building codes.

Applications must be submitted to the department by September 1, 2023. Upon receipt of applications pursuant to the application process adopted by the department, the department shall prioritize the eligible projects with the greatest need using the established criteria and shall submit a list of recommended grant awards to the State Board of Education no later than November 30, 2023. Grants shall be awarded upon an affirmative vote of the State Board.

"In\$ite" means the financial analysis model for education programs utilized by the Department of Education.

School districts are encouraged to reduce expenditures by means, including, but not limited to, limiting the number of low enrollment courses, reducing travel for the staff and the school district's board, reducing and limiting activities requiring dues and memberships, reducing transportation costs for extracurricular and academic competitions, restructuring administrative staffing, and expanding virtual instruction.

School districts and special schools may carry forward unexpended funds from the prior fiscal year into the current fiscal year.

Prior to implementing the flexibility authorized herein, school districts must provide to Public Charter Schools the per pupil allocation due to them for each categorical program.

Quarterly throughout the current fiscal year, the chairman of each school district's board and the superintendent of each school district must certify where non-instructional or nonessential programs have been suspended and the specific flexibility actions taken. The certification must be in writing, signed by the chairman and the superintendent, delivered electronically to the State Superintendent of Education, and an electronic copy forwarded to the Chairman of the Senate Finance Committee, the Chairman of the Senate Education Committee, the Chairman of the House Ways and Means Committee, and the Chairman of the House Education and Public Works Committee. Additionally, the certification must be presented publicly at a regularly called school board meeting, and the certification must be conspicuously posted on the internet website maintained by the school district.

For the current fiscal year, Section 59-21-1030 is suspended. The foreign language program assessment, and the physical education assessment must be suspended. School districts and the Department of Education are granted permission to purchase the most economical type of bus fuel.

prominently posted on the district's internet website and made available for public viewing and downloading. The register must include for each expenditure:

- (i) the transaction amount;
- (ii) the name of the payee; and
- (iii) a statement providing a detailed description of the expenditure.

The register must not include an entry for salary, wages, or other compensation paid to individual employees. The register must not include any information that can be used to identify an individual employee. The register must be accompanied by a complete explanation of any codes or acronyms used to identify a payee or an expenditure. The register must be searchable and updated at least once a month.

Each school district must also maintain on its internet website a copy of each monthly statement for all of the credit cards maintained by the entity, including credit cards issued to its officers or employees for official use. The credit card number on each statement must be redacted prior to posting on the internet website. Each credit card statement must be posted not later than the thirtieth day after the first date that any portion of the balance due as shown on the statement is paid.

The Comptroller General must establish and maintain a website to contain the information required by this section from a school district that does not maintain its own internet website. The internet website must be organized so that the public can differentiate between the school districts and search for the information they are seeking.

The provisions contained herein do not amend, suspend, supersede, replace, revoke, restrict, or otherwise affect Chapter 4, Title 30 of the South Carolina Freedom of Information Act. Nothing in this proviso shall be interpreted as prohibiting the State Board of Education to exercise its authority to grant waivers under Regulation 43-261.

In the event that more

SECTION 1A - H630 - DEPARTMENT OF EDUCATION-EIA

students seek to enroll than available space permits, districts shall prioritize students (at the time of acceptance) on the basis of family income expressed as a percentage of the federal poverty guidelines, with the lowest family incomes given the highest enrollment priority.

1A.21. (SDE-EIA: Reading) The funds allocated to the Department of Education for reading shall be used to provide districts with research-based strategies and professional development and to work directly with schools and districts to assist with implementation of research-based strategies. When providing professional development the department and school districts must use the most cost effective method and when able utilize ETV to provide such services throughout the state. The department shall establish measurements for monitoring impact on student achievement.

1A.22. (SDE-EIA: Professional Development) Of the funds appropriated for professional development, up to \$500,000 may be expended for gifted and talented teacher endorsement and certification activities. The remaining funds will be allocated to districts based on a formula which includes factors such as target populations without a high school credential, program enrollment the previous school year, number of students making an educational gain the previous

SECTION 1A - H630 - DEPARTMENT OF EDUCATION-EIA

school year, and performance factors such as number of high school credentials and career readiness certificates awarded the previous school year. Overall levels of state funding must meet the federal requirement of state maintenance of effort. Each school district must collect information from both the student and the school including why the student has enrolled in Adult Education and whether or not the student is pursuing a GED or Diploma. The school district must then provide a quarterly report to the Department of Education and must include the unique student identifier. The department, in turn, will provide summary information to the House Ways and Means Committee, the House Education and Public Works Committee, the Senate Finance Committee and the Senate Education Committee on the information. Up to a maximum of \$300,000 of funds may be used to establish an initiative by which qualifying adult education students may qualify for a free high school equivalency test. The Department of Education shall establish guidelines for the free high school equivalency testing initiative.

1A.25. (SDE-EIA: Clemson Agriculture Education Teachers) The funds appropriated in Part IA, Section VIII.F. for Clemson Agriculture Education Teachers must be transferred to Clemson University PSA to fund summer employment of agriculture teachers and to cover state-mandated salary increases on that portion of the agriculture teachers' salaries attributable to summer employment. If sufficient funds remain, Clemson University PSA may utilize such funds for a Regional Coordinator.

1A.26. (SDE-EIA: Full-Day 4K) Eligible students residing in any school district or attending any charter school authorized by the South Carolina Public Charter School District or an approved institution of higher education may participate in the South Carolina Early Reading Development and Education program (CERDEP) pending the availability of space and funding. Student eligibility as defined by Section 59-156-130 of the 1976 Code is an annual family income of one hundred eighty-five percent or less of the federal poverty guidelines as promulgated annually by the United States Department of Health and Human Services or a statement of Medicaid eligibility.

A parent or guardian may choose to enroll their child in a public school participating in the program and approved by the Department of Education pursuant to Section 59-156-210 or in a private provider participating in the program and approved by the Office of First Steps pursuant to Section 59-156-200. A private provider includes, but is not limited to, a child care center, a military child care facility regulated by

SECTION 1A - H630 - DEPARTMENT OF EDUCATION-EIA

the United States Department of Defense, or a non-profit independent school. State funds appropriated for the provision of CERDEP services in military child care facilities may not be used to supplant existing federal child care funds. No school district can be denied participation in CERDEP or be denied CERDEP funding pursuant to the terms of this provision.

