Explanation of Fiscal Impact

**Updated for Additional Agency Response
 Introduced on January 10, 2018**

State Expenditure

This bill makes it unlawful for an individual to sell or otherwise provide an energy drink to a person under the age of eighteen years. Energy drinks are defined as soft drinks that have at least eighty milligrams of caffeine per nine fluid ounces and contain methylxanthines, B vitamins, or herbal ingredients. A person who is convicted of knowingly violating this law is guilty of a misdemeanor and must pay a \$50 penalty for each violation. A violation of this provision does not constitute a violation of an establishment's beer and wine permit and therefore is not grounds for revocation or suspension of such permit.

Judicial Department. This bill creates a new misdemeanor offense for knowingly providing an energy drink to a minor, the penalty for which is \$50 per violation. As these are new offenses, there is no existing data to estimate the number of hearings or trials that may be initiated in general sessions court as a result of the bill. Should there be an increased caseload in general sessions due to the bill, the department anticipates that any General Fund expenditure impact will be absorbed within existing resources.

Commission on Indigent Defense. The commission reports that the implementation of this bill will result in no expenditure impact on the General Fund, Other Funds, or Federal Funds.

Commission on Prosecution Coordination. The commission reports that the implementation of this bill will result in no expenditure impact on the General Fund, Other Funds, or Federal Funds.
