**Fiscal Year 2019–2020  
Accountability Report**

**SUBMISSION FORM**

<b>AGENCY MISSION</b>	<p>The mission of the Rural Infrastructure Authority (RIA) is to provide financing for qualified infrastructure projects that will protect public health, address environmental quality standards and lay the groundwork for economic opportunities.</p>
-----------------------	--

<b>AGENCY VISION</b>	<p>Through partnerships and targeted infrastructure investments, improve the quality of life for residents, enhance community sustainability and boost economic opportunities throughout the state.</p>
----------------------	---

Does the agency have any major or minor recommendations (internal or external) that would allow the agency to operate more effectively and efficiently?

	Yes	No
<b>RESTRUCTURING RECOMMENDATIONS:</b>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Is the agency in compliance with S.C. Code Ann. § 2-1-230, which requires submission of certain reports to the Legislative Services Agency for publication online and to the State Library? See also S.C. Code Ann. § 60-2-30.

	Yes	No
<b>REPORT SUBMISSION COMPLIANCE:</b>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

<b>AGENCY NAME:</b>	<b>Rural Infrastructure Authority</b>		
<b>AGENCY CODE:</b>	<b>P45</b>	<b>SECTION:</b>	<b>054</b>

Is the agency in compliance with various requirements to transfer its records, including electronic ones, to the Department of Archives and History? See the Public Records Act (S.C. Code Ann. § 30-1-10 through 30-1-180) and the South Carolina Uniform Electronic Transactions Act (S.C. Code Ann. § 26-6-10 through 26-10-210).

	<b>Yes</b>	<b>No</b>
<b>RECORDS MANAGEMENT COMPLIANCE:</b>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Is the agency in compliance with S.C. Code Ann. § 1-23-120(J), which requires an agency to conduct a formal review of its regulations every five years?

	<b>Yes</b>	<b>No</b>
<b>REGULATION REVIEW:</b>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Please identify your agency’s preferred contacts for this year’s accountability report.

**AGENCY’S DISCUSSION AND ANALYSIS**

**Infrastructure Finance Programs – Summary of Efforts and Results**

The S.C. Rural Infrastructure Authority (RIA) makes grant and loan financing available for qualified infrastructure projects (drinking water, sanitary sewer and storm water drainage facilities) statewide. By working in partnership with local communities, these financial investments are designed to address the key objectives of protecting public health, addressing environmental quality standards and preparing communities for economic opportunities. RIA assistance helps close financial gaps for areas in need of reliable infrastructure. In addition, RIA collaborates with stakeholders to identify and coordinate additional resources for infrastructure improvements.

This year a total of \$180 million in projects were approved through RIA’s grant and loan financing programs. See Figure 1.

*Figure 1: FY 20 Projects Funded by Location*

**Grant Program**

Financial assistance is made available to eligible applicants (local governments, special purpose districts and public works commissions) annually through two competitive funding rounds. Funds are distributed through two program categories which align with the agency’s objectives: (1) the Basic Infrastructure program to address regional cooperation, environmental concerns, public health issues and aging infrastructure needs; and (2) the Economic Infrastructure Program to provide reliable infrastructure serving new or existing businesses and expanding system capacity to boost economic opportunities.

<b>AGENCY NAME:</b>	<b>Rural Infrastructure Authority</b>		
<b>AGENCY CODE:</b>	<b>P45</b>	<b>SECTION:</b>	<b>054</b>

Qualified projects are selected by the Board based on a comparative analysis of need, feasibility and impact and all applicants are notified of the results. Technical assistance is provided to applicants whose projects are not funded.

Summary of Results:

- 59 new grants totaling \$25 million were approved by RIA’s Board of Directors.
- 62,000 residential and business customers will be impacted.
- 66% of projects funded were located in rural and distressed areas.
- \$40 million from local and other resources will match RIA’s infrastructure investment.

Cumulative Impact (FY 2013-2020):

- \$148 million in grants awarded.
- Grants awarded in 46 counties and almost 80% were in rural and distressed areas.
- Grants leveraged \$430 million in local/other funds for infrastructure improvements.
- Economic development projects will result in 7,800 new jobs by new/existing business customers.

**State Revolving Funds Loan Program**

Low cost loan financing is provided through two federally capitalized State Revolving Funds (SRF) for Drinking Water and Clean Water (sewer). The SRF has been annually capitalized by the U.S. Environmental Protection Agency (EPA) since 1989. The program was transferred to RIA in 2015. The state program is administered jointly with the S.C. Department of Health and Environmental Control (DHEC). DHEC prioritizes projects, handles the technical aspects of the program and ensures compliance with EPA requirements. The RIA’s Office of Local Government (OLG) manages the financial component including credit reviews, loan agreements, closings and disbursement of funds as well as loan repayments and administration.