4K programs in public schools and non-profit independent schools participating in CERDEP are not required to be approved, registered, or licensed by the Department of Social Services in order to participate in CERDEP. Instead, the Department of Education and the Office of First Steps are responsible for ensuring that providers deliver high-quality educational programs pursuant to Section 59-156-160.

Public and private providers shall be funded for instructional costs at a minimum rate of \$5,100 per student enrolled. Eligible students enrolling during the school year or withdrawing during the school year shall be funded on a pro rata basis determined by the length of their enrollment. Private providers transporting eligible children to and from school shall also be eligible for reimbursement at a minimum of \$620 per eligible child transported. First Steps and the Department of Education must provide an equitable distribution above the minimum between public and private providers. First Steps and the Department of Education must provide a quarterly report beginning October 1 detailing funding above the minimum made to any provider to the Governor, the Chairman of the Senate Finance Committee, and the Chairman of the House Ways and Means Committee. All providers who are reimbursed are required to retain records as required by their fiscal agent. New providers participating for the first time in the current fiscal year and enrolling between one and six eligible children shall be eligible to receive at a minimum of \$1,000 per child in materials and equipment funding, with providers enrolling seven or more such children eligible for funding at a minimum of \$10,000. The Department of Education and the Office of First Steps Readiness are authorized to utilize carry forward funds and federal funds to supplement the amount expended for materials and equipment. Providers receiving equipment funding are expected to participate in the program and provide high-quality, center-based programs as defined herein for a minimum of three years. Failure to participate for three years will require the provider to return a portion of the equipment allocation at a level determined by the Department of Education and the Office of First Steps to School Readiness. Funding to providers is contingent upon receipt of data as

SECTION 1A - H630 - DEPARTMENT OF EDUCATION-EIA

requested by the Department of Education and the Office of First Steps. The Department of Education shall only provide funding for public school students whose complete records have been entered into PowerSchool based on the one hundred and thirty-five day student average daily membership. For the current fiscal year, providers may enroll pay-lunch children who score at or below the twenty-fifth national percentile on two of the three DIAL-3 subscales by July 1 if at least seventy-five percent of the total number of children eligible or the Child Early Reading Development and Education Program in a district or county are projected to be enrolled in that program, Head Start, or ABC Child Care Program as determined by the Department of Education and the Office of First Steps, Child Early Reading Development and Education Program. Providers may receive reimbursement for these children if funds are available. The Department of Education is required to offer waivers allowing students with disabilities to be served in multi-categorical classroom settings based on similar cognition and abilities. Funding appropriated for CERDEP may be carried forward and expended for the same purpose.

Annually, the Department of Education is directed to audit the annual allocations to public providers to ensure that allocations are accurate and aligned to the appropriate pro rata per student allocation, materials, and equipment funding. In the event the department, during the audit process determines that the annual allocations of the prior fiscal year are not accurate, the department must adjust the allocations for the current fiscal year to account for the audit findings. The department must provide the results of the annual audit findings to the General Assembly no later than December first. Likewise, in the event the Office of First Steps determines that the annual allocations of the prior fiscal year to private providers are not accurate, the Office of First Steps must adjust the allocations for the current fiscal year to account for the findings.

Of the funds appropriated, \$300,000 shall be allocated to the Education Oversight Committee to conduct an annual evaluation of the South Carolina Child Development Education Pilot Program and to issue findings in a report to the General Assembly by March first of each year. To aid in this evaluation, the Education Oversight Committee shall determine the data necessary and both public and private providers are required to submit the necessary data as a condition of continued participation in and funding of the program. This data shall include developmentally appropriate measures of student progress. Additionally, the Department of Education shall issue a unique student

SECTION 1A - H630 - DEPARTMENT OF EDUCATION-EIA

identifier for each child receiving services from a private provider. The Department of Education shall be responsible for the collection and maintenance of data on the public state funded full day and half-day four-year-old kindergarten programs. The Office of First Steps to School Readiness shall be responsible for the collection and maintenance of data on the state funded programs provided through private providers. The Education Oversight Committee shall use this data and all other collected and maintained data necessary to conduct a research based review of the program's implementation and assessment of student success in the early elementary grades along with information, recommendations, and a timeline for how the state can increase the number of students served in high-quality programs.

For eligible children residing in school districts that do not participate in CERDEP, the Department of Education is required to develop and implement inter-district transfer policies that give parents or guardians the option of their eligible child attending an out-of-district school that participates in CERDEP.

For the current fiscal year, the Office of First Steps may expend: (1) up to \$2,000,000 to pilot a program to provide higher reimbursement rates to high-quality providers. The reimbursement rate for students enrolled by child care providers rated B or higher in the ABC Quality System operated by the Department of Social Services may be increased by up to 10% of the per-student base following guidelines developed by the Office of First Steps; and (2) up to \$250,000 to provide one-time supplemental, needs-based incentive grants in an amount not to exceed \$30,000 for newly created and/or newly approved private providers proposing to expand service to ten or more CERDEP eligible children in communities unable to enroll all eligible students in a public, private, or Head Start setting during the prior fiscal year. These grants are designed to address building renovations, documented as necessary to bring proposed classrooms into compliance with licensing regulations, materials and staffing costs, and/or other obstacles currently preventing their participation in the program. The First Steps Board of Trustees shall develop and approve an application process that incorporates formal review and fiscal safeguards designed to ensure grant funds are used solely to address documented barriers to program participation. Providers receiving this one-time supplement shall be expected to participate in the program and provide high-quality, center-based programs as defined herein for a minimum of three years. Failure to participate for three years shall require the provider to return a portion

SECTION 1A - H630 - DEPARTMENT OF EDUCATION-EIA

of the supplemental allocation at a level determined by the Office of First Steps to School Readiness. First Steps shall submit a report detailing its process, expenditures and expanded enrollment to the Chairman of the House Ways and Means Committee and the Chairman of the Senate Finance Committee by March 15.

