SUBMISSION FORM

AGENCY MISSION	<p>South Carolina State University (SC State) is a historically Black public 1890 land grant senior comprehensive institution. Located in Orangeburg, South Carolina, SC State University is committed to providing affordable and accessible quality baccalaureate programs in the areas of business, applied professional sciences, mathematics, natural sciences, engineering, engineering technology, education, arts, and humanities. A number of programs are offered at the master’s level in teaching, human services and agribusiness, and the educational specialist and doctorate programs are offered in educational administration. SC State University prepares highly skilled, competent and socially aware graduates to enable them to work and live productively in a dynamic, global society. Through technology and traditional methods of teaching and learning, research and service, the University enhances the quality of life of citizens and contributes to the economic development of the state and nation. (This mission statement was approved by the S.C. State University Board of Trustees on October 9, 2018, and by the South Carolina Commission on Higher Education on October 23, 2018.)</p>

AGENCY'S DISCUSSION AND ANALYSIS

South Carolina State University (SC State), the state's only public Historically Black College and University (HBCU), has educated students since 1896, just over 124 years. The University was established on the premise of providing access and opportunities to the citizens of the state of South Carolina. SC State has and continues to fulfill its mission of educating students from varied backgrounds within South Carolina and beyond.

As we reflect upon the 2019 – 2020 year, we must address the effects of COVID-19 on the University. The University made major changes and adjustments to ensure the successful continuation of its educational and operational processes. We quickly responded by developing two COVID-19 teams and subsequently executing the resultant plans of action. The teams met daily to plan for potential scenarios and responses. We increased communications to students, faculty, and staff on public health and addressed questions through websites, emails, town hall meetings, and social media. The SC State faculty prepared courses for online delivery within a matter of weeks. Despite the pandemic and change in learning platform, we successfully graduated over 400 students during our first-ever virtual graduation.

During the 2019-2020 year, the University continued to ensure that its goals were aligned with the Strategic Plan. SC State continued to focus on its financial health. The University operated within a balanced budget and the positive net position has increased since 2015 as reflected in the chart below.

SC State University also continued its focus on enrollment management and student success, paying particular attention to student enrollment yield and processes. A new Director of Admissions was hired August 1, 2019. The University’s admissions plan was updated to include an alumni recruitment program as well as capturing and reengineering the flow of the admissions process. This reengineered flow will be reflected in our ongoing implementation of the SLATE Customer Relationship Management (CRM) system that we will be using for enrollment management. The Enrollment Management committee, which is a cross functional team consisting of admissions, academic affairs, student affairs, financial aid, and distance education, was implemented. The committee focused on a plan of action to increase undergraduate and graduate enrollment, retention rate, and remote learning. The committee also focused on improving the registration, financial aid, and student accounting processes.

In February, 1,700 male students from 37 South Carolina Public Schools participated in an educational program on SC State University’s campus. The program was sponsored by the Department of Teacher Education and the University’s 1890 Research and Extension program. The admissions staff met the students and provided college admissions information.

The University was designated as a National Center of Academic Excellence in Cyber Defense Education (CAE CDE) by the National Security Agency and the U.S. Department of Homeland Security. SC State is the first and only HBCU in South Carolina to receive this designation, which is for the University’s Bachelor of Science in computer science with cybersecurity program. The University received a \$10,000 grant to establish the Institute of Nuclear Energy from Westinghouse. Westinghouse also provided engineering and business program internships for SC State students. Additionally, Savannah River Nuclear Solutions, LLC provided a \$50,000 donation (\$25,000 for lab equipment and \$25,000 for student internships and co-op opportunities at SRS).

Two new programs were approved by the Commission on Higher Education this year, Physical Education with a Concentration in Exercise Science and online delivery of our Ed.S. and Ed.D. programs were approved for online delivery. In Fall 2019, the University re-established academic programs at the University Center Greenville (UCG). The Ed.D. in Educational Administration currently has four students enrolled in the program at UCG. Four (4) additional online programs were also approved by the Commission on Higher Education. The three programs offered in academic year 2019-2020 were the BA in Public Administration, MBA in Healthcare Management and Ed.D. in Educational

Administration. In addition, 95% of the General Education courses have been formatted for online delivery.

The University continues to increase campus security measures to ensure the safety of students, faculty, staff, and visitors. Additional certified officers were hired, and additional cameras were purchased and installed campus wide to increase surveillance. The Rave Guardian Mobile Security app was launched campus wide in February 2020. The mobile security app uses smartphones as a personal safety device and is used by more than 1,200 colleges and universities across the U.S.

The University continued its customer service efforts aimed at improving customer service across all departments of the institution. In conjunction with National Customer Service Week October 7-11, 2019, the University kicked off its customer service initiative to include training, education collateral, and recognition awards for stellar customer service.

