AGENCY’S DISCUSSION AND ANALYSIS

RECRUITING AND RETENTION

As a result of the anonymous Climate Survey the department conducted in June of 2021, the director appointed a Recruiting and Retention Committee comprised of department managers to conduct a thorough analysis of the survey data and make recommendations for a path forward. This analysis revealed the need for improved employee retention strategies. Therefore, the department implemented a Retention Officer in October 2021. The role of the Retention Officer is to work toward mutually beneficial solutions, advocate for employees through career counseling and coaching, and assist in identifying systematic strategies to help the department with recruiting and retention. The Retention Officer works with various levels of leadership to help remove barriers which prevent that balance, and re-establishing the department as an employer of choice.

In an effort to aid in recruiting and retention, the department conducted focus groups for law enforcement officers with 0-2 years of service, 3-5 years of service, and 10+ years of service. The focus groups gathered feedback directly from field personnel regarding areas in which the department could improve. Information gathered resulted in action items such as increased overtime opportunities, an abbreviated hiring process, a condensed patrol school period for pre-certified officers, consistency in the discipline process, an incentivized FTO program, leadership/supervisory training (LEEDA, Adaptive Leadership Program), and increased pay within the career path.

To attract and recruit employees to critical needs positions within the department, SCDPS established the use of a Sign-On Bonus and a Referral Bonus. The Sign-On Bonus awards a payment to new employees in critical needs positions after successful completion of all training requirements, and a second payment after successful completion of eighteen (18) months of continuous employment with the department. The Referral Bonus awards a payment to referring SCDPS employees, with some exceptions, who encourage candidates to apply for critical needs positions within SCDPS law enforcement divisions. When an applicant to a critical needs position provides the first and last name of the referring SCDPS employee on his/her application, the referring SCDPS employee is awarded a Referral Bonus after the new employee’s successful completion of all training requirements.

EMPLOYEE DEVELOPMENT AND EMPLOYEE RESOURCES

The department has procured training through the South Carolina Department of Administration which is titled “Supervisory Practices.” The training commenced in June 2020 and will continue for approximately two (2) years with updates extending to newly promoted supervisors as vacancies are filled. This proctored training is delivered to supervisors (law enforcement and civilian) with content covering thirteen (13) critical areas of supervisory development. As part of the vision to engrain supervisory training in current and future leaders, the agency has adapted a self-paced Leadership Series course originally developed by Director Woods into an online format. The Leadership Series is readily available to all personnel through the PowerDMS platform as a nine (9) module course of study. Questions developed from the course, serving as a check on learning, have become a part of each SCDPS Division’s promotional exams.

In addition to the services provided to law enforcement officers through SCLEAP, SCDPS obtained the services of an Employee Assistance Program through ComPsych Guidance Resources. The service is available 24/7 at no cost to the employee and may be used by all employees (sworn and civilian) and members of their households. Through ComPsych, department employees are provided convenient access to mental health counseling, health and wellness offerings, as well as life resources such as financial counseling and dependent care referrals.

Through the use of Exit Interviews, Managerial Assessments, Retention Interviews, Focus Groups and interaction with field personnel, the department developed law enforcement supervisory training in the form of an Adaptive Leadership Program. The program provides training to all law enforcement supervisors holding the rank of Corporal or higher. Focusing on adapting and thriving in challenging environments, the program assists supervisors in addressing their multigenerational workforces, using personality types to bridge differences, and recognizing motivating factors for each employee.

To ensure new officers are receiving training that will allow them to successfully complete their job duties, SCDPS implemented a formalized Field Training Program in March 2022. The program is managed by a Field Training Manager who is responsible for the day-to-day operations of the program. The Field Training Manager monitors Field Training Officers and their trainees. Formalizing the program has resulted in more effectively trained SCDPS law enforcement officers who are prepared to best serve the citizens of South Carolina.

