Dear Chris,

I am pleased to provide you the South Carolina I-77 Alliance (Alliance) Annual Report for Proviso 50.13. As you know, the Alliance is a regional economic development group representing Chester, Fairfield, Richland, and York Counties. The Alliance has 33 board members and consists of 20 public sector officials, 12 private sector officials, and the President/CEO. Richland and York Counties have five public sector appointees, while Chester and Fairfield Counties have four public sector appointees. The Presidents of the two Technical Colleges (Midlands Tech and York Tech) make up the last two public sector board members. Each of the four counties have three private sector board members as well.

The executive committee of the board is made up of the Board Chair and Vice Chair, the Chair of the Funding and Finance Committee, the County Developer from each of the Four Member Counties, the President of the Alliance, and two private sector board members. The inclusion of the County Developers on the Board and Executive Committee is a key element to the structure of the organization.

The Alliance is charged with marketing and branding the region and focuses on lead generation for the four member counties. The activities of the Alliance are designed to maximize the exposure of the region to key site location decision makers and associated economic development allies.

The Alliance has had numerous significant accomplishments since our last Annual Report. We have finalized and published a regional Workforce Study and Data Center that helps our County Economic Development Partners quantify the workforce skills in their communities, we have launched a new website that integrates all of our marketing activities and data sources, continued our aggressive domestic and international lead generation activities, and are beginning to market the I-77 MegaSite in Fairfield County, which is a partnership among Fairfield County, SCANA, and the Department of Commerce.

The most important accomplishment for the Alliance to date though, is the continuation of our aggressive marketing efforts. We actively began marketing the region in February of 2015. In 2015, the Alliance met with 182 companies, 169 companies in 2016, and 123 through the first three quarters of 2017. The Alliance has done this in partnership with our four member counties, the South Carolina Department of Commerce, and our private sector partners. When our Alliance was formed in October 2013, it was designed to create better partnerships and sense of regionalism along the I-77 corridor. We are proud to report that our activities and successes to-date have been a result of the partnerships we create daily.

We are excited to have built a strong base for success at the I-77 Alliance through the first three years of our existence, but we are focused on bringing even more value to the four counties we serve in 2018. The existence of the Alliance allows our counties to focus on what they do best: product development and project management to create new jobs and investment in those communities. We support them by marketing the region and delivering leads for the counties so they have more opportunities to sell. However, we also can bring additional resources to bear to help the Counties be more successful in their efforts.

**Progress of Securing Matching Funds**

By the end of last fiscal year (FY 2016-2017), the Alliance successfully matched \$660,000 of the \$660,000 allotted to us. Moreover, the Alliance anticipates matching 100% of the \$600,000 allocated to us in the current fiscal year by Proviso 50.13.

**Funds Expended**

Through September 30, the Alliance has expended restricted private sector donations in support of site/industry specific work and Proviso 50.13 funds on Alliance marketing projects and contract services.

As evidenced by the expenditures included within this report, the Alliance is spending its portion of the proviso money on electronic and face-to-face marketing, development of a workforce development plan for our counties, lead generation, prospect, and advertising expenses. We continue to have under 50 percent of our budget dedicated to operational and salary expenses and over half of our budget is dedicated to lead generation, marketing, advertising, and other value added services for our four counties. Our investors expect us to invest in our mission to market and brand the region, instead of predominantly investing in operations and administration. The Alliance will continue working diligently on establishing itself as the premier economic development marketing organization in the state, and market the I-77 region as the ideal location for companies the world over.

Please do not hesitate to contact us if you have any questions or need additional information.