The program offers below market interest rates for major water, wastewater and storm water improvement projects throughout the state. This low-cost financing means savings for borrowers and customers. At the beginning of the year, the standard interest rate was 2.2%. However, following the dramatic drop in interest rates in the municipal bond market, which was due in part to COVID-19, the SRF standard interest rate was lowered to 1.8% in the second half of the year. The lower municipal bond market rates also resulted in \$54.9 million in early pay-offs from SRF loans with remaining terms of ten years or less.

Summary of Results:

- \$154.9 million in loans closed.
- 20 loans closed (second highest annual number in program history).
- \$114.7 million in loan repayments.
- \$734 million in outstanding principal balance.

Cumulative Impacts:

- \$616 million loans closed since the SRF program was transferred to RIA in FY16.
- \$100 million in loans closed – fourth consecutive year.

<b>AGENCY NAME:</b>	<b>Rural Infrastructure Authority</b>		
<b>AGENCY CODE:</b>	<b>P45</b>	<b>SECTION:</b>	<b>054</b>

- \$1.2 billion current loan portfolio.
- No loan defaults or major audit findings in program history.

The SRF program was allocated \$17 million from the EPA for use in counties that suffered damage from Hurricane Florence. RIA worked with customers to identify 19 projects that qualify for this assistance and they are expected to receive funds next year.

### **Factors Impacting Performance and Future Plans**

Because financing assistance requests are generated at the local level, performance measures can be impacted by the number, type, and location of requests that are received annually. Similarly, there is limited ability for rural and distressed areas to generate additional funding to leverage grant funds. Being responsive to local needs often means that the agency’s performance targets are subject to unpredictable shifts in local priorities and conditions.

Since the agency began operating in 2012, the General Assembly expanded its ability to address infrastructure needs statewide and to provide grant and loan financial assistance. The RIA will continue its efforts to target technical assistance and capacity building to rural, small and disadvantaged communities. RIA helps to identify affordable infrastructure solutions and works to leverage other resources. This increases the impact and promotes greater affordability and sustainability. This year, RIA applied for and received a \$260,000 grant from the U.S. Department of Commerce, Economic Development Administration. The grant will be used to conduct a statewide infrastructure assessment of common issues that impact the ability of smaller water and sewer systems to address infrastructure needs and be more sustainable from a financial, technical and operational perspective. The project will develop tools and resources that can be used to help smaller systems, including regional and other cooperative approaches.

In the last five years, RIA has taken steps to pro-actively market program resources, provide training and enhance communications in the SRF program. These efforts, coupled with improvements in the economy, have resulted in record levels of demand for program resources in four of the last five years. However, when interest rates in the municipal bond market dropped to historical lows earlier this year, SRF borrowers with less than 10 years to maturity made a significant number of early loan pay-offs. While this translates to a greater availability of funds for lending next year, borrowers may be reluctant to borrow money for projects in the face of uncertainty in the markets and COVID-19. Accordingly, the goals for the amount and number of loans have been reduced for this year.

### **Risk Assessment and Mitigation Strategies**

One of the RIA’s strategies is to serve as a resource for communities, whether the need is for technical or financial assistance. To address this issue, RIA holds four workshops for the grant and loan programs and this year 245 participants received training. Workshop evaluations from participants were overwhelmingly positive with an average of 4.77 on a 5-point scale. In addition, staff worked directly with clients to identify and carry out 216 projects. Demand for this technical assistance and capacity building remains high and RIA will continue its customer assistance efforts.

<b>AGENCY NAME:</b>	<b>Rural Infrastructure Authority</b>		
<b>AGENCY CODE:</b>	<b>P45</b>	<b>SECTION:</b>	<b>054</b>

One of the biggest concerns for customers statewide is the deterioration of aging infrastructure systems and the subsequent decreasing capacity of such infrastructure to meet environmental standards. Staff conducted an internal review of whether RIA resources had a measurable impact on the resolution of DHEC consent orders and regulatory concerns related to health and the environment. Of the projects awarded for this purpose through 2019, 71% of the consent orders have been fully resolved. Those not yet resolved are mostly due to outstanding non-construction or operational issues, which RIA does not fund. Most of RIA’s grant funds, \$58 million, have been used to upgrade aging and failing infrastructure, ensuring services are safe and reliable. RIA will continue to work with DHEC to identify and target grant funding to correct these deficiencies.

A lack of resources is the primary reason many communities are unable to properly operate and maintain the water and sewer systems that serve residents and businesses. A delay in making the required investments can result in higher costs, business and service disruptions and increased health and environmental risks. Thus, access to reliable and affordable infrastructure serves as an important quality of life concern for protecting public health, improving environmental quality and encouraging economic opportunities. Significant investments will be needed to ensure that there is adequate capacity for future economic growth.

Three key factors can help stretch the impact of limited resources: (1) providing additional funding where feasible to leverage local resources; (2) strengthening partnerships to maximize existing resources and provide additional technical assistance; and (3) encouraging development of plans and studies that will lead to greater sustainability of water and sewer systems, including regional solutions.