OPERATIONS

SCDPS has realigned traffic enforcement efforts to a data-driven approach. The SCDPS Office of Highway Safety and Justice Programs was directed to develop a comprehensive Statewide Highway Safety Plan to enhance the department’s enforcement efforts and redirect resources in an effort to reduce traffic collisions, injuries, and fatalities. It is with this mindset that the department instated “Operation Teamwork,” a data driven initiative designed to provide assistance to Highway Patrol Troops during peak times of calls for service by gathering available resources from the State Transport Police, Highway Patrol Motor Units and assigning them to problematic areas.

SCDPS restructured its team concept to combine personnel from the South Carolina Highway Patrol (SCHP) and the State Transport Police (STP) to establish an Area Coordinated Enforcement (ACE) Initiative. These enforcement personnel are commanded by the area Troop Commander and are tasked with assisting troop personnel during periods of high calls for service where manpower limitations are often overwhelmed by the number of outstanding calls. During periods when calls for service are occurring at manageable levels, enforcement personnel resume proactive enforcement of travel corridors prone to traffic fatalities and serious injury collisions as identified through data-driven analytics (SmartCOP data server, South Carolina Strategic Highway Safety Plan [2020-2024]) and focus enforcement efforts on traffic violations that most often result in fatalities. By establishing the ACE Initiative, SCDPS provides undermanned areas with needed additional resources to substantially increase the number of officers working in closer proximity to one another to provide back-up should the need arise, and offer the most effective enforcement to change undesired driving habits on roadways with rising fatalities and serious injury statistics.

INFORMATION TECHNOLOGY AND INFORMATION SECURITY

SCDPS and SCDOT combined high crash corridor information for dashboard visualization utilizing SCDPS collision data joined with SCDOT traffic plans. SCDPS and SCDOT statisticians analyzed years of collision data identifying those roadways with a high rate of serious injuries and fatality collisions. The goal of SCDPS and SCDOT was to make South Carolina roads safer for citizens. These dashboards are updated daily to provide cluster collision data and heat maps to identify hotspots. Filtering provides a break down by date, county, day of week, primary factors, and more. This provides law enforcement with the tools to assign personnel where a high density of serious injuries and fatalities have been observed. The development of these dashboards provided an opportunity for both agencies to improve data analysis, collaboration and partner engagement. Team members visited all SCHP troop headquarters locations in the state and demonstrated the dashboards to officers. SCDPS’

implementation of this solution began in March 2021. Currently, SCHP and STP are utilizing these tools to improve response times and reduce serious collisions. This project was selected and recognized by the South Carolina Information Technology Director’s Association for its 2021 Innovation Award.

In 2021, SCDPS expanded the Information Security team to deliver a new process for media sanitization to prevent and mitigate the risk of unauthorized disclosure of sensitive information (PHI, PII, or CJIS data) while transferring or disposing of digital storage media and computing devices. By streamlining and improving this process, the department was able to sanitize over 4,600 assets mitigating risks. Additionally, the new Information Security Team expanded its responsibilities to include Risk Assessments for IT purchases in light of the increased focus on cyber security due to national breaches. The team has since taken responsibility for Privacy Impact Assessments, Data Sharing Agreements (in coordination with OGC), and security education for the department.

SCDPS established procedures and policies governing Information Systems Acquisitions, Development, and Maintenance; Mobile Device Security; Threat and Vulnerability Management; and Payment Card Industry Data Security Compliance.

SCDPS deployed a new body worn camera/in-car/SaaS solution by partnering with Axon in 2021. Technical configuration as well as training, policies, and plans were prepared. BPS’ rollout began in January 2022. The Axon technology provides linked in-car and body worn devices which are supported by a Cradlepoint device in the vehicle’s trunk. This allows the officer to upload video throughout the day to evidence.com. If an incident occurs, these videos are accessible in the evidence.com SaaS cloud for immediate viewing by management. This product set improves the officer’s safety and accountability. It provides reliable documentation of events which is particularly important during incidents and events where use of force is required.

