AGENCY’S DISCUSSION AND ANALYSIS

Overview

The South Carolina Department of Social Services (DSS or Agency), one of the largest state government agencies in South Carolina, provides a vast array of critical services to a wide range of constituent groups who may find themselves in difficult and challenging situations across the state. The agency operates through an integrated service delivery model of county-level offices and regional operations that are guided by a state office which provides centralized management, support, and accountability functions. The Agency works closely with and relies on other state agencies, non-profit organizations, and other strategic partners to perform its work.

Beyond the high-profile work done in the areas of Child Welfare and Adult Protective Services, the Agency also serves as the state’s administrator of safety net programs that provide financial and employment assistance to families in need, including the Supplemental Nutrition Assistance Program (SNAP) and the Temporary Assistance for Needy Families (TANF) program. The Agency also provides the infrastructure for the licensure and oversight of childcare providers across the state, as well as the ongoing implementation of a quality-based ratings system. The Agency also manages the statewide collection and disbursement of Child Support. Finally, Agency employees staff emergency shelters statewide during hurricanes, floods, and other disasters.

Division Highlights

Adult Advocacy

The Adult Advocacy Division consists of the Adult Protective Services (APS) and Domestic Violence programs. APS is mandated to investigate non-criminal reports of caregiver abuse, neglect, and exploitation of vulnerable adults. If the results of an investigation meet the criteria outlined in SC law and APS policy, temporary protective services are provided to adults (18 years or older) who have been determined to be vulnerable and have a physical or mental condition which prevents them from providing for their own care or protection. The Domestic Violence program funds, monitors, and assists domestic violence programs statewide, as mandated by state law. Crisis intervention and prevention services support victims of family violence and their children through a network of community based/non-profit service providers.

Together, these programs funded, organized, and hosted the state’s second annual World Elder Abuse Awareness Walk (WEAAD) on June 15, 2022 with approximately 150 participants. Speakers included Michael Leach, DSS State Director, Kelly Cordell, Adult Advocacy Director, and Connie Munn from the SC Department on Aging. Multiple media outlets covered the event.

Adult Protective Services

During the fiscal year, the program continued to focus on three primary tracks: updating existing guidance and communication by updating the APS certification training and updating policy documents with emerging best practice guidance; analyzing current practice by analyzing fidelity

AGENCY NAME:	Department of Social Services		
AGENCY CODE:	L040	SECTION:	038

to best practice guidance outlined in APS policy to the system of record, analyzing the use of sitter services in APS placements, creating a process for conducting quality assurance for APS intake, and creating data reporting processes for tracking placements and expenditures; and creating new guidance by creating a tool for assessing adult wellbeing and creating a process for documenting self-determination in the system of record.

APS continues to refine its infrastructure to improve program outcomes. Collaboration with the Agency’s Information Technology team has led to modifications to better track services and placements for adult clients. The APS section of the Agency’s website has been redesigned and will continue to keep information relevant. Evaluating and updating procedures and policies remains a focus, including efforts to map out investigations policy and build a better process for quality assurance reviews for intake. APS has expanded the area of policy and program oversight, adding practice compliance coordinators focusing on practice improvement tools and strategies. APS continues to collaborate with the Agency’s Staff Development and Training team to review, update, and enhance training opportunities for staff.

For the fourth consecutive year, the Agency has received grant funding from the Victims of Crime Act (VOCA) program that will fund the Family Group Conferencing Program. The Family Group Conference model allows DSS, family, fictive kin (individuals not related by birth, adoption, or marriage to a person, but who have an emotionally significant relationship with the person), state stakeholders, and community supports/resources to create partnerships for the safety, well-being, and self-determination of vulnerable adults. During calendar year 2021, 40 family group conferences were held.

Domestic Violence Program

This program manages the federal Family Violence Prevention and Services Act (FVPSA) grant that supports emergency shelters and related activities. This program also manages the state’s Domestic Violence Fund, which awards grants to domestic violence centers and programs statewide. Additionally, the Domestic Violence program received grant funding for FVPSA CARES which was distributed to local shelters, received two ARPA funding grants for domestic violence programs which will be distributed over the course of four years, received a sexual assault grant, coordinated with SCCADVASA to develop and conduct a specialized training for DSS staff on the intersectionality of domestic violence, elder abuse and neglect, and HIV, and participates in the Domestic Violence Advisory Committee which meets quarterly. The domestic violence liaison program in each DSS county office continues to collaborate and support DSS county offices to better serve shared clients. The creation of a DSS domestic violence liaison toolkit allows liaisons to share best practices, documents, and data.

