AGENCY’S DISCUSSION AND ANALYSIS
RECRUITING AND RETENTION

For the second year in a row, the agency participated in a pay study with the Department of Administration in an effort to address salary discrepancies among state law enforcement. The study concluded that, despite the state's best efforts, state law enforcement officer salaries still lagged behind those on a local and regional level and recommended across-the-board salary increases of approximately 9% for the agency's law enforcement officers. The agency was budgeted approximately \$6.5 million to implement this change in its budget. A new officer now begins at a salary of \$55,000.

The pay study also recommended the creation of a new rank for law enforcement, Senior Trooper/Officer. Previously, officers did not receive a pay increase after graduation until they were on the job for 3 years. The agency reduced that time to 18 months while maintaining a pay increase at the 3 year mark. By more frequently offering incentives to younger officers, the agency is able to retain these officers through their first few years of employment, a time period where the agency often loses officers.

The agency continues to pay Sign-On and Referral Bonuses as an incentive to recruit new officers.

EMPLOYEE DEVELOPMENT AND EMPLOYEE RESOURCES

In keeping with the agency's focus on leadership development, the agency continued to expand its leadership training opportunities. The agency continues to offer "Supervisory Practices" training to all supervisors, civilian and law enforcement. Additionally, the agency still offers its adaptive leadership program to all law enforcement supervisors. The vast majority of supervisors have been trained in both these programs, and the programs are now in a maintenance phase where new supervisors are trained as they come on board.

This year, the Highway Patrol implemented a one week supervisor's course for its Corporals. The program covers all phases of law enforcement leadership with an emphasis on the culture of leadership. Plans are underway to expand the program to other law enforcement divisions.

The agency also introduced Incident Command System (ICS) training for its law enforcement personnel this year. To ensure that all law enforcement officers are adequately trained in ICS-related procedures, the agency implemented a comprehensive three-tiered training program. This program encompasses FEMA Independent Study courses and in-person classroom sessions designed to equip officers with the necessary knowledge and skills. The three-tiered curriculum is structured to align with incident management and corresponds to the appropriate level of supervision. The agency has trained over 600 employees in Tier I, 170 in Tier II, and 56 in Tier III.

The agency implemented a renovated Officer Survival School on September 9, 2022. This week-long course focuses on high-liability aspects of law enforcement tasks including pursuit management, de-escalation, combat shooting, defensive tactics, use of force encounters, and stress responses. Since its inception, the agency has hosted this course six times and successfully trained 91 officers. This course is a fundamental focus in the advanced training curriculum offered to newly hired law enforcement personnel and is also provided to veteran officers several times throughout the year.

In February 2023, the agency rolled out an agency-wide wellness initiative, SCDPS FIT, which focuses on all aspects of an employee's well-being, including mental, emotional, occupational, and spiritual health. Monthly, the agency distributes a daily exercise for employees and encourages them to share their progress

with one another via social media. Additionally, the agency has used traditional media for communicating Employee Assistance Program (EAP) resources to employees through targeted campaigns on nutrition, mental health, financial health, and safety.

During its annual in-service, the agency presented a range of programs aimed at offering guidance and support to officers and their families. One of these programs is the SC Law Enforcement Assistance Program, which comprises a peer support team dedicated to assisting officers and their families both personally and professionally. For those seeking continuous and personalized mental health care, the Meru online counseling program, available through Blue Cross, offers dedicated therapists and self-paced lessons and activities. Furthermore, employees can benefit from the Blue365 program, a complimentary health and wellness discount initiative. This program provides year-round discounts on gym memberships, fitness equipment, healthy dining options, and more.

OPERATIONS

The Office of Information Technology (OIT) created a new Statewide CAD system this year. Under the old system, officers were unable to see calls for service outside their assigned telecommunications center area. In addition, if officers were sent outside their assigned area, they would lose access to NCIC. On top of that, telecommunications operators could not easily create a call for service in areas outside their digital boundaries. With the implementation of a Statewide CAD, officers can see any call anywhere in the state with just a few clicks; every patrol vehicle has access to NCIC anywhere in the state; and TCC operators can easily create calls for service anywhere in the state.

