**Explanation of Fiscal Impact**

**Amended by Senate Judiciary on February 21, 2017**

**State Expenditure**

This amendment requires a person licensed or permitted to sell alcoholic beverages for on-premises consumption to maintain either a liquor liability insurance policy or a general liability insurance policy with a liquor liability endorsement with coverage of at least one million dollars during the period of the biennial permit or license.

**Department of Revenue.** The department indicates this amended bill will have an expenditure impact of \$50,000 on the General Fund for the Department of Revenue to hire one FTE to monitor and maintain the required documentation. The department will have to track information and provide notification to the licensees in order to keep the applicants current. This bill will have no expenditure impact on Other Funds or Federal Funds.

**State Revenue**

This amended bill requires persons licensed or permitted to sell alcoholic beverages for on-premises consumption to maintain a liquor license insurance policy or a general liability insurance policy with a liquor liability endorsement with coverage of at least \$1,000,000 during the biennial license period. This requirement may result in an increase in General Fund insurance premium tax revenue. The tax equals 1.25 percent of the total premiums written. The amount of the revenue impact will depend upon how many persons do not currently maintain \$1,000,000 of liquor liability coverage or general liability with a liquor liability endorsement and must increase or purchase liability insurance in accordance with this provision.