Content on domestic violence continues to be integrated into all related APS curriculum offerings. Staff from the domestic violence program attended numerous APS area meetings to provide updates and resources related to domestic violence. In addition, the program worked with SCCADVASA to develop and conduct a specialized training for DSS staff.

Child Support Services

The Child Support Services Division (CSSD) establishes and enforces orders for child support, establishes paternity for children when paternity is an issue, locates absent parents when whereabouts are unknown, and manages the collection and distribution of child support payments. In addition to services provided to custodial parents, noncustodial parents may apply for genetic testing to determine if they are the father of a child. CSSD also provides enhanced fatherhood initiatives to improve the capability of both custodial and noncustodial parents to provide their children with the financial, physical, and emotional support they deserve and need to be safe and to thrive. Through the Visitation and Access grant, better known as the Visitation Involvement Parenting (VIP) program, services are provided to assist noncustodial parents with obtaining court ordered visitation with their children. The VIP program currently provides services in the Midlands and Lowcountry regions.

Over the course of the federal fiscal year, the division focused on increasing staff knowledge by training staff on best practices on locate functions. This effort included cross training staff on locate functions, including shadowing and collaboration. Additional cross-training on the tasks and practices of regional operations has provided staff the opportunity to better understand how different units fit together to provide better services. Collaborating with the domestic violence program, CSSD staff participated in domestic violence training and incorporated updates related to DV best practices on child support applications.

CSSD continues to collect money for clients efficiently, with collections increasing year over year. In fact, CSSD was the 14th most cost-effective child support program in the United States for the most recent federal fiscal year. Streamlining processes by expanding virtual services, decreasing the backlog of cases awaiting scheduling, and improving performance on established measures including timely case closure and successful establishment of paternity orders remains a focus for CSSD.

Working in collaboration with the Division of Technology Services, CSSD created a virtual walk-in customer kiosk in the regional offices. This created a contactless interaction between staff and customers, with over 4,600 individuals being served virtually. Additional virtual services include virtual hearings, which have been incorporated as an option for many cases. CSSD held over 1,000 virtual hearings over a six month period alone.

In order to provide clients with access to all of their case information in a convenient way, CSSD developed a Customer Service Portal. Custodial parents and noncustodial parents are able to obtain payment and disbursement histories, update address and employment information, as well as information concerning court dates and upcoming hearings. The Customer Service Portal went “live” in March of 2021 and the reception has been incredible. As of September 1, 2022, the portal website has been visited over 1 million times and 35,000 custodial and noncustodial parents have created user accounts.

CSSD recently completed an Online Application Portal which provides parents with the option to apply for services, in English or Spanish, using their computer or smartphone. The Online Application Portal went “live” in June of 2022 and the initial response has resulted in an increase in applications received from parents.

The South Carolina Child Support Guidelines are the responsibility of CSSD and the South Carolina Department of Social Services. All orders issued by the Family Courts of South Carolina utilize the guidelines to determine the appropriate amount of child support that a noncustodial parent should contribute. The guidelines are regularly reviewed to make necessary changes and adjustments to ensure compliance with federal and state laws. Additionally, the review of the guidelines ensures that child support orders accurately reflect the most recent economic data available. CSSD began its guideline review in early 2022 and is on target to submit the revised guidelines to the Legislature for approval.

Providing all of South Carolina’s residents with access to its services and physical locations remains a priority for CSSD. In the past year, two application forms, three brochures and twenty-two documents have been translated into Spanish. CSSD is also engaged in developing an enhancement to the Palmetto Automated Child Support System (PACSS) to clearly identify clients who may require the service of a translator. Upon implementation, this enhancement will not only increase the efficiency of CSSD at administrative and judicial hearings, but more importantly, ensure that custodial and noncustodial parents receive information in their preferred language. In addition, CSSD’s Civil Rights Action Plan is ongoing and will include a review of its 4 physical locations to identify any possible issues regarding accessibility.

