

PART IB

OPERATION OF STATE GOVERNMENT

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

1.1. (SDE: Appropriation Transfer Prohibition) The amounts appropriated herein for aid to subdivisions, allocations to school districts, or special line items shall not be transferred and must be expended in accordance with the intent of the appropriation, except that the department may transfer funds that are deducted and retained from a school district's transportation allocation to reimburse the department for the cost of unauthorized mileage. This transfer must be agreed upon by both the school district and the department. Those funds may be transferred into the department's school bus transportation operating account.

1.2. (SDE: DHEC - Comprehensive Health Assessment) All school districts shall participate, to the fullest extent possible, in the Medicaid program by seeking appropriate reimbursement for services and administration of health and social services. Reimbursements to the school districts shall not be used to supplant funds currently being spent on health and social services.

1.3. (SDE: ~~EFA Formula/Base Student Cost Inflation Factor~~ *State Aid to Classrooms*) To the extent possible within available funds, it is the intent of the General Assembly to provide for one hundred percent of full implementation of the Education Finance Act to ~~include an inflation factor projected by the Revenue and Fiscal Affairs Office to match inflation wages of public school employees in the Southeast via an allocation from the State Aid to Classrooms appropriation.~~ *The base student cost for the current fiscal year has been determined to be \$2,485. The funds appropriated for State Aid to Classrooms shall be allocated as follows: 65.41 percent must be allocated based on the Education Finance Act formula and the differentiated student weightings in this Act; 28.88 percent must be allocated based on the manner of distribution of EFA employer contributions in the prior fiscal year; and 5.72 percent must be allocated to fully implement the State Minimum Teacher Salary Schedule with a minimum starting teacher salary of \$35,000.* For the current fiscal year, the total pupil count is projected to be ~~727,513~~ *720,316*. *These funds represent an average per pupil of \$3,846 in State Aid to Classrooms.* The average per pupil funding is projected to be ~~\$6,198~~ *\$6,506* state, ~~\$1,281~~ *\$1,315* federal, and ~~\$5,982~~ *\$6,406* local. This is an average total funding level of ~~\$13,461~~ *\$14,227* excluding revenues of local bond issues. *It is the intent of the General Assembly that the consolidation of the Education Finance Act and Education Finance Act - Employer Contributions appropriations, and the subsequent allocation of the State Aid to Classrooms appropriation back to these categories, should not significantly alter the application of funding formulas or maintenance of effort requirements referencing the Education Finance Act and Education Finance Act - Employer Contributions.*

*The funds allocated from State Aid to Classrooms for implementing the revised State Minimum Teacher Salary Schedule shall be distributed to school districts using the EIA Teacher Salary Supplement methodology. The resulting estimated teacher salary schedule is as follows:*

13 As further used in this act, references to the Education Finance Act or EFA funds shall be interpreted to mean the 65.41 percent  
 14 of funds appropriated for State Aid to Classrooms and allocated for the Education Finance Act and, where appropriate, the 28.88  
 15 percent of State Aid to Classrooms allocated for Education Finance Act Employer Contributions.

16 For the purpose of maintaining consistency when calculating maintenance of effort, references to the base student cost shall be  
 17 interpreted as the base student cost resulting from the 65.41 percent of funds appropriated for State Aid to Classrooms and allocated  
 18 for the Education Finance Act and, where appropriate, the 28.88 percent of State Aid to Classrooms allocated for Education Finance  
 19 Act Employer Contributions, and other any other items normally included in the base student cost calculation.

20 For the current fiscal year the South Carolina Public Charter School District and any institution of higher education sponsoring a  
 21 public charter school shall receive and distribute state EFA funds to the charter school as determined by one hundred percent of the  
 22 current year's base student cost, as funded by the General Assembly multiplied by the weighted pupils enrolled in the charter school,  
 23 which must be subject to adjustment for student attendance.

24 The Revenue and Fiscal Affairs Office, must post in a prominent place on their website for each school district projections,  
 25 including the per pupil state, federal and local revenues, excluding revenues of local bond issues, for the current fiscal year. Also,  
 26 as soon as practicable, upon determining the exact numbers regarding pupil count and funding, the Revenue and Fiscal Affairs Office,  
 27 shall also post on their website the one hundred thirty-five day average daily membership for each school district and per pupil state,  
 28 federal and local revenues, excluding revenues of local bond issues, based on the most recent audited financial statement as reported  
 29 annually pursuant to Section 59-17-100. The Department of Education and the Education Oversight Committee shall provide in a  
 30 prominent place on their internet websites a link to the information posted by the Revenue and Fiscal Affairs Office, including the  
 31 projected numbers and the exact numbers.

32 For the current fiscal year, the pupil classification weightings are as follows:

33 (1) K-12 pupils or base students including homebound students 1.00

34 Students served in licensed residential treatment facilities (RTFs) for children and adolescents as defined under Section  
 35 44-7-130 of the 1976 Code shall receive a weighting of 2.10.