If by August first, the Department of Education or the Office of First Steps determines that appropriations will exceed expenditures, available funds may be used to fund an extended program and to increase the length of the program to a maximum of eight and a half hours per day or two hundred and twenty days per year or to fund summer programs. If a district chooses to fund summer enrollment, the program funding shall conform to the funding in this act for full year programs; however, it shall be reduced on a pro rata basis to conform with the length of the program. A summer program shall be no more than eight and a half hours per day and shall be not more than ten weeks in length. The per pupil allocation and classroom grant must conform with the appropriated amount contained in this act and end of year adjustments shall be based on the one hundred and thirty-five-day student average daily membership or later student average daily membership for districts choosing to extend the program past one hundred and eighty days. Funds may also be used to provide parent engagement, professional development, and quality evaluations of programs. No later than April first, the Department of Education and the Office of First Steps shall report to the Chairman of the Senate Finance Committee and the Chairman of the House Ways and Means Committee on the expenditure of these funds to include the following information: the amount of money used and specific steps and measures taken to enhance the quality of the 4K program and the amount of money used for professional development as well as the types of professional development offered and the number of participants. The Office of First Steps is directed to determine if the provision of extended programs in private centers improves the ability of parents to enter the workforce or to pursue postsecondary training or industry credentials.

On or before November 15, the Department of Education and the Office of First Steps shall share data that identifies the total number of children enrolled in CERDEP in both public and private providers. If available appropriations exceed the instructional costs of serving children enrolled in the program and if a waiting list of eligible children can be documented by the Department of Education and by the Office of First Steps, then the Executive Budget Office may authorize the transfer

SECTION 1A - H630 - DEPARTMENT OF EDUCATION-EIA

of funds between the Department of Education and the Office of First Steps.

The Office of First Steps and the Department of Education shall collaborate with the South Carolina Head Start State Collaboration Office to inform parents of all publicly funded full-day 4K programs including Head Start by participating in PalmettoPreK and First5SC.

1A.27. (SDE-EIA: Centers of Excellence) Of the funds appropriated for Centers of Excellence, \$350,000 must be allocated to the Francis Marion University Center of Excellence to Prepare Teachers of Children of Poverty to expand statewide training for individuals who teach children of poverty through weekend college, nontraditional, or alternative learning opportunities.

1A.28. (SDE-EIA: Career Cluster Industry Partnerships) From the funds appropriated to the Department of Education, \$800,000 must be provided as direct grants to the private sector statewide trade association or educational foundation providing nationally certified programs in career and technology education representing the automotive, construction, engineering, healthcare, mechanical contracting/construction, and hospitality tourism career clusters. Organizations applying for a grant must do so by July thirty-first and the Department of Education must award a minimum of one grant of at least \$150,000 in at least four of these specified career clusters to be used exclusively for career and technology education. The recipient industry organization must conduct end-of-course exams graded by a national industry organization and must include in their grant request how the money will be spent in direct support of students to further industry-specific career technology education; a description and history of their program nationally and within South Carolina; estimates of future employment growth in their industry; and the national scope of their program. By August first of the following year, the organization must submit to the department a report detailing how the grant increased industry/employer awareness; the number of increased schools using the industry-based curriculum and partnered with the industry organization; the increased number of students in the program; and an overview and analysis of the organization's statewide student competition. The grant must be used for career awareness programs for that industry cluster; statewide student competitions leading to national competitions; teacher development and training; post-secondary scholarships in industry-specific degree programs; student recruitment into that career cluster programs; programs to educate middle and high school Career or

Guidance Counselors about the industry; service to disadvantaged youth; and administering business/employer awareness and partnerships which help lead to experience-based, career-oriented experiences including internships, apprenticeships, mentoring, co-op education and service learning. The Office of Career and Technology Education of the department will develop goals with each career cluster on the number of new schools using the industry-based curriculum and partnered with that career cluster organization. These funds may not be used to supplant or replace, in whole or in part, other existing resources/assets sourced outside the present grant being used to provide the same services or programs. Organizations may carry-over grants for up to three years when a large project is identified in the grant application to be used at a future date; otherwise excess funds must be returned to the state. Organizations awarded must submit a semi-annual programmatic and financial report on the last day of December in addition to the final report due August first that has been audited by a third party accounting firm.

For the current school year, the Southeastern average teacher salary is projected to be \$58,048. The General Assembly remains desirous of raising the average teacher salary in South Carolina through incremental increases over the next few years so as to make such equivalent to the national average teacher salary.

Additionally, for the current fiscal year, a local school district board of trustees must increase the salary compensation for all eligible certified teachers employed by the district by no less than one year of experience

SECTION 1A - H630 - DEPARTMENT OF EDUCATION-EIA

For purposes of this provision, teachers shall be defined by the Department of Education using the Professional Certified Staff (PCS) System.

1A.32. (SDE-EIA: PowerSchool Dropout Recovery Data) With the funds appropriated to the Department of Education for PowerSchool and data collection, the department will begin in the current fiscal year to collect data from schools and school districts on the number of students who had previously dropped out of school and who reenrolled in a public school or adult education to pursue a high school diploma. The Education Oversight Committee working with the Department of Education will determine how to calculate a dropout recovery rate that will be reflected on the annual school and district report cards. The department may carry forward and expend the funds for the same purpose.

1A.33. (SDE-EIA: Assisting, Developing and Evaluating Professional Teaching -ADEPT) With funds appropriated in the current fiscal year, the Department of Education, school districts, the Department of Juvenile Justice and special schools of the state may continue implementation of the ADEPT program. The Education Oversight Committee may provide financial support to districts and to public-private partnerships for planning and support to implement, sustain and evaluate the innovation and to develop a matrix and measurements of student academic success based on evidence-based models. These funds may also be used to support the innovative delivery of science, technology, and genetic education and exposure to career opportunities in science, including mobile science laboratory programs, to students enrolled in the Abbeville equity school districts and students in high poverty schools. These funds may also focus on creating public-private literacy partnerships utilizing a 2:1 matching funds provision when the initiative employs research-based methods, has demonstrated success in increasing reading proficiency of struggling readers, and works directly with high poverty schools and districts. The committee will work to expand the engagement of stakeholders including state agencies and boards like the Educational Television Commission, businesses, and higher education institutions. The committee shall annually report to the General Assembly on the measurement results.

1A.37. (SDE-EIA: Aid to Districts Draw Down) For the current fiscal year, in order to draw down funds appropriated in Part IA, Section 1, VIII.A.1, Aid to Districts, school districts, Palmetto Unified District and the Department of Juvenile Justice must work with local law enforcement agencies and fire marshals, and when necessary, state law enforcement agencies and the Office of the State Fire Marshal in order to ensure that the district has updated school safety and fire plans in place. Further, CERRA will continue implementing a long-range plan for approving additional TF programs at other public, four-year institutions who wish to be considered to host a TF program, provided the proposed programs meet the requirements set forth by the CERRA Board of Directors. CERRA will publish TF program criteria and requirements prominently on its website. Any institution who applies but is not selected to host a TF program will be informed in writing of the basis for the selection decision and be offered technical support if the institution elects to reapply. The department will also provide the results of the assessment of kindergarten students to the Education Oversight Committee. With available funds, the department will also provide or secure training for appropriate educators in how to administer the assessment.