Child Welfare Services

Programs and activities in the Child Welfare Services division (CWS) are targeted to improve safety, permanency, and well-being outcomes for affected children and families across the state. CWS operations include Intake services, Investigative services, Family Preservation services, Foster Care services, Foster Home Licensing services, and Adoption services.

These operations are tied to the administration of federal Title IV-B and IV-E funded programs and their related child welfare plans and services, as overseen by the US Department of Health and Human Services, Administration for Children and Families’ Children’s Bureau (Children’s Bureau). These programs are operated in accordance with federal and state requirements, as well as the 2020-2024 state Child and Family Services Plan (CFSP), a five-year strategic plan that includes goals, objectives, strategies, and planned services.

Each year, the Agency is required to file an Annual Progress and Services Report (APSR) with the Children’s Bureau. In submitting its APSR for 2021-2022, DSS continues to engage internal and external partners to discuss progress and challenges.

The Agency has completed the third round of the federal Child and Family Services Review (CFSR) process. The CFRS process measures compliance with safety, permanency, and well-being outcomes for children and families under the care of DSS. The two components of this statewide review are quality assurance (QA) case reviews and an assessment of systemic factors. The systemic factors include: statewide information system; case review system; quality assurance (QA) system; staff and provider training; ongoing staff training; foster and adoptive training; service array and resource development; Agency responsiveness to the community; foster home licensing; adoptive parent licensing; and recruitment and retention.

AGENCY NAME:	Department of Social Services		
AGENCY CODE:	L040	SECTION:	038

To address areas needing improvement in the final CFPSR report, the Agency, in collaboration with the Children’s Bureau developed a Program Improvement Plan (PIP) that was approved in 2019. The PIP outlines goals, strategies, and action steps pertaining to: quality assessments; quality worker contacts and visits; achieving timely permanency; strengthening the foster care system through adopting a “kin first” culture; supervision; case planning; training; service array; engagement through child and family team meetings; and continuous quality improvement. PIP implementation continues in ten counties: Aiken; Berkeley; Chesterfield; Fairfield; Greenville; Horry; Jasper; Newberry; Pickens; and York. As confirmed by the Children’s Bureau, all PIP activities have been completed.

DSS continues the campaign called Better Together: Enhancing Practice, Transforming Lives to advance a well-being system that partners with children, youth, and families to prevent further harm to communities of color. This campaign highlights the Agency’s efforts to transform the state’s child welfare system within three strategic domains: cross-cutting strategies; strategies to preserve families; and strategies to achieve permanency.

The Agency has completed the implementation of two new assessment tools: The Child and Adolescent Needs and Strengths (CANS) tool and the Family Advocacy and Support (FAST) tool. These tools provide support for frontline staff to guide the assessment of safety and risk, strengths, needs, and the identification of appropriate services. Statewide training and implementation were completed in October of 2021.

Recognizing that defining, implementing, and operating within a Safety Culture is integral to supporting frontline staff, the Agency has partnered with the University of Kentucky to establish a Safety Culture within the agency. In October of 2021, the Safety Culture survey was completed, and results were analyzed. The Agency continues to work towards a Safety Culture, identifying ways in which leadership can implement staff supports and promote psychological safety.

To better support staff, the Agency continues to identify gaps in policy and procedure and is continuously reviewing, updating, and implementing policy guidance. The Agency is in the process of establishing a new policy implementation process to support these efforts.

As of January 2021, Child and Family Team Meetings (CFTM) are now held statewide in foster care and family preservation cases. The CFTM process engages family, youth, and other supports in planning and decision making throughout the life of a case and at critical decision-making points. From April of 2021 to March of 2022, the Agency has conducted 1,318 CFTMs. The Agency has implemented Placement CFTMs to help increase placement stability. In addition, the Agency completed the integration of the GPS into the CFTM process as of October, 2021.