The agency procured portable Use of Force Training Software in order to operate the program in regional locations to reduce travel and the time officers are away from their areas of operation. The portable training aide library provides a multitude of virtual scenarios from active shooter to traffic enforcement situations. As the officer is interacting with the training software program, the instructor can escalate or de-escalate the situation and make decisions using multiple weapon systems. This allows officers the opportunity to make simulated life and death decisions in a safe, controlled environment, which prepares them for real world encounters. This system is multifunctional and assists with the Basic Program, In-service, Advanced Training, and Remedial Training.

COST SAVINGS

During Fiscal Year 2021-2022, the department has made great strides in procuring law enforcement technology to enhance officer and public safety, as well as implementing new processes to enable significant cost savings. The following processes have resulted in a cost savings/cost avoidance of \$88,672.80: refurbishing fire extinguishers instead of replacing them; repurposing usable body armor; reselling used weaponry such as shotguns to outside law enforcement agencies; updating miscellaneous uniform and equipment processes; and tracking and fulfilling ammunition requests. In addition, new inventory tracking procedures such as weekly cycle counts and property transfer audits have been implemented which have resulted in a positive impact on the tracking and inventorying SCDPS assets and stocked items.

For over two decades, SCDPS has been tasked by the General Assembly with providing and maintaining in-car video camera systems for local law enforcement agencies in South Carolina. During 2021, SCDPS purchased and issued three-hundred and sixty-eight (368) new in-car cameras to law enforcement agencies throughout the state.

The department recognized the processes of this program were outdated and, in response, conducted an in-depth review of the department’s historical and current management of this program. The review revealed antiquated

AGENCY CODE:	K050	SECTION:	63

processes resulted in SCDPS’ payment of an annual maintenance contract in excess of two-hundred thousand dollars (\$200,000). One-thousand four-hundred eighteen (1,418) cameras have been identified as past their expected service lives and ownership was transferred to the respective assigned agency, resulting in a cost savings of over one-hundred and fifty-thousand dollars (\$150,000) for the department. Moving forward, the program will be managed in conjunction with the Highway Safety Body Worn Camera Program, allowing SCDPS to issue local law enforcement agencies funding to purchase their own in-car video equipment and alleviate the need for SCDPS to maintain this equipment throughout its life.

SCDPS began participating in the 1033 Federal Military Surplus Program in 2016. Since its inception, SCDPS has acquired varying items that would normally be purchased using SCDPS funding (e.g., individual first aid kits [IFAKs], weapon cleaning kits, various tools and tool kits, printers, utility trailers, a forklift). Between June 2021 and May 2022, the department has acquired over six-hundred thousand dollars (\$600,000) in equipment that was obtained without encumbering the SCDPS budget.

MISCELLANEOUS

The department has made a conscious effort to keep its law enforcement officers updated on the latest Centers for Disease Control and Prevention (CDC) guidance regarding COVID-19 to assist and protect them during daily contact with the public. Written guidance included classifications and examples of risk potential, various protective measures to take when conducting traffic stops and performing other law enforcement-related duties, countermeasures to employ (donning PPE, practicing proper hand hygiene, contacting emergency medical service for transportation assistance, sanitizing equipment and vehicles), and protocols to exercise when an employee believes he/she has been exposed to the virus.

The department successfully navigated a virtual Commission on Accreditation for Law Enforcement Agencies (CALEA) review of agency policies, procedures, and operational components. The department underwent its review in July 2021. The Division of Strategic Services and Planning will continue to work closely with applicable SCDPS divisions to acquire proofs and directives, as necessary, to ensure another successful review.

POSSIBLE NEGATIVE IMPACT IF AGENCY GOALS ARE NOT MET

GOAL 1: ENHANCE PUBLIC/OFFICER SAFETY

The inability of the department to provide a safe environment in which to travel throughout the state could result in an increased level of traffic collisions and fatalities, which result in emotional pain, lost income, higher insurance rates, and other economic loss. A reduction in officer safety places the officers in greater danger and induces financial inefficiencies through turnover.