For all students assessed with the Kindergarten Readiness Assessment (KRA), the Department of Education is required to collect data from schools and school districts on the prior early learning experience of each student. High-need may be determined by using a district's Index of Taxpaying Ability.

1A.71. (SDE-EIA: Testing Pilot) Of the funds appropriated for assessment, the Department of Education will expend \$300,000 to pilot the feasibility of requiring a passing score on a rigorous test of scientifically research-based reading instruction and intervention and data-based decision-making principles, as determined by the State Board of Education, for initial early childhood and elementary education licensure.

1A.72. (SDE-EIA: High Intensity Tutoring) The Department of Education is authorized to provide funds to school districts and community partners in the current fiscal year to pilot academic support programs providing high-dosage, low-ratio tutoring to students in mathematics and reading by compensated tutors.

The Department of Education should prioritize available funding for academic support program applications that include LEA or local funding matches, LEA capacity for successful program implementation, or a large proportion of students needing priority placement within an academic support program.

The Department of Education may collaborate with community partners to implement and conduct academic support programs. Academic support program partners shall comply with personnel criminal history checks and any applicable building safety standards.

At a minimum, eligible academic support programs shall include tutoring sessions totaling one and a half hours per week. Tutoring sessions should be scheduled at least twice weekly for forty-five minutes. Tutoring sessions shall be held in small group settings of no more than three students per tutor but may occur within or outside the

SECTION 1A - H630 - DEPARTMENT OF EDUCATION-EIA

regular school day. Students scoring, or expected to achieve, “Does Not Meet Expectations” on the statewide summative assessment should be given priority placement within the academic support program.

The Department of Education, in collaboration with the Education Oversight Committee, shall prepare a report on the effectiveness of the academic support programs for the Governor and General Assembly. Participating LEAs and public charter schools shall submit data as requested by the Department of Education, including, but not limited to, student enrollment, attendance, and student pre-/post-test scores from a state-approved formative assessment or high school content assessment.

1A.73. (SDE-EIA: Foundational Literacy Skill Training) Beginning with the current fiscal year, the Department of Education shall provide training in foundational literacy skills to public school educators working with students in kindergarten through grade three, pending the availability of funding and space. The Department of Education shall deliver professional development that has demonstrated success in establishing deep knowledge of evidence-based foundational literacy skills grounded in the science of reading and promoting student reading achievement.

Each school district shall participate in the implementation of this foundational literacy skills training. The department and school districts shall create an implementation plan to include educator cohorts to begin in the fall and spring of the 2023-24 school year, with a goal of state-wide implementation for every educator working with students in kindergarten through grade three certified in early childhood, elementary, and special education. Elementary administrators should also be included in the foundational literacy skills training.

Selected educators shall participate in foundational literacy skills training provided and paid for by the Department of Education. Successful completion of this training shall satisfy the requirements of the literacy teacher endorsement. Educators who successfully complete the training, as determined by the department, shall receive a monetary stipend.

The Department of Education shall identify reliable and valid universal reading screeners as potential replacements for the readiness assessment required under Section 59-155-150. The identified screeners may be selected and used by school districts to screen and monitor kindergarten through second grade student progress in foundational literacy skills, and to identify or predict those who may be at risk for poor reading outcomes. Each identified universal reading screener must:

SECTION 1A - H630 - DEPARTMENT OF EDUCATION-EIA

- (1) provide screening and diagnostic capabilities for monitoring student progress in reading;
- (2) measure, at a minimum, phonological awareness, phonemic awareness, phonics, fluency, vocabulary, and comprehension; and
- (3) identify students with a reading deficiency, including identifying students with characteristics of dyslexia.

In its annual Reading Proficiency Plan, each district shall:

- (1) document how the reading and writing curriculum, instruction, and assessment for all PK-5 students are aligned with the science of reading, structured literacy, and foundational skills. PK-5 textbooks or instructional materials that employ the three-cueing system model of reading, visual memory as the primary basis for teaching word recognition, or the three-cueing system model of reading based on meaning, structure and syntax, and visual, which is also known as "MSV", shall not be used in reading instruction;
- (2) document the number of first and second grade students who are projected to score "Does Not Meet" on the statewide summative reading assessment;
- (3) document how scientifically-based supplemental interventions are provided to struggling readers who fail to demonstrate grade-level proficiency as demonstrated by a score of "Meets or Exceeds Expectations"; and
- (4) explain how the district will provide teacher training in the science of reading, structured literacy, and foundational literacy skills.

As used in this provision:

(1) "Foundational literacy skills" means phonological awareness, phonemic awareness, phonics, fluency, vocabulary, and reading comprehension. This definition of foundational literacy skills specifically excludes the "Three-cueing system", which is any model of teaching students to read based on meaning, structure and syntax, and visual cues, which may also be known as "MSV".

(2) "Science of Reading" means the body of research that identifies evidence-based approaches of explicitly and systematically teaching students to read, including foundational literacy skills that enable students to develop reading skills required to meet state standards in literacy.

(3) "Structured Literacy" means an evidence-based approach to teaching oral and written language aligned to the science of reading founded on the science of how children learn to read and characterized by explicit, systematic, cumulative, and diagnostic instruction in

SECTION 1A - H630 - DEPARTMENT OF EDUCATION-EIA

phonology, sound-symbol association, syllable instruction, morphology, syntax, and semantics.

1A.74. (SDE-EIA: Artificial Intelligence) The SC Department of Education will expend \$3 million to develop, pilot, and implement a high school curriculum for high school students in an artificial intelligence (AI) career and technology program. The program will include a four-year sequential pathway that is aligned with two- and four-year college automotive programs and includes teacher training, third-party assessments, and certifications.

SECTION 3 - H660 - LOTTERY EXPENDITURE ACCOUNT

3.1. (LEA: Audit) Each state agency receiving lottery funds shall develop and implement procedures to monitor the expenditures of lottery funds in order to ensure that lottery funds are expended in accordance with applicable state laws, rules, and regulations.