One of the agency's points of emphasis this year has been activity accountability for law enforcement. In short, the agency consistently sends a message to employees to do the job they are being paid to do. In early 2023, the director travelled across the state and personally addressed every officer on the importance of accountability. The results have been positive and productivity has continued to increase.

The department reorganized the position of Inspections Commander to conduct, manage, and maintain the Staff Inspection process. The position was reclassified to ensure all Staff Inspections across all divisions are conducted independently of the divisions being inspected. Staff inspections are conducted within all organizational law enforcement and telecommunications components at least every three (3) years and consist of a review of the administrative and operational efficiency of the inspected component. Staff inspections include the inspection of facilities and equipment, adherence to policies and procedures, file and record maintenance, and personnel and management. Additionally, each Staff Inspection includes interviews with personnel in the area being inspected which provides another avenue for employees to provide feedback relating to their assigned area.

INFORMATION TECHNOLOGY AND INFORMATION SECURITY

To mitigate potential security risks associated with the use of TikTok and other product sets, the OIT deployed Cisco Umbrella per guidance from DIS and the Governor's Office. Cisco Umbrella provides DNS and web filtering capabilities, enabling the organization to block access to TikTok and other potentially risky websites and applications. By proactively preventing access to platforms that may pose security concerns, the agency can reduce the potential for data breaches, malware infections, and other security incidents.

OIT placed an emphasis on privacy assessments this year to evaluate the security of stored data. In all, 77 security risk reviews were conducted in 2023, nearly double that of the previous year.

OIT is currently deploying a new patch management solution, KACE, to streamline and automate security patching across the agency’s systems. Maintaining security patch levels and “pushing” updated versions to desktops rapidly when vulnerabilities are identified is an excellent defense to intrusions to the agency's infrastructure.

OIT enabled wi-fi for all patrol vehicles where Cradlepoint devices have been installed. This solution allows officers improved efficiency when working away from but near their vehicle such as at court, large-scale events, or the hospital.

MISCELLANEOUS

The Office of Highway Safety and Justice Programs implemented an open solicitation process, which allows school districts and law enforcement agencies to request a state-funded school resource officer (SRO) for schools that do not have one. This new process allows agencies to access funding outside of the traditional annual process as they are able to staff SRO positions, which allows the placement of SROs in schools more quickly.

During the reporting period, the open solicitation added 34 SRO positions, totaling \$4,177,676. As part of the OHSJP’s annual solicitation, grant awards totaling \$41.7 million were issued to 110 law enforcement agencies for 400 total state-funded SRO positions assigned to every school district in South Carolina.

POSSIBLE NEGATIVE IMPACT IF AGENCY GOALS ARE NOT MET

GOAL 1: ENHANCE PUBLIC/OFFICER SAFETY

The inability of the department to provide a safe environment in which to travel throughout the state could result in increased numbers of traffic collisions and fatalities. These tragic events can lead to emotional pain, lost income, increased insurance rates, and other economic losses. A reduction in officer safety places the officers in greater danger and induces financial inefficiencies through turnover.

GOAL 2: PROFESSIONAL DEVELOPMENT AND WORKFORCE PLANNING

Failing to attract, recruit, and retain a professional workforce may compromise the department’s mission to provide professional services, enforce traffic laws, and save lives. If trainee turnover is not reduced, more state and taxpayer funds would be spent in an attempt to attract, hire, and retain officers. Failure to train the workforce would have a negative effect on work performance and could result in employee turnover and ineffective customer service. In addition, without the means to fund a salary career path that compensates officers for experience beyond five years, knowledge, or skills, SCDPS would struggle to retain experienced officers.

GOAL 3: APPROPRIATE USE OF INFORMATION AND TECHNOLOGY

Inappropriate use of technology could result in poor customer service and higher costs to conduct business. SCDPS relies on computerized information systems to carry out its operations; process, maintain, and report essential information; transmit proprietary and other sensitive information; develop and maintain intellectual capital; conduct operations; process business transactions; transfer funds; and deliver services. In addition, the Internet has grown increasingly important, developing into an extended information and communications infrastructure that supports the agency's service to the public.

Ineffective protection of these information systems and networks can result in a failure to deliver these vital services and result in loss or theft of computer resources and assets; inappropriate access to and

AGENCY CODE:	K050	SECTION:	63

disclosure of sensitive information, such as criminal justice information or personal identifying; disruption of essential operations supporting critical infrastructure and emergency services; undermining of agency missions due to embarrassing incidents that erode the public’s confidence in the agency; use of computer resources for unauthorized purposes or to launch attacks on other systems; damage to networks and equipment; and high costs for remediation.

