

State Agencies/Colleges & Universities
RECYCLING & BUY RECYCLED
Annual Report ■ Fiscal Year 2008

Prepared for **Gov. Mark Sanford**
and the **Members of the S.C. Legislature**

Prepared by the **S.C. Department of Health and Environmental Control**
Division of Mining and Solid Waste Management
Office of Solid Waste Reduction and Recycling

South Carolina Department of Health
and Environmental Control

Introduction

The S.C. Solid Waste Policy and Management Act (Act) was signed into law on May 27, 1991. The Act, which is South Carolina's first comprehensive law on solid waste management, set recycling and disposal goals to be achieved at the state level through efforts at the local level (i.e. state agencies, colleges and universities, counties and businesses). It also requires local governments to keep track of materials recycled and to report annually to the S.C. Department of Health and Environmental Control's (DHEC) Office of Solid Waste Reduction and Recycling (Office). The Act was amended on October 3, 2000 requiring state agencies as well as state-supported colleges and universities to:

- submit to DHEC a report detailing their recycling programs; and
- provide a list of products purchased during the previous fiscal year that contain recycled materials.

The Office is responsible for compiling and reviewing data from these reports and publishing the "State Agencies/Colleges & Universities Recycling & Buy Recycled Annual Report" by November 1 each year. This report provides information for fiscal year (FY) 2008 reflecting activities from July 1, 2007 through June 30, 2008.

In addition to summarizing the information reported, the Act also

requires the Office to determine what percentage of state purchases contain recycled materials and include this information in the report. Currently, such an effort is not possible because a system is not in place for tracking the amount spent on recycled-content products. Therefore, a specific dollar amount and percentage of purchases cannot be provided.

The Office, however, has been meeting with the S.C. Budget and Control Board's Materials Management Office (MMO) to promote increased purchasing of recycled-content products as well as other environmentally friendly purchases. Through these discussions, the state will continue to support the concept of 'closing the loop' on recycling – that is collecting recyclables, processing them and purchasing recycled-content products.

To compensate for not having a tracking mechanism, the Office asks respondents to report what is purchased (instead of how much). Not surprisingly, many schools and agencies reported buying recycled-content copy paper, toner/inkjet cartridges as well as business cards. Currently, there are some options available for purchasing officials to buy recycled content-products on state contract. Typically, a state contract is established by MMO when it has been determined that an item has widespread use throughout the state.

Currently, recycled-content paper and envelopes as well as plastic trash can liners and bathroom paper products are available on state-term contract.

In FY08, 75,246 tons of material was recycled by state agencies and colleges/universities. The significant increase over the 17,023 tons recycled in FY07 is a result of the efforts of two universities – Lander and Winthrop – to avoid landfill disposal after deconstruction projects.

To continue promoting recycling and buying recycled as well as to encourage state agencies and colleges and universities to conserve natural resources and perhaps save money in the process, the S.C. Resource Conservation Challenge (S.C. RCC) was developed in 2003. The S.C. RCC was modeled after the U.S. Environmental Protection Agency's (EPA) national Resource Conservation Challenge.

In FY08, the fifth annual S.C. RCC Workshop was held. Nearly 100 individuals attended the workshop that provided information on a wide range of topics. The workshop began with an overview of climate change and how our activities impact the environment. Other presentations covered computer leasing, the Electronic Product Environmental Assessment Tool (which helps consumers select more environmentally friendly computers), energy conservation plans and utility bill analyses. A key presentation on sustainability tied all of the other topics together. For more information on the S.C. RCC, visit www.scdhec.gov/rcc.

Recycling and buying recycled are important issues and have the potential to save money, conserve natural resources and protect the environment. State government and public schools have the opportunity to serve as a model to the private sector as well as the public on how this can be done.

The information for this report was compiled from 91 surveys received from state agencies as well as colleges and universities, up six from FY07. Both public and private colleges and universities efforts are included in this report, although only state-supported schools are required to report.

RecycleMania, organized by university recycling coordinators with the support of the EPA's WasteWise program and the National Recycling Coalition, is a national recycling competition in which colleges and universities engage in an environmentally friendly rivalry to determine which schools recycle the most and generate the least waste. For the third consecutive year, the Office promoted this program in South Carolina.

Twelve S.C. colleges and universities participated in the 10-week competition. Bob Jones University, Charleston Southern University, The Citadel, Clemson University, Coker College, College of Charleston, Furman University, Lander University, the Medical University of South Carolina, USC-Aiken, Winthrop University and Wofford College were among more than 400 schools from 46 states that participated in the seventh annual RecycleMania competition.