In the coming year, RIA will be conducting a statewide assessment designed to explore common water and sewer system sustainability issues and needs. RIA will be seeking input from stakeholders and building partnerships in order to develop resources and solutions for the long-term needs of water and sewer systems. Partners in this effort are the members of the S.C. Infrastructure Funders Coordinating Committee. Representatives include the RIA, S.C. Department of Commerce (Commerce), DHEC, U.S. Department of Agriculture - Rural Development and the U.S. Department of Commerce - Economic Development Administration. The Committee meets on a regular basis to address funding gaps and support joint projects, share best practices and provide coordinated technical assistance to potential applicants. RIA will also build on its relationships with local governments, water and sewer organizations as well as financial and technical groups to address infrastructure issues and enhance local capacity.

**Agency Organization**

The RIA is governed by a Board of Directors (Board) that includes six members who reside in or represent distressed and/or least developed counties. The Secretary of Commerce serves as Chairman. The Board develops an annual strategy for addressing grant infrastructure needs as well as establishes programs, sets priorities, selects qualified projects for grant funds and reviews performance.

RIA staff is organized by grant and loan programs. The grant programs include a new infrastructure sustainability program manager. The OLG operates the financial and loan components of the SRF. The

<b>AGENCY NAME:</b>	<b>Rural Infrastructure Authority</b>		
<b>AGENCY CODE:</b>	<b>P45</b>	<b>SECTION:</b>	<b>054</b>

S.C. Water Quality Revolving Fund Authority (State Fiscal Accountability Authority) oversees SRF financial program policies.

The RIA has an Executive Director and nine full time staff (See Figure 2: Organizational Chart). In order to foster administrative collaboration, RIA contracts with Commerce to provide office space, legal, financial and human resources services. This agreement allows for more efficient use of staff and resources available to the RIA.

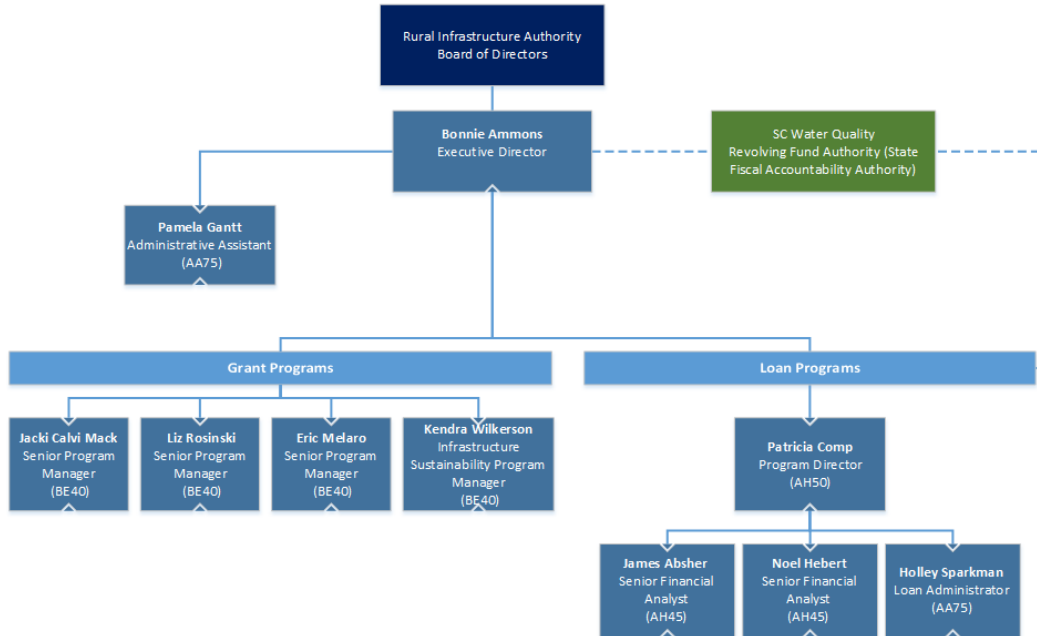

Figure 2: Organizational Chart

### **Restructuring Recommendations**

The S.C. House Legislative Oversight Committee completed its review of the RIA this year. Recommendations specified a repeal or clean-up of outdated code language related to the transfer of the OLG to RIA and to revise terminology used for distressed and least developed counties to Tier III and Tier IV as defined in current law. RIA, in conjunction with its Board, will pursue such revisions to the extent that it will impact ongoing operations.

### **Records Management**

The agency does not have a long history and thus has not had an unreasonable accumulation of grant or administrative records to date. An imaging system has been implemented for the loan programs and thus eliminated the need for a purge schedule.

### **Regulation Review**

RIA has not promulgated regulations and in accordance with its enabling legislation is not required to do so. The OLG complies with SC Reg. 61-67.1 promulgated by DHEC in administration of the loan programs.