GOAL 4: QUALITY CUSTOMER SERVICE DELIVERY

If SCDPS fails to adequately educate, inform, or respond to information needs of the public, the public’s awareness of important traffic safety messages would be compromised.

OUTSIDE HELP NECESSARY FOR MITIGATION

The overwhelming majority of possible incidents discussed above could be mitigated with additional funding appropriated to the agency through recurring and core budget funds.

GENERAL ASSEMBLY OPTIONS

Possible options for the General Assembly to consider would be to:

1. Continue to evaluate funding for salary increases to assist with recruitment and retention of law enforcement officers as local agencies become more competitive.
2. Continue to provide the department with recurring funding for body armor for SCDPS law enforcement officers; Highway Patrol Radio Rotation; Less-Lethal weapons; radars; and law enforcement vehicles.
3. Continue to provide the department with additional funding for in-car cameras and associated technology. Also, additional funding to augment the procurement of shared services to expand technology offerings which would improve technological efficiency and reduce long-term costs; continue to provide funding for improvements to aging network infrastructure.

FUTURE ISSUES THAT MAY IMPACT THE AGENCY

- Officer safety continues to be a primary concern of the agency. The ongoing struggle to remain competitive with salaries offered by private sector employers and local law enforcement agencies results in reduced staffing levels, a diminishing pool of qualified applicants, decreased retention, and non-competitive law enforcement salaries;
- Reduced federal grant funding opportunities;
- Budget constraints; and
- Cost of leadership and employee development training.

Agency Mission

Adopted in:

2019

As the largest law enforcement agency in South Carolina, it is the mission of the South Carolina Department of Public Safety to protect and serve the public with the highest standard of conduct and professionalism; to save lives through educating the citizens of South Carolina on highway safety and diligent enforcement of laws governing traffic, and motor vehicles, commercial carriers; to provide protective services for government officials, state government properties, and the general public visiting these properties; and to ensure a safe, secure environment for the citizens of the state of South Carolina and its visitors.

Agency Vision

Adopted in:

2016

The South Carolina Department of Public Safety's (SCDPS) vision is to ensure that it is setting the standard for public safety excellence as a cohesive team by making South Carolina a safer place to live, work, and visit through protection, education, and service. Embedded within SCDPS' efforts and initiatives to serve the public are the agency's core values: Integrity, Excellence, Accountability, and Leadership.

On April 16, 2023, a trooper was shot after initiating a traffic stop for a speeding violation. The violator was driving more than 20 miles per hour above the posted speed limit. During the traffic stop, the violator began shooting at the trooper before driving away from the scene. A second trooper heard the radio call out with the suspect's vehicle description and initiated a pursuit that ended when the suspect crashed his vehicle into a house. The trooper was shot on the right side of his face, sustaining non-life-threatening injuries. The trooper is still out of work as of September 7, 2023.	April	June	Reduce number of traffic fatalities

On August 9, 2022, a trooper responded to a collision involving two motorcyclists striking a car that turned in front of them. Once he arrived on scene, the trooper exited his patrol vehicle and spoke to a City Police Officer in front of his patrol vehicle. As he was speaking with the officer, a vehicle drove around emergency vehicles at a high rate of speed into the oncoming lanes of traffic into the existing collision scene. The vehicle struck several pedestrians, including an EMS Paramedic and a gurney carrying one of the injured motorcyclists from the original collision. The vehicle then struck the City Police Officer and the trooper. The Paramedic and the patient being tended to by EMS from the original collision died as a result. The trooper was transported by EMS to a local Medical Center for injuries to his head, both arms, a dislocated right shoulder, and right knee. The trooper is still out of work as of September 7, 2023.	August	June	Reduce number of traffic fatalities

