Fiscal Impact Summary

This bill’s expected impact on local property tax revenue is undetermined, due to the insufficient data on the potential increase of instrumentalities receiving the exemption and the property value of each instrumentality impacted as a result of the bill. However, we expect only a few new exemptions, and thereby, a minimal impact on total property tax revenue.

This bill expands the property tax exemption under S.C. Code Section 12-37-220(B)(11)(e) to include any nonprofit corporation’s instrumentality devoted to providing housing to low or very low income residents and defines such instrumentalities to include partnerships, LLCs, and other corporations of which the nonprofit housing corporation is a partner, member, or shareholder. Currently, the section exempts nonprofit housing corporations and solely owned

instrumentalities of these corporations which are devoted to providing housing to low or very low income residents from local property taxes.

This bill is expected to impact local property tax revenue. There are currently 1,251 exemptions granted under S.C. Code Section 12-37-220(B)(11)(e) by the Department of Revenue but data regarding the value of these exemptions is unavailable. We anticipate that allowing any nonprofit corporation instrumentality devoted to providing housing to low and very low income residents, rather than just those that are solely owned, will add exemptions under this code section. Information is not available to estimate the exact number of potential new exemptions, but we anticipate that it is rare that an instrumentality would meet the definition under the bill, but not under current law, resulting in only a few new exemptions. Additionally, data is unavailable to estimate how much of a loss each additional exemption would cause to the local property tax revenue as the amount of property owned by each instrumentality may vary greatly. Due to the limited information available and the difficulty of determining both the prevalence of this situation occurring and the impact such an occurrence would have, the impact to the local property tax statewide is undetermined. However, as we expect the bill will create only a few new exemptions, the impact is likely to be minimal.