For institutions of higher learning, adopted procedures to monitor expenditures of lottery funds shall be reported to the Commission on Higher Education and the Executive Budget Office by October 1 of the current fiscal year, and these expenditures are subject to annual verification and audit by the Commission on Higher Education on a rotational schedule not to exceed three years. In addition, the Commission on Higher Education shall provide a report to the Executive Budget Office, the Chairman of the Senate Finance Committee, and the Chairman of the House Ways and Means Committee by October first each year summarizing, by institution, how lottery funds were expended in the prior fiscal year, issues and concerns as well as institution responses to those issues and concerns discovered as a result of the commission's verification and/or audit activity during the prior fiscal year, if any.

Chairman of the House Ways and Means Committee on the amount of lottery funds the department distributed to each entity in the prior fiscal year.

All other state agencies must submit their adopted procedures to monitor expenditures of lottery funds to the Executive Budget Office by October 1 of the current fiscal year.

The Executive Budget Office shall ensure that state agencies receiving lottery funds have procedures in place to monitor expenditures of lottery funds and that the monitoring procedures are operating effectively.

3.2. (LEA: Election Day Sales) For the current fiscal year, Section 59-150-210(E) is suspended.

3.3. (LEA: Student Unique Identifiers) For the current fiscal year, in order to provide longitudinal data, institutions of higher education and technical colleges accepting lottery funds must retain the student unique identifier or SUNS number assigned to students who attended public high schools in South Carolina. This shall not prohibit institutions of higher education or technical colleges from using additional student identifiers.

3.6. (LEA: FY 2023-24 Lottery Funding) There is appropriated from the Education Lottery Account for the following education purposes and programs and funds for these programs and purposes shall be transferred by the Executive Budget Office as directed below. These appropriations must be used to supplement and not supplant existing funds for education. For cash flow purposes, the Executive Budget Office may facilitate limited transfers from the general deposits of the state for the exclusive purpose of ensuring the timely distribution of scholarships and tuition assistance payments as provided below. Any use of this transfer allowance must include full reimbursement from the Education Lottery Account to the general deposit accounts of the state prior to the close of the fiscal year.

The provisions of Section 2-75-30 regarding the aggregate amount of funding provided for the Centers of Excellence Matching Endowment are suspended for the current fiscal year.

SECTION 3 - H660 - LOTTERY EXPENDITURE ACCOUNT

The Commission on Higher Education is authorized to temporarily transfer funds between appropriated line items in order to ensure the timely receipt of scholarships and tuition assistance. It is the goal of the General Assembly to fund the Tuition Assistance program at such a level to support at least \$996 per student per term for full-time students.

Fiscal Year 2023-24 net lottery proceeds and investment earnings in excess of the certified net lottery proceeds and investment earnings for this period are appropriated and must be used to ensure that all LIFE, HOPE, and Palmetto Fellows Scholarships for Fiscal Year 2023-24 are fully funded.

If a revenue shortfall still exists once the fund balance has been exhausted, then the projects and programs receiving appropriations for any such year shall have their appropriations reduced on a pro rata basis, except that a reduction must not be applied to the funding of LIFE, HOPE, and Palmetto Fellows Scholarships.

The Higher Education Tuition Grants Commission is authorized to use up to \$70,000 of the funds appropriated in this provision for Tuition Grants to provide the necessary level of program support for the grants award process.

Of the funds appropriated to the Commission on Higher Education for College Transition Scholarships, the commission shall provide scholarships to South Carolina resident students enrolled at a public institution of higher education in an established College Transition Program (CTP) that serves students with intellectual disabilities. The commission, in consultation with the CTPs, shall develop guidelines establishing scholarship eligibility, retention, and/or renewal requirements in accordance with this paragraph. Scholarships shall be awarded to each South Carolina resident student enrolled in an established public CTP in an amount of at least \$2,500 per semester, not to exceed \$10,000 per academic year (including summer semester), and no student may receive a scholarship for more than eight semesters in total. In addition, the limitations of Proviso 11.12 notwithstanding, individual CTPs shall have the discretion to allocate a portion of their

aggregate funding provided pursuant to this provision for need-based grants to eligible students. This discretion is allowable only to the extent that the funding for need-based grants for eligible CTP students provided pursuant to Proviso 11.12 has first been fully exhausted. The commission, in cooperation with the CTPs, shall collect and report the number of scholarship recipients and other information determined necessary to evaluate the effectiveness of these scholarships in assisting students with intellectual disabilities in college transition programs. The commission shall provide this report to the Governor, the Chairman of the House Education and Public Works Committee, the Chairman of the Senate Education Committee, the Chairman of the House Ways and Means Committee, and the Chairman of the Senate Finance Committee no later than September 30. Unexpended funds may be carried forward and used for the same purpose, except that up to \$250,000 may be used by the CTP consortium (known as The South Carolina Inclusive Post-Secondary Education Consortium) to be used collaboratively by the consortium to promote better awareness of CTP programs statewide as an option for youth with intellectual disabilities after high school through dedicated support for activities such as, but not necessarily limited to, student recruitment, development and maintenance of a consortium website and associated materials, and the provision of strategic informational events for prospective students and families across the State. Additionally, unexpended or carried forward funds may be used by individual college transition programs in partnership with third party providers for technology resources for students participating in these programs. Not more than \$1,000,000 of total unexpended funds may be used for this purpose among all CTPs. The commission shall establish the criteria for which these funds will be allocated.

Of the funds appropriated to the Commission on Higher Education for Need-Based Grants, public colleges and universities must submit requests to carry forward Need-Based Grants to the Commission on Higher Education by June 30, 2024, and final invoices for Need-based Grants by a date determined by the commission. For Fiscal Year 2023-24, all eligible students must be awarded up to the maximum allowable amount prior to any Need-Based Grant funds being carried forward. Funds only shall be carried forward if all eligible Need-based Grant students at the public colleges and universities are fully funded with financial aid that does not require student repayment. Funds allocated for Fiscal Year 2023-24 must be distributed in the same academic year.