South Carolina had one of the strongest showings in the RecycleMania competition, with participating schools recycling more than 1.3 million pounds of material as part of the competition. For more information on RecycleMania, visit www.recyclemaniacs.org.

State Agencies

Sixty-three state agencies recycled 10,743 tons of material in FY08. This reflects a 1 percent increase over FY07. Of that amount, the No. 1 item recycled was mixed metal, followed by office paper.

When it comes to buying recycled-content products, 72 percent of respondents reported purchasing recycled-content copy paper, followed by 54 percent purchasing recycled-content toner and/or inkjet cartridges.

S.C. State Agencies Reporting for FY08

- Administrative Law Court
- Arts Commission
- Attorney General
- Budget and Control Board
- Commission for the Blind
- Commission on Indigent Defense
- Commission on Prosecution Coordination
- Comptroller General

- State Ethics Commission
- State Housing Finance and Development Authority
- State Law Enforcement Division
- State Library
- State Museum
- State Ports Authority
- Vocational Rehabilitation Department
- Workers' Compensation Commission

MORE TO KNOW: In addition to the 75,246 tons of material recycled by colleges/universities and state agencies, Santee Cooper reported recycling 333,545 tons of gypsum and 378,860 tons of fly ash. This material is generated from their operations in Berkeley, Georgetown and Horry counties and used in concrete, cement, asphalt, road base stabilization as well as other applications.

COMMODITIES RECYCLED		AMOUNT (TONS)
PAPER	Magazines	40.43
	Office paper	2,265.00
	Newspapers and inserts	29.30
	Corrugated cardboard	1,382.51
	Phone books	18.24
	Paperboard	1.92
	Other/mixed paper	112.53
PLASTIC (Bottles)	#1 PET	3.08
	#2 HDPE	144.23
	#3 Vinyl	0.04
	Other mixed/plastic bottles	68.58
PLASTIC (Film)	#2 HDPE	0.54
	#4 LDPE	0.00
	Other/mixed plastic film	8.79
METAL	Aluminum (cans, foil)	157.71
	Steel cans	46.89
	Other ferrous metals	2,301.07
	White goods	1.32
	Other/mixed metal	941.36
GLASS (Containers & Packaging)	Brown	0.60
	Clear	0.86
	Green	0.28
	Other/mixed glass	0.45
WOOD	Pallets	142.01
	Furniture and cabinets	1.38
	Other/mixed wood	1.82

	Food scraps	0.02
OTHER MATERIALS	Rechargeable batteries	7.89
	Antifreeze	30.35
	C&D debris	350.24
	Consumer electronics	66.40
	Cooking oil	0.37
	Fluorescent bulbs	12.17
	Lead-acid batteries	43.47
	Paint (oil or latex)	0.39
	Tires	265.10
	Toner cartridges	11.46
	Used motor oil	542.78
	Used oil filters	27.58
	Other*	931.73
TOTAL		10,742.53

Colleges & Universities

Twenty-seven colleges and universities reported recycling 64,503 tons of material. In addition, one college reported no recycling but did report their buy-recycled efforts. Of the amount reported, more than 56,000 tons was construction and demolition (C&D) debris. This is a result of two deconstruction projects on the campuses of Lander University (50,000 tons) and Winthrop University (6,388 tons) where buildings were torn down and the material was recycled instead of disposed of in a landfill. While these are one-time projects, the impact on avoided disposal costs and conservation of landfill space is significant. As a result, the No. 1 item recycled was C&D debris followed by mixed paper. Corrugated cardboard was a close third.

When it comes to buying recycled-content products, 68 percent of respondents reported purchasing recycled-content copy paper, followed by 52 percent purchasing recycled-content toner and/or inkjet cartridges.

S.C. Colleges & Universities Reporting for FY08

- Aiken Technical College
- Bob Jones University
- Central Carolina Technical College

- USC – Aiken
- USC – Sumter
- USC – Upstate
- Williamsburg Technical College
- Winthrop University
- York Technical College

MORE TO KNOW: Of the 75,246 tons of material recycled by colleges/universities and state agencies, 15,163 tons are considered municipal solid waste and are included in the state's measured recycling rate. The remaining material that is recycled includes used oil from fleet operations, medical products and C&D debris – none of which can be included in the state's measured recycling rate, although they impact the state's total recycling efforts. The S.C. Solid Waste Management Annual Report details the amount of material recycled and disposed of in each county and for the state. For a copy of last year's report, visit www.scdhec.gov/environment/lwm/recycle/resource_center.htm.