The University’s 2019 – 2020 strategic objectives aligned with the statewide Enterprise Strategic Objective of Education, Training and Human Development. The agency’s performance on budget, transfer enrollment from the South Carolina Technical College System, and program development were all achieved. The total transfer student enrollment, fall-to-fall retention rate and online course offerings were not achieved for 2019-2020. Significant investments in the “Lamar Powell Student Success and Retention Center” (based on a gift from the Lamar Powell Estate) is expected to aid significantly in future fall-to-fall retention. An accelerated effort to bring more courses online will be made.

Risk Assessment and Mitigation Strategies

A major risk associated with South Carolina State is a downturn in enrollment. Over 80% of our students come from SC Families that are African American and Pell eligible and these are the very families that have been most impacted by COVID-19. Subsequently, as larger institutions with greater financial assets are motivated to target minority students in South Carolina for greater diversity, these very families and thus students will understandably tend to “follow the money” in these difficult financial times. To offset this, SC State has requested specific funds that will allow it to match the offerings of those institutions that offer the additional financial assistance to our targeted students. As a result, we would be able to compete on the quality of our course offerings and the overall campus educational experience. To ensure that the University continues to provide access and opportunity to

AGENCY CODE:	H240	SECTION:	19

students, SC State has put in place the following mitigating strategies: better controls, operational efficiency and effectiveness, improved processes and procedures, and full transparency.

Four (non-exclusive) Options for the General Assembly

Option 1: Continue to not only fund, but also increase the funding of programs that leverage external funding opportunities.

Option 2: Review the State’s funding model to provide greater funds to those institutions that have a significant majority of Pell-eligible students.

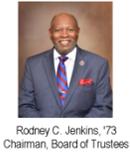

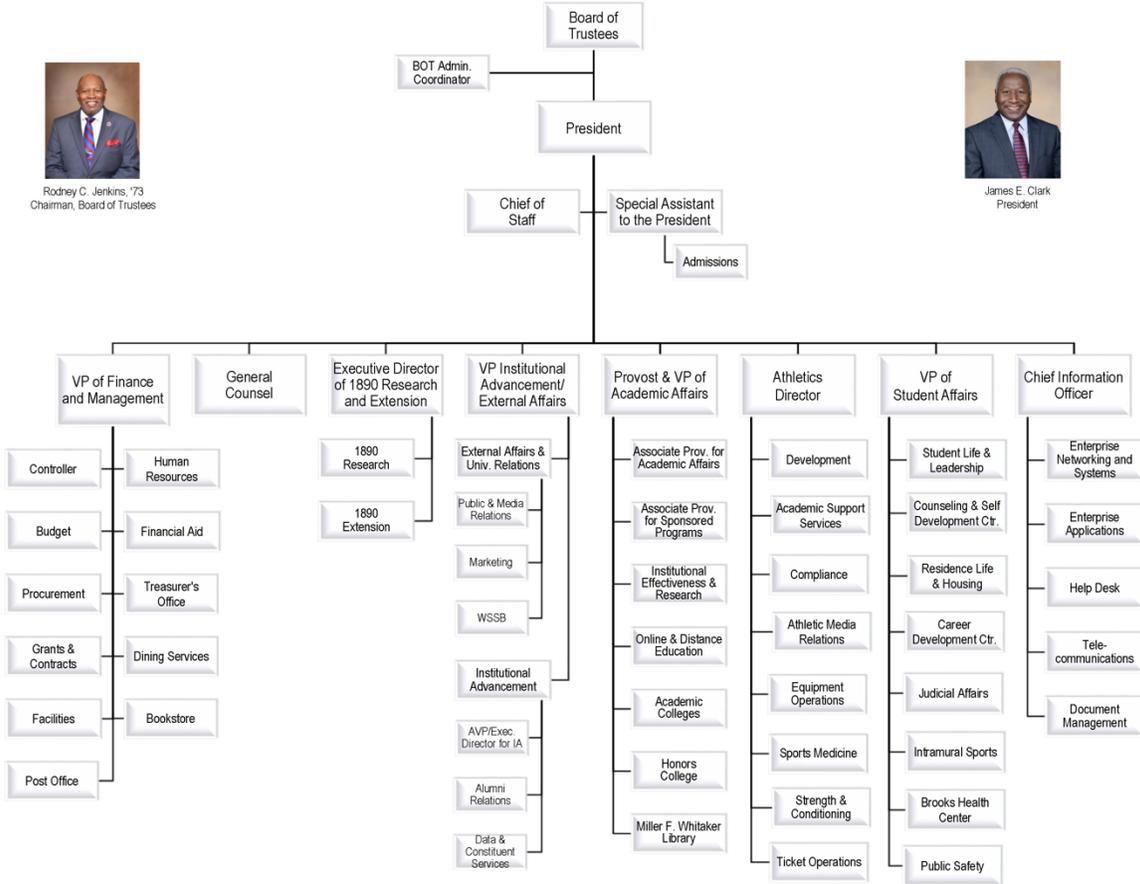

Option 3: Provide a significant one-time funding of infrastructure improvements for upgrades to information technology (IT) and the physical plant.

Option 4: Modify access criteria for HOPE and LIFE scholarships to be more dependent on GPA scores which are believed to be a better indicator of success for our students than certain standardized test scores.