On September 29, 2022 SCDPS officers were mobilized in preparation for Hurricane Ian to make landfall in South Carolina. Hurricane Ian made landfall in Georgetown County and moved up the coastline until dissipating as an extratropical cyclone on October 1, 2022. By noon on October 1, 2022 it had dissipated. A total of 773 SCDPS personnel were deployed for three operational periods to support statewide response to Hurricane Ian. The potential statewide impact invoked response assets across all Troops to support the response operation. Officers were demobilized October 1, 2022. South Carolina citizens and visitors	0100.000000.000	This goal is to respond within ONE hour to any security alerts from DOA. OIT agrees that the goal should be set high as this is a critical response to ensure cyber security. However, on one day, they received 4 security alerts in a short period of time, and missed the one hour response requirement. With limited OIT staff monitoring these alerts 7x24 (2 FTEs) this is a difficult response time to meet. OIT worked with DIS to request that they also send text messages to staff to provide more visibility and we added a staff member to the team.
3.2.3	Identify whether the affected device referenced in the Tier 3 SOC notification accesses sensitive data and respond in a timely manner (measured by percentage of notification response)	0%	0%	0%	Percent	Equal to or less than	State Fiscal Year	(Number of applicable Tier 3 SOC notifications that were responded to within 24 hours of receipt divided by total number of applicable Tier 3 SOC notifications received) X 100	Email date/time stamp of Tier 3 SOC notification from SC-ISAC. Facebook, Twitter, and Instagram statistics	Office of Public Affairs	Educates drivers to promote safe driving habits and ultimately increase safety of drivers on South Carolina roadways	South Carolina citizens, individuals using South Carolina roadways, and their families.	0100.000000.000, 1001.100000.000	Our increase in total followers for FY23 was 8.98%. We were just 1,598 followers shy across all agency social media platforms of reaching our goal of a 10% increase. It's important to note that follower counts fluctuate over time and after recent changes at Twitter, many of our profiles saw a loss of followers, despite our consistency in posting regular content. It is also important to note that for the last half of FY23 (Jan 1 - Jul 31, 2023), we recorded a stark increase in our overall reach/impressions for our social media posts: Facebook (20% increase), Instagram (118% increase) and twitter (82% increase) versus the last half of FY22(Jan 1 - Jul 31, 2022).
4.2.2	Increase number of visits to the SCDPS web page to disseminate important traffic and safety information (measured by number of page views)	1,684,080	1,768,284	1,822,067 (See note)	Count	equal to or greater than	State Fiscal Year	Report from Google Analytics web site	Google Analytics	Office of Public Affairs	Educates drivers to promote safe driving habits and ultimately increase safety of drivers on South Carolina roadways	South Carolina citizens, individuals using South Carolina roadways, and their families.	0100.000000.000, 1001.100000.000	Despite retiring the real-time traffic webpage in early 2023, we were still able to hit our target goal of page views. However, we will continue to monitor any decreases over time.
4.2.3	Respond to information needs of the public via Freedom of Information Act requests (measured by number of requests fulfilled)	8,052	8,454	9,032	Count	equal to or greater than	State Fiscal Year	Count of FOIA requests received during fiscal year	Internal reporting	South Carolina Highway Patrol - Community Relations and Recruiting Unit	Allows for transparency and accountability in regard to SCDPS operations. The Office manages the information technology infrastructure, systems, data, applications, services, projects, and IT planning, license, maintenance and service agreement specifications for SCDPS in approximately 67 continuously and intermittently operating offices state-wide.	Internal- SCDPS Employees	SCDPS Employees		Office of Information Technology	This division is made up of approximately 31 staff members. These staff members support the IT needs of nearly 1,400 users across the entire State of South Carolina in 67 supported locations. The Office operates a Help Desk (8:00am-5:00 pm), a field service team with technicians located at each Troop HQ, provides 7x24 on-call support via rotation, a network and infrastructure architecture and support, a database and software support, GIS (geographic mapping) and dashboards, access control services, audio-visual support, and includes the ISO and the Information Security and Risk Management team. OIT's organization added responsibilities and programs for cyber security and data privacy. The team manages all sanitization services for media disposal working with State Surplus. Additionally, OIT migrated to shared services at DOA/DTO retiring the local Blythewood Data Center. The Agency is now migrating to an automated work flow and data repository solution from DOA/DTO (OnBase) for internal management of assets and human resources processing. New technologies were implemented for map based data driven enforcement, dashboards for monitoring incidents, accidents, locations, fatalities, etc. New technologies are being implemented for security vulnerability and patch management for end point devices.	Agency operations are dependent upon electronic systems for operations including citations, collisions, fatality information, records, human resources, financials, public online payments for State Transport commercial citations, external facing information of live traffic data mapping, emergency response technologies and systems, MAIT accident investigation, asset management, FOIA, evidence management, fleet management, warehouse management, body camera and in-car technologies for video collection, and data transfers to Courts, DMV and DOT. Educate the public on highway safety issues through presentations, fairs, materials and media campaigns in order to enhance public safety in South Carolina. Provide important information to the public concerning services provided by the agency.	All demographics of drivers using South Carolina roadways	South Carolina roadway users		Office of Public Affairs and SC Highway Patrol	This division is primarily responsible for disseminating information, in support of the agency's mission, to the public through the news media, digital media, social media, agency Community Relations Officers and FOIA.	Highway safety education works hand-in-hand with enforcement in impacting negative driving behaviors. If there was no public information regarding highway fatalities, dangerous driving behaviors, and changes in traffic safety laws, the negative impact could be a rise in collisions and fatalities on our roadways.	No Change	
Process all public records requests in accordance with the state's Freedom of Information Act. Request and produce agency documents and invoice for allowable charges.	Legal entities requesting information from the department in accordance with the Freedom of Information Act (FOIA)	Legal Entities		South Carolina Highway Patrol	This division is primarily responsible for disseminating information, in support of the agency's mission, to the public through the news media, digital media, social media, agency Community Relations Officers and FOIA.	The Department is required by State law to comply with requests under FOIA. However, failure to produce records could result in requestors not receiving factual information.	No Change