GOAL 2: PROFESSIONAL DEVELOPMENT AND WORKFORCE PLANNING

Failing to attract, recruit, and retain a professional workforce may compromise the department’s mission to provide professional services, enforce traffic laws, and save lives. By not reducing trainee turnover, more state and taxpayer funds would be spent in an attempt to attract, hire, and retain officers. Failure to train the workforce would have a negative effect on work performance and could result in employee turnover and ineffective customer service. In addition, without the means to fund a salary career path that compensates officers for experience beyond five years, knowledge, or skills, SCDPS would struggle to retain experienced officers.

GOAL 3: APPROPRIATE USE OF INFORMATION AND TECHNOLOGY

AGENCY NAME:	South Carolina Department of Public Safety		
AGENCY CODE:	K050	SECTION:	63

Inappropriate use of technology could result in poor customer service and higher costs to conduct business. SCDPS relies on computerized information systems to carry out its operations; process, maintain, and report essential information; transmit proprietary and other sensitive information; develop and maintain intellectual capital; conduct operations; process business transactions; transfer funds; and deliver services. In addition, the Internet has grown increasingly important, developing into an extended information and communications infrastructure that supports SCDPS' service to the public.

Ineffective protection of these information systems and networks can result in a failure to deliver these vital services and result in loss or theft of computer resources, assets, and funds; inappropriate access to and disclosure, modification, or destruction of sensitive information, such as criminal justice information, personal identifying information, and proprietary business information; disruption of essential operations supporting critical infrastructure and emergency services; undermining of agency missions due to embarrassing incidents that erode the public's confidence in SCDPS; use of computer resources for unauthorized purposes or to launch attacks on other systems; damage to networks and equipment; and high costs for remediation.

GOAL 4: QUALITY CUSTOMER SERVICE DELIVERY

If SCDPS fails to adequately educate, inform, or respond to information needs of the public, the public's awareness of important traffic safety messages would be compromised.

OUTSIDE HELP NECESSARY FOR MITIGATION

The overwhelming majority of possible incidents discussed above could be mitigated with additional funding appropriated to the agency through recurring and core budget funds.

GENERAL ASSEMBLY OPTIONS

Possible options for the General Assembly to consider would be to:

1. Continue to provide the department with recurring funding for salary increases to assist with recruitment and retention of law enforcement officers as local agencies become more competitive.
2. Continue to provide the department with recurring funding for body armor for SCDPS law enforcement officers; Highway Patrol Radio Rotation; Less-Lethal weapons; law enforcement vehicles; and additional data storage to support the Body Worn Camera videos.
3. Continue to provide the department with additional funding for Body Worn Cameras which would assist SCDPS and local law enforcement agencies in fully outfitting officers that are required to wear body worn cameras as part of their respective agencies' policies. Also, additional funding to augment existing commercial off-the-shelf products to support the integrated case management solution which would improve efficiency and accuracy.

FUTURE ISSUES THAT MAY IMPACT THE AGENCY

- Officer safety continues to be a primary concern of the agency. The ongoing struggle to remain competitive with salaries offered by private sector employers and local law enforcement agencies results in reduced staffing levels, a diminishing pool of qualified applicants, decreased retention, and non-competitive law enforcement salaries;
- Reduced federal grant funding opportunities;
- Budget constraints; and
- Cost of leadership and employee development training.

Agency Mission

Adopted in:

2019

As the largest law enforcement agency in South Carolina, it is the mission of the South Carolina Department of Public Safety to protect and serve the public with the highest standard of conduct and professionalism; to save lives through educating the citizens of South Carolina on highway safety and diligent enforcement of laws governing traffic, and motor vehicles, commercial carriers; to provide protective services for government officials, state government properties, and the general public visiting these properties; and to ensure a safe, secure environment for the citizens of the state of South Carolina and its visitors.

