PAGE 2: About Agencies Scheduled for Study

Q1: Please share any comments, suggestions or concerns you may have about these agencies. Please note your responses may be included verbatim in a Committee report, which may be posted online.

Retirement System Investment Commission

According to the organizational charts provided by SCRSIC and the state's salary database, Adam Jordan went from a Director of Policy, Planning, & Budget to a Director of Private Debt in only four years. These are entirely different roles and responsibilities. I believe that Mr. Jordan was previously at the Department of Commerce in a position without capital markets experience. It must be nice to more than double your salary without much experience most likely via paternal and marital connections. I am sure SCRSIC will bolster his status with some new officers who can carry his weight. It is standard in their management playbook. To professionals, like lawyers, doctors, or asset managers who spend years studying their professions and earning their stripes this should be appalling, if not freighting.