General information, activities and awards are disseminated internally to SCDPS employees.	All SCDPS Employees	SCDPS Employees		Office of Public Affairs	This division is primarily responsible for disseminating information, in support of the agency's mission, to the public through social media, press releases, website updates, engaging with the news media, and digital media. OPA partners with each division's (SCHP, STP, BPS) Community Relations Officers to leverage their platform following and cross-share information that aims to save lives, deter bad behavior and share good news from the agency.	Employees are the backbone of the organization. It is important to ensure they are well-informed about policies, procedures and goals for the future of the organization and properly recognized for outstanding performance. If employees are not kept informed or rewarded for going the extra mile, there could be a negative impact on morale and motivation toward meeting department goals.	No Change	
Provide highway safety presentations and materials to schools in an effort to reduce traffic deaths involving youth.	School-aged drivers around the entire state	Young drivers		South Carolina Highway Patrol	This division is primarily responsible for disseminating information, in support of the agency's mission, to the public through the news media, digital media, social media, agency Community Relations Officers and FOIA.	The knowledge Troopers provide young drivers about driving responsibilities, and the encouragement they receive about making good decision would not be received. In turn, the state may observe a higher number of teens involved in serious collisions.	No Change	
Benefits, Classification and Compensation, Payroll, Employment, Recruitment and Employee Relations	All SCDPS Employees	SCDPS Employees	SCDPS Employee dependents, SCDPS Applicants, other State Agencies, other entities seeking employment verifications.	Human Resources	This division provides human resources services to agency.	The employment area provides qualified applicants to all departments and divisions within the agency. Meeting staffing needs impacts all employees and supervisors, and is crucial to our day-to-day operations as well as meeting the mission of the agency. We provide assistance to hiring managers and law enforcement recruitment personnel who depend upon our expertise to successfully hire and onboard their new employees. We also provide employment verifications and answer questions about the employment and promotion process for employees who are seeking other opportunities within and outside of the agency. SCDPS Benefits services impact the family members of our employees, as dependents on their PEBA insurance coverage, and beneficiaries of their life insurance policies and retirement accounts. Family members would be negatively impacted if benefits services were not provided, as they would then not have access to health, dental, vision, life, and flexible spending account coverage as dependents. Lastly, if we do not complete our job successfully, our employees pay and other benefits could be negatively impacted. Additionally, other agencies could be negatively impacted if payroll, disciplinary actions, reporting requirements, benefits and leave cases are not managed appropriately. Some examples include, PEBA, State Accident Fund, Division of State Human Resources, Comptroller General's Office, State Treasurer's Office and receiving agencies for employee transfers. Private entities may also suffer if information requests and employment verifications are not completed in a timely manner.	No Change