SECTION 3 - H660 - LOTTERY EXPENDITURE ACCOUNT

Funds shall be allocated accordingly to the state's public colleges and universities, including technical colleges, that have accredited nursing programs accredited by a national accrediting agency recognized by the United States Department of Education. The first \$5 million shall be used to provide bonuses or supplement the salaries of existing full-time faculty and the hourly rates of part-time faculty, or the salaries of clinical nursing faculty, which includes adjunct faculty. The funds shall be allocated to each public college or university, including technical colleges, based on the number of students enrolled in nursing programs. The second \$5 million shall be used to provide tuition reimbursement or scholarships for students enrolled in graduate-level nurse educator programs, Doctor of Nursing Practice, or Ph.D. programs. The scholarship recipients must agree to assume a faculty role in a state nursing program after graduation for a minimum of two years for each year they receive the scholarship. Annually by September 15, the Commission shall report on the Nursing Initiative, at a minimum, the following: (1) total number of students receiving tuition reimbursements or scholarships; (2) total number of students receiving tuition reimbursements or scholarships subsequently hired as faculty; (3) total number of students receiving tuition reimbursements or scholarships not hired as faculty; (4) amount of funding allocated to each institution with eligible nursing programs; (5) expenditures and encumbrances of Nursing Initiative funds for eligible faculty for each program; and (6) retention rates, new hires and vacancies for full-time, part-time (including adjunct), and clinical faculty for each eligible program. The report should exclude the following: (1) general obligation debt authorized under Section 13, Article X of the Constitution of South Carolina, 1895, and debt issued by the state institution under Section 13, Article X of the Constitution of South Carolina, 1895, but not debt issued under Section 13 or 14 of Article X on its behalf or for its benefit; and (2) an institution's obligation to make payments when the total amount of money needed for the obligation is committed for that purpose, authorized for expenditure, and in hand.

Without limitation, the report should include the following information for each obligation identified, if applicable: (1) the interest or right acquired; (2) the initial, maximum, and then outstanding amount of indebtedness involved; (3) whether a credit rating was obtained for such indebtedness; (4) the amount and frequency of payments involved, and who makes the payments; (5) the total amount of payments remaining to be made; (6) the initial and remaining duration of the obligation; (7) the source of funds used to make payments; (8) the parties to the arrangement and any associated borrowing, including without limitation, the entity lending the funds or assets associated with the financed acquisition; and (9) any counterparty or intermediary involved.

If, in the State Auditor's judgment, a state institution does not timely submit a complete and accurate report, he may obtain the service of independent professionals to audit the institution's records and charge the institution for the associated cost. Sections 11-7-30, 11-7-35, and 11-7-45 of the 1976 Code shall apply to this special study as though it were an audit.

The employee bonus amount shall be approved by the State Human Resources Director based on State Human Resources guidelines, and shall not exceed \$10,000 per year. Payment of these bonuses is not a part of the employee's base salary and is not earnable compensation for purposes of employee and employer contributions to respective retirement systems. Agencies may pay these employees up to twenty percent or \$7,500, whichever is less, of their outstanding student loan each year over a five-year period. Payments will be made directly to the employee at the end of each year of employment. The agency will be responsible for verifying the principal balance of the employee's student loan prior to issuing payments.

Agencies are also authorized to allow tuition reimbursement from a maximum of ten credit hours per semester; allow probationary employees to participate in tuition programs; and provide tuition prepayment instead of tuition reimbursement for employees willing to pursue a degree in a healthcare program. An agency may pay up to fifty percent of an employee's tuition through tuition prepayment. The remaining tuition could be reimbursed to the employee after successful completion of the class.

The Department of Administration shall approve of the designation of critical needs positions applicable to this provision using guidelines that include, but are not limited to: 1) the difficulty recruiting for the positions as reflected by data such as the vacancy rate maintained, the average time to fill, the lack of sufficient qualified applicants, and other objective factors; 2) the difficulty retaining employees in the positions as shown by turnover data; 3) justification by the state agency that the position is critical to the core mission of the agency and directly impacts the health, safety and welfare of the public; and 4) assurances from the state agency that there are sufficient existing funds available to pay for items under this provision.

Healthcare employees in approved critical needs positions working on a practicum or required clinical experience towards completion of a healthcare degree may be allowed to complete these requirements at their state agency or another state agency at the discretion of the agency head. This field placement at another state agency may be considered work time for participating employees.

(F) In consultation with the Department of Juvenile Justice and the Department of Mental Health, the Department of Health and Human Services shall ensure that access to "no eject, no reject" services is restored for children and adolescents requiring care in a private residential treatment facility.

(G) To ensure that individuals requiring behavioral health services are protected from unexpected or excessive billings, the Department of Mental Health shall examine ways to convert state-funded or DSH-funded indigent care to a sustainable reimbursement model that improves access to behavioral health treatment while potentially reducing uncompensated care levels and the department's reliance on state funds. In the current fiscal year, the department shall report to the Chairmen of the Senate Finance Committee and the House Ways and Means Committee on the results of this examination and the actions taken to address any findings. The department also shall:

(1) contract for an exhaustive independent review of its entire revenue cycle, to eliminate inefficiencies and improve business processes, ensure that bills are produced on a timely and accurate basis, and assess and maximize the proportion of the time during which the department's clinicians and providers are rendering chargeable treatment services to the State's citizens; and

(2) ensure its immediate and ongoing compliance with the hospital price transparency rules established at 45 C.F.R. Part 180, and also meet its obligation to provide certain patients with good faith estimates as required by the No Surprises Act, P.L. 116-260, and subsequent regulation.

(H) With the support and participation of the Department of Education and the Department of Mental Health, and with the intent of assuring access to behavioral health services to every student in the State through either a public or private provider, the Department of Health and Human Services must lead a comprehensive effort to improve access to and the quality of school-based behavioral health services in South

SECTION 117 - X900 - GENERAL PROVISIONS

Carolina, while identifying and taking steps to address community-level disparities in the availability of this care. This effort shall include, but not be limited to:

(1) the performance of a comprehensive review of Medicaid and non-Medicaid school-based behavioral health services in South Carolina, including an assessment of the availability of such services and the identification of any barriers to access, such as coverage and reimbursement rules, billing practices, other insurer policies, state agency, school district rules or procedures, or provider shortages;

(2) a revisit of existing coverage policies for medically necessary services provided to children, including those with or without a disability determination, and whether those services are or are not required by a child's individualized education plan or individualized family services plan, whether they do or do not arise from a referral under the Early and Periodic Screening, Diagnostic, and Treatment program, and in the context of State Medicaid Director Letter 14-006;

(3) the rescission of any Medicaid or PEBA policies that deny coverage, solely on the basis that those services are being provided within a school or through a telehealth encounter that originates in a school, of medically necessary outpatient services that have been furnished to eligible children by enrolled and qualified providers;

(4) the issuance of any new Medicaid policies needed to durably enshrine any appropriate telehealth coverage that had been authorized on a temporary basis during the public health emergency;

(5) a review of statewide and school district-level policies and practices relating to suicide risk referral protocols and behavioral health training for student-facing personnel in schools; and

(6) reporting to the Chairman of the Senate Finance Committee and the Chairman of the House Ways and Means Committee on any other relevant potential policy changes that the Director of the Department of Health and Human Services believes would advance the intent of this provision, but which would have a fiscal impact that is sufficiently substantial to require the General Assembly's direct consideration in the future.