Michelle H. Settlement Agreement

In 2016, the US District Court approved a settlement agreement (“Settlement Agreement” or “Agreement”) to resolve a class action lawsuit (commonly known as the “Michelle H.” lawsuit) filed against the State of South Carolina in 2015 on behalf of children in foster care. Entering into the Agreement avoided prolonged litigation and allowed DSS to focus on improving the quality of foster care for children in the state.

AGENCY NAME:	Department of Social Services		
AGENCY CODE:	L040	SECTION:	038

The Agreement includes an expansive range of provisions mapped out within five implementations plans. DSS continues to make progress in the completion of activities outlined in the five court-approved implementation plans. The provisions within these plans consider case manager caseloads, foster child visits with their case managers and family members, investigations of allegations of abuse and neglect of children in foster care, appropriate and timely foster care placements, and access to physical and mental health care for children in DSS custody.

The settlement appoints two national child welfare experts as independent co-monitors. They file periodic public progress reports with the US District Court. The last report was filed in June 2022.

Economic Services

The Economic Services division (ES) seeks to effectively and efficiently serve the citizens of South Carolina by helping individuals and families achieve stability through financial and other temporary benefits while transitioning into employment. This encompasses multiple programs and divisions, including the Temporary Assistance for Needy Families (TANF) program, the Supplemental Nutritional Assistance Program (SNAP), the Employment Services Division, and the Division of Early Care and Education.

Public Assistance/Benefit Programs

The Agency processed 150% more SNAP and TANF assistance applications during state fiscal year 2022 compared to the year prior to the COVID-19 pandemic.

Since March 2020, SNAP households in South Carolina have received emergency supplement payments, temporarily bringing all households up to the maximum benefit amount. As of April 2021, all SNAP households are receiving at least \$95 in emergency supplements each month. Due to the emergency supplements, as well as a federal increase in the maximum benefit allotments authorized by Congress and the USDA in 2021, the amount of federal SNAP benefits going to South Carolina families and supporting the state’s economy is nearly double what it was prior to COVID. As of June 2022, DSS is issuing an average of \$85 million *additional* federal SNAP benefits each month (compared to pre-COVID levels).

The Agency issued three rounds of Pandemic EBT Benefits during the fiscal year, putting approximately \$284 million in additional federal benefits into the hands of South Carolina families and the state’s economy.

South Carolina received \$10 million in federal stimulus funds through the Temporary Assistance for Needy Families (TANF) program. In May 2022, DSS issued over \$9.3 million in emergency cash assistance to help qualifying families with short-term basic needs and supplement household costs resulting from the COVID-19 pandemic and rising food, gas and energy prices. 7,341 TANF households received a one-time payment of \$425. SNAP households with no income and at least one child under the age of six (23,660 total) received a one-time payment of \$265.

AGENCY NAME:	Department of Social Services		
AGENCY CODE:	L040	SECTION:	038

Economic Services continues to improve the infrastructure and processes of its programs. During 2021, ES collaborated with Child Support staff to assist with researching cases to resolve and prevent funds from being held. In addition, collaboration with the Agency’s Information Technology team led to an upgrade in the agency’s on-line SNAP/TANF application portal.

Employment Services

Over the course of the fiscal year, Employment Services staff implemented a SNAP E&T 10-day virtual boot camp, successfully closed the Project HOPE Health Professional Opportunity federal demonstration grant exceeding several projected goals, and developed an employer survey to track trends with employers and performance.

Early Care and Education

South Carolina received four supplemental federal child care grants related to COVID-19, totaling nearly \$955 million. The Agency has utilized this stimulus funding to provide numerous supports to child care providers throughout the pandemic and will continue to do so through 2024.

The Division of Early Care and Education (DECE) issued a fifth round of operating grants in September 2021, distributing more than \$55 million to licensed and registered child care providers to help those who had to close or who remained open and lost revenue due to low enrollments.

In December 2021, the Agency launched the initial round of American Rescue Plan Child Care Stabilization Grants to qualified child care providers. These grants are designed to help stabilize child care operations, and funds may be used to cover expenses such as rent/mortgage payments, utility bills, payroll benefits, and facility maintenance or improvements. A second round of Stabilization Grants was launched in June 2022. Between Round 1 and Round 2, DECE staff approved more than \$389 million in Stabilization Grants to child care providers during the fiscal year.