Agency Vision

Adopted in:

2016

The South Carolina Department of Public Safety's (SCDPS) vision is to ensure that it is setting the standard for public safety excellence as a cohesive team by making South Carolina a safer place to live, work, and visit through protection, education, and service. Embedded within SCDPS' efforts and initiatives to serve the public are the agency's core values: Integrity, Excellence, Accountability, and Leadership.

Recommendations for reorganization requiring legislative change:

None

Agency intentions for other major reorganization to divisions, departments, or programs to allow the agency to operate more effectively and efficiently in the succeeding fiscal year:

Effective July 2022, the department re-organized the Division of Strategic Services and Planning (formerly the Office of Strategic Services, Accreditation, Policy, and Inspections) and re-assigned the ESF 16 function to this division.

The Office manages the information technology infrastructure, systems, data, applications, services, projects, and IT planning, license, maintenance and service agreement specifications for SCDPS in approximately 67 continuously and intermittently operating offices state-wide.	Internal-- SCDPS Employees	SCDPS Employees		Office of Information Technology	This division is made up of approximately 31 staff members. These staff members support the IT needs of nearly 1,400 users across the entire State of South Carolina in 67 supported locations. The Office operates a Help Desk (8:00am-5:00 pm), a field service team with technicians located at each Troop HQ, provides 7x24 on-call support via rotation, a network and infrastructure architecture and support, a database and software support. GIS (geographic mapping) and dashboards, access control services, audio-visual support, and includes the ISO and the Information Security and Risk Management team.	Agency operations are dependent upon electronic systems for operations including citations, collisions, fatality information, records, human resources, financials, public online payments for State Transport commercial citations, external facing information of live traffic data mapping, emergency response technologies and systems, MAIT accident investigation, asset management, FOIA, evidence management, fleet management, warehouse management, body camera and in-car technologies for video collection, and data transfers to Courts, DMV and DOT.	Amend	Please add the following to the end of the current service description: OIT's organization added responsibilities and programs for cyber security and data privacy. The team manages all sanitization services for media disposal working with State Surplus. Additionally, OIT migrated to shared services at DOA/DTO retiring the local Blythehood Data Center. The Agency is now migrating to an automated work flow and data repository solution from DOA/DTO (OnBase) for internal management of assets and human resources processing. New technologies were implemented for map based data driven enforcement, dashboards for monitoring incidents, accidents, locations, fatalities, etc. New technologies are being implemented for security vulnerability and patch management for end point devices.
The Office manages the information technology infrastructure, systems, data, applications, services, projects, IT planning, licenses, service agreement, and information security for SCDPS across the State in approximately 67 offices locations. Benefits, Classification and Compensation, Payroll, Employment, Recruitment and Employee Relations	All SCDPS Employees	SCDPS Employees	SCDPS Employee dependents, SCDPS Applicants, other State Agencies, other entities seeking employment verifications.	Human Resources	This division provides human resources services to agency.	The employment area provides qualified applicants to all departments and divisions within the agency. Meeting staffing needs impacts all employees and supervisors, and is crucial to our day-to-day operations as well as meeting the mission of the agency. We provide assistance to hiring managers and law enforcement recruitment personnel who depend upon our expertise to successfully hire and onboard their new employees. We also provide employment verifications and answer questions about the employment and promotion process for employees who are seeking other opportunities within and outside of the agency. SCDPS Benefits services impact the family members of our employees, as dependents on their PEBA insurance coverage, and beneficiaries of their life insurance policies and retirement accounts. Family members would be negatively impacted if benefits services were not provided, as they would then not have access to health, dental, vision, life, and flexible spending account coverage as dependents. Lastly, if we do not complete our job successfully, our employees pay and other benefits could be negatively impacted. Additionally, other agencies could be negatively impacted if payroll, disciplinary actions, reporting requirements, benefits and leave cases are not managed appropriately. Some examples include, PEBA, State Accident Fund, Division of State Human Resources, Comptroller General's Office, State Treasurer's Office and receiving agencies for employee transfers. Private entities may also suffer if information requests and employment verifications are not completed in a timely manner.	No Change