(I) The Department of Health and Human Services is authorized to establish programs and/or fund in whole or in part, including through the potential use of CHIP Health Services Initiatives, various pilot projects or other initiatives that are intended to develop the health care workforce in South Carolina. Such efforts must be targeted toward current or future providers who demonstrate, by whatever means is selected by the

SECTION 117 - X900 - GENERAL PROVISIONS

department, commitments to remaining in-state and including Medicaid beneficiaries among their patients. The development of the behavioral health workforce shall be prioritized, although the department may also address other provider classes, such as respiratory therapists, for which shortages have been highlighted and/or exacerbated by the public health emergency. Further consideration also should be given to attracting additional qualified preceptors and increasing opportunities for clinical rotations. The department may partner with or enlist the support of the Technical College System, Area Health Education Centers, and/or Student Loan Corporation in designing or administering these programs and, where appropriate, is encouraged to structure them as public-private partnerships in conjunction with the state's hospital and health systems and other key employers of health providers.

(J) If either the Director of the Department of Mental Health or the Director of the Department of Health and Human Services finds that state personnel and/or procurement rules are limiting his ability to fulfill the intent of this provision, he shall notify the State Fiscal Accountability Authority of this in writing and request whatever exemptions are necessary to ensure that clinical staff may be recruited, retained, and/or contracted for so as to provide greater access to behavioral health treatment.

(K) In consultation with the Department of Mental Health, the Department of Health and Human Services shall assess the feasibility of, and if warranted, take steps to establish or obtain through grant, contract, subscription, or other procurement, a statewide system for the near-real time tracking of in-patient psychiatric hospital beds and crisis stabilization beds. This system should be generally designed to draw data from providers' existing electronic medical record systems and make summary-level data available to authorized users within state agencies, participating provider organizations, and any others to be specified by the Department of Health and Human Services, for the purposes of managing critical resources and ensuring that patients may be promptly treated in the most effective and clinically appropriate setting. To protect patient privacy and ensure HIPAA compliance, the system may only collect information on the types, counts, and availability of beds, or other categorical or aggregated information, as opposed to individually identifying patient details. In partnership with the following named agencies, the Department of Health and Human Services may also explore and pursue the use of such a system:

(L) From the funds appropriated to or otherwise made available to it, the Department of Health and Human Services is authorized to procure, enter into contracts and agreements, offer grants, and otherwise expend funds as well as establish demonstration projects in one or more areas of the state to encourage and promote necessary infrastructure and investment to achieve the objectives set out in this provision. The department shall report annually to the Senate Finance Committee and the House Ways and Means Committee on all expenditures made under this provision.

For purposes of this item, "identity theft protection" means products and services designed to prevent an incident of identify fraud or identity theft in order to protect the privacy of a person's personal identifying information, as defined in Section 16-13-510(D), by precluding a third party from gaining unauthorized acquisition of another's personal identifying information to obtain financial resources or other products, benefits or services; and identity theft resolution services means products and services designed to assist persons whose personal identifying information, as defined by Section 16-13-510(D),

118.12. (SR: One Dollar Appropriations) Funds appropriated in the amount of one dollar by this act shall not be disbursed. The Comptroller General shall adjust the affected agency's chart of accounts accordingly, if necessary.

118.13. (SR: Non-recurring Litigation Recovery Revenue) During the current fiscal year, if there is a recovery or an award in any litigation managed by the State through a party other than the Attorney General, or if a state tax audit results in a collection, any funds received in excess of twenty-five million dollars that are not likely to continue as recurring revenue and would have otherwise been credited to the General Fund shall be credited to the Litigation Recovery Account. The amount credited to this Litigation Recovery Account pursuant to this provision is deemed non-recurring revenue and must be expended only in the manner prescribed by law.

118.14. (SR: Farm Aid) There is created the "South Carolina Farm Aid Fund". This fund is separate and distinct from the general fund of the State and all other funds. Earnings on this fund must be credited to it. Revenues credited to this fund in a fiscal year must be used in that fiscal year to operate a grant program that provides financial assistance to farmers.

To be eligible for a grant, the person must have:

(1) experienced a verifiable loss of agricultural commodities of at least thirty percent as a result of the flooding occurring in the aftermath of Hurricanes Michael and Florence for which:

(a) the Governor declared a state of emergency in the State for the county in which the farm is located; and

(b) the United States Secretary of Agriculture issued a Secretarial Disaster Declaration for the county in which the farm is located;

(2) a farm number issued by the Farm Service Agency;

(3) signed an affidavit, under penalty of perjury, certifying that each fact of the loss presented by the person is accurate; and

(4) a signed affidavit, under penalty of perjury, certifying that no federal funds have been received for these specific disasters, and in the event that federal funds are received, the person will return all state monies received under this program.

SECTION 118 - X910 - STATEWIDE REVENUE

The Department of Agriculture shall administer the grant program authorized by this proviso. The Department of Revenue shall assist the Department of Agriculture in the administration of the grant program by providing auditing services, accounting services, and review and oversight of all financial aspects of the grant program. There is created the Farm Aid Advisory Board to make recommendations to the department regarding the duties of the department in administering the grant program. The Commissioner of Agriculture, or his designee, shall serve ex officio, as chairman of the board. Also, the Director of the Department of Revenue, or his designee, the Vice President for Public Service and Agriculture of Clemson Public Service Activities, or his designee, and the Vice President for Land Grant Services of South Carolina State Public Service Activities, or his designee, shall serve on the board. The following additional members shall be appointed to the board:

- (1) the Commissioner of Agriculture shall appoint one member representing the South Carolina Farm Bureau;
- (2) the Commissioner of Agriculture shall appoint one member representing a farm credit association;
- (3) the Director of the Department of Revenue shall appoint one member representing the crop insurance industry; and
- (4) the Director of the Department of Revenue shall appoint one member who is an agricultural commodities producer.