Over the course of the fiscal year, DECE raised voucher rates for child care providers to help close the gap between voucher rates and private pay clients, created an accelerated pathway for enrollment of Head Start/Early Head Start and NAEYC-accredited child care centers that allows an accelerated pathway to ACB Quality rating, enrolled 69 Head Start/Early Head Start programs in ABC Quality meeting a federal mandate, and developed key questions for parents to use in finding quality child care providers which has become one of the top three visited pages on the site.

Risk Assessment and Mitigation Strategies

DSS provides services to families throughout South Carolina and plays a critical role in the lives of children and adults who find themselves in difficult and challenging situations. Every year, DSS strives to improve on past performance and build a knowledgeable workforce that is prepared to face any situation that presents itself. The agency works closely with and relies on other state agencies, non-profit organizations, and other strategic partners in the delivery of these services.

AGENCY NAME:	Department of Social Services		
AGENCY CODE:	L040	SECTION:	038

If the agency were unable to carry out its goals and objectives, the public would not receive timely or quality services at their point of need. From delivering employment assistance, child support enforcement services, child and adult protective services, and much more, DSS plays a critical role in the array of services provided by state government. The agency works closely with the General Assembly and its oversight bodies, as well as the executive and judicial branches of state government to ensure that the agency is able to fulfill its goals and objectives, including presenting budget requests to fund the agency's efforts, proposing improvements to state laws and regulations that will enable DSS to better serve families, and adjusting agency policy and procedures with a focus on continuous improvement and the constituencies that are served.

Law number	Jurisdiction	Type	Description	Purpose the law serves:	Notes:	Changes made during FY2022
Title IV-A of the Social Security Act (42 U.S.C. 601 et seq.)	Federal	Statute	Authorizes block grants to states for the funding of Temporary Assistance for Needy Families (TANF), allowing flexibility to states in the usage of federal funding to operate a program designed to (1) provide assistance to needy families so that children may be cared for in their own homes or in the homes of relatives; (2) end the dependence of needy parents on government benefits by promoting job preparation, work, and marriage; (3) prevent and reduce the incidence of out-of-wedlock pregnancies and establish annual numerical goals for preventing and reducing the incidence of these pregnancies; and (4) encourage the formation and maintenance of two-parent families. Requires State to contribute funds based on a maintenance-of-effort (MOE) requirement. Authorizes funding for child care through the Child Care and Development Block Grant.	Requires a service		No Change
Title IV-B of the Social Security Act (42 U.S.C. 621 et seq.)	Federal	Statute	Authorizes formula grant funds to states for the provision of child welfare-related services to children and their families, including funding under the Stephanie Tubbs Jones Child Welfare Services program (Subpart 1) and the Promoting Safe and Stable Families Program (Subpart 2). The agency uses the Subpart 1 funds in its efforts to prevent the neglect, abuse, or exploitation of children; support at-risk families through services which allow children, where appropriate, to remain with their families or return to their families in a timely manner; promote the safety, permanency, and well-being of children in foster care and adoptive families; and provide training, professional development, and support to ensure a well-qualified workforce. The agency uses the Subpart 2 funds to support programs and services related to family support and preservation, safe and timely reunification, and adoption support services.	Requires a service		No Change
Title IV-D of the Social Security Act (42 U.S.C. 651 et seq.)	Federal	Statute	Creates the Child Support Enforcement (CSE) program, a federal-state program, designed to help strengthen families by securing financial support for children from their noncustodial parent on a consistent and continuing basis and by helping some families to remain self-sufficient and off public assistance by providing the requisite CSE services. Families receiving TANF benefits, foster care payments under Title IV-E, or Medicaid coverage under Title XIX of the Social Security Act, are automatically referred for CSE services at no charge. Collections on behalf of families receiving TANF benefits are used, in part, to reimburse state and federal governments for TANF payments made to the family. The CSE program provides seven major services on behalf of children: (1) parent location, (2) paternity establishment, (3) establishment of child support orders, (4) review and modification of child support orders, (5) collection of child support payments, (6) distribution of child support payments, and (7) establishment and enforcement of medical support.