By July twentieth of the current fiscal year, the board shall hold its initial meeting to recommend an application process by which a person with a loss resulting from the flooding occurring in the aftermath of Hurricanes Michael and Florence may apply for a grant. Upon adoption of an application process, the Department of Agriculture shall provide the Chairman of the House Ways and Means Committee and the Chairman of the Senate Finance Committee with a written copy of its application process within ten days after its adoption. A person shall apply not later than forty-five days after the adoption of the application process. The department must ensure every person interested in applying for a grant has access to adequate resources to submit his application in a timely manner, and upon request, the department must assist a person with the preparation of his application.

Each grant awarded by the department may not exceed twenty percent of the person's verifiable loss of agricultural commodities. However, a person, including any grant made to a related person, may not receive grants aggregating more than one hundred thousand dollars. Also, a

SECTION 118 - X910 - STATEWIDE REVENUE

person, including any grant made to a related person, may not receive grants that when combined with losses covered by insurance, exceed one hundred percent of the actual loss. If a grant is made to a related person, the amount to be included in the limits set by this proviso must be the amount of the grant multiplied by the person's ownership interest in the related person. However, a person who shares an ownership interest with another person or entity may not be refused a grant solely because the other person or related person has otherwise received the maximum grant amount, but in this case, the person's grant amount is limited by the person's ownership interest.

If the total amount of grants allowed pursuant to this proviso exceeds the monies in the fund, then each person's grant must be reduced proportionately.

To determine loss, the department:

(1) must measure the person's cumulative total loss of all affected agricultural commodities for the year in which the flooding occurred against the person's expected production of all agricultural commodities affected by the flooding occurring in the aftermath of Hurricanes Michael and Florence;

(2) shall use the person's applicable actual production history yield, as determined by the Federal Crop Insurance Corporation, to determine loss for insured agricultural commodities. In determining loss for uninsured agricultural commodities, the department shall use the most recent year's county price and county yield, as applicable, as determined by the National Agriculture Statistics Service, United States Department of Agriculture; and

(3) may require any documentation or proof it considers necessary to efficiently administer the grant program, including the ownership structure of each entity and the social security numbers of each owner. Minimally, in order to verify loss, the department shall require the submission of dated, signed, and continuous records. These records may include, but are not limited to, commercial receipts, settlement sheets, warehouse ledger sheets, pick records, load summaries, contemporaneous measurements, truck scale tickets, contemporaneous diaries, appraisals, ledgers of income, income statements of deposit slips, cash register tape, invoices for custom harvesting, u-pick records, and insurance documents.

Grant awards must be used for agricultural production expenses and losses due to the flooding which demonstrate an intent to continue the agricultural operation; however, awards may not be used to purchase

SECTION 118 - X910 - STATEWIDE REVENUE

new equipment. The department shall develop guidelines and procedures to ensure that funds are expended in the manner outlined in grant applications, and may require any documentation it determines necessary to verify the appropriate use of grant awards including receipts.

If the department determines that a person who received a grant provided inaccurate information, then the person shall refund the entire amount of the grant. If the department determines that a person who received a grant used the funds for ineligible expenses, then the person must refund the amount of the ineligible expenses. If the person does not refund the appropriate amount, the Department of Revenue shall utilize the provisions of the Setoff Debt Collection Act to collect the money from the person.

The department shall coordinate the exchange of information between the USDA and the Department of Revenue to identify any person that received a Farm Aid grant for the flooding occurring in the aftermath of Hurricanes Michael and Florence and also received federal aid relief for the same disaster. Any person that is determined to have received grant funds from both the state and federal government, must immediately repay the state grant they received.

If the department determines that a person knowingly provided false information to obtain a grant pursuant to this proviso or knowingly used funds for ineligible expenses, the person shall be subject to prosecution pursuant to Section 16-13-240.

Within forty-five days of the completion of the awarding of grants, but no later than the end of the fiscal year, the Farm Aid Advisory Board is dissolved. Any funds remaining in the fund upon dissolution shall lapse to the general fund.

The department may accept private funds, grants, and property to be used to make financial awards from the grant program.

The Department of Agriculture must administer the grant program authorized by this proviso using existing resources and funds.

If federal funds are allocated for persons that are otherwise eligible for a grant pursuant to this proviso before the current fiscal year begins, then the provisions of this proviso are not effective and no funds may be credited to the South Carolina Farm Aid Fund.

For purposes of this proviso:

(1) "Agricultural commodities" means wheat, cotton, flax, corn, dry beans, oats, barley, rye, tobacco, rice, peanuts, soybeans, sugar beets, sugar cane, tomatoes, grain sorghum, sunflowers, raisins, oranges, sweet

SECTION 118 - X910 - STATEWIDE REVENUE

118.15. (SR: Expenditure of Federal Funds) Any funds received from the Federal Government that are not allocated directly to a state agency must be expended through the legislative budgeting process.

118.16. (SR: State Ports Authority Projects) Any funds appropriated or authorized for the State Ports Authority by Proviso 118.17 (Nonrecurring Revenue) for the intermodal container transfer facility and waterborne cargo infrastructure must be deposited into a separate and distinct account and shall only be used for costs directly related to those two projects. Funds shall not be used for salaries, bonuses, or any kind of normal administrative costs. Funds shall not be used for personnel expenses not directly related to the implementation of the two projects. In addition, the State Ports Authority shall provide quarterly progress reports on the implementation of each facility to the Joint Bond Review Committee, the President of the Senate, the Speaker of the House of Representatives, the Chairman of the Senate Finance Committee, and the Chairman of the House Ways and Means Committee. These quarterly reports shall include, but are not limited to, financial results, operating plans, budgets, capital plans, and performance objectives and results for the projects. The Joint Bond Review Committee must review and provide comment on expenditures, and may prescribe the reporting format and such other informational requirements and reports as it deems useful and necessary, to ensure the financial integrity, accountability, and stewardship of the funds and the ongoing operations of the project. To the extent permitted by federal law, if federal funds become available to the State that can be used for the Intermodal Container Transfer Facility or for Waterborne Cargo Infrastructure, those federal funds must first be used to complete the

project. Any remaining state funds appropriated for these projects shall be transferred to a restricted account at the Department of Administration.