1	(2) Weights for students with disabilities as prescribed in Section 59-20-40(1)(c) Special Programs	
2	(3) Precareer and Career Technology	1.29
3	(4) Additional weights for personalized instruction:	
4	(A) Gifted and Talented	0.15
5	(B) Academic Assistance	0.15
6	(C) Limited English Proficiency	0.20
7	(D) Pupils in Poverty	0.20
8	(E) Dual Credit Enrollment	0.15

9 No local match is required for the additional weightings for personalized instruction in the current school year. Charter school per  
 10 pupil calculations for locally sponsored charters will continue to be calculated according to Section 59-40-140 of the 1976 Code.  
 11 Students may receive multiple weights for personalized instruction; however, within each weight, students should only be counted  
 12 once. These weights are defined below:

13 Students in poverty are students who qualify for Medicaid, SNAP, TANF, or are homeless, transient, or in foster care.

14 Gifted and talented students are students who are classified as academically or artistically gifted and talented or who are enrolled in  
 15 Advanced Placement (AP), ~~and~~ International Baccalaureate (IB), *and Cambridge International* courses in high school. Districts  
 16 shall set-aside twelve percent of the funds for serving artistically gifted and talented students in grades three through twelve.

17 Students in need of academic assistance are students who do not meet state standards in mathematics, English language arts, or  
 18 both on state approved assessments in grades three through eight and high school assessments for grades nine through twelve. The  
 19 additional weight generates funds needed to provide additional instructional services to these students.

20 Students with limited English proficiency are students who require intensive English language instruction programs and whose  
 21 families require specialized parental involvement intervention.

22 Funds received by a school district pursuant to the dual credit weighting must be used to defray all possible costs of dual credit  
 23 courses for students. Students identified for dual credit enrollment must be identified in PowerSchool as taking a course that will  
 24 lead to both high school credit and post-secondary credit. Districts must utilize these funds to offset the cost of tuition, fees,  
 25 instructors, and instructional materials for qualifying courses with the local technical college or other institution of higher education.  
 26 Each school district shall report to the department the number of students participating in dual credit courses and specify the cost  
 27 borne by each entity. School districts must assist students in accessing Lottery Tuition Assistance when applicable.

28 Further, the Department of Education may use school district student counts for personalized instruction as collected in the same  
 29 manner as the prior fiscal year, PowerSchool or other available existing data sources as determined by the department to calculate  
 30 the school district add on weightings for the personalized instruction classifications and the determination of the school districts  
 31 monetary entitlement. End of year adjustments shall be based on the one hundred thirty-five day student average daily membership  
 32 for all classifications. During the current fiscal year the department will update PowerSchool calculations, reports, screen  
 33 development, documentation, and training to incorporate the new pupil classification weightings and to make final district allocation  
 34 adjustments by June 30. The department must provide districts with technical assistance with regard to student count changes in  
 35 PowerSchool.

1       **1.4.** (SDE: EFA - Formula) The amount appropriated in Part IA, Section 1 for “Education Finance Act” shall be the maximum  
2 paid under the provisions of Act 163 of 1977 (the South Carolina Education Finance Act of 1977) to the aggregate of all recipients.  
3 The South Carolina Education Department shall develop formulas to determine the state and required local funding as stipulated in  
4 the South Carolina Education Finance Act of 1977. Such formulas shall require the approval of the State Board of Education and  
5 the State Fiscal Accountability Authority. After computing the EFA allocations for all districts, the department shall determine  
6 whether any districts’ minimum required local revenue exceeds the districts’ total EFA Foundation Program. When such instance is  
7 found, the department shall adjust the index of taxpaying ability to reflect a local effort equal to the cost of the districts’ EFA  
8 Foundation Program. The districts’ weighted pupil units are to be included in determination of the funds needed for implementation  
9 of the Education Finance Act statewide.

10       In the event that the formulas as devised by the Department of Education and approved by the State Board of Education and the  
11 State Fiscal Accountability Authority should provide for distribution to the various school districts totaling more than the amount  
12 appropriated for such purposes, subject to the provisions of this proviso, the Department of Education shall reduce each school district  
13 entitlement by an equal amount per weighted pupil so as to bring the total disbursements into conformity with the total funds  
14 appropriated for this purpose. If a reduction is required in the state’s contribution, the required local funding shall be reduced by the  
15 proportionate share of local funds per weighted pupil unit. The Department of Education shall continually monitor the distribution  
16 of funds under the provisions of the Education Finance Act and shall make periodic adjustments to disbursements to ensure the  
17 aggregate of such disbursements do not exceed the appropriated funds.

18       Local districts shall not be mandated or required to inflate the base number in their respective salary schedules by any percentage  
19 greater than the percentage by which the appropriated base student cost exceeds the appropriated base student cost of the prior fiscal  
20 year.

21       **1.5.** (SDE: Employer Contributions/Allocations) It is the intent of the General Assembly that the appropriation contained herein  
22 for “Public School Employee Benefits” shall not be utilized to provide employer contributions for any portion of a school district  
23 employee’s salary that is federally funded.

24       State funds allocated for school district employer contributions must be allocated by the formula and must be used first by each  
25 district to cover the cost of fringe benefits for personnel required by the Defined Program, food service personnel and other personnel  
26 required by law. Once a district has expended all state allocated funds for fringe benefits, the district may utilize food service  
27 revenues to fund a proportionate share of fringe benefits costs for food service personnel.

28       The Department of Juvenile Justice and the Department of Corrections’ school districts must be allocated funds under the fringe  
29 benefits program in accordance with criteria established for all school districts.

30       **1.6.** (SDE: Employer Contributions/Obligations) In order to finalize each school district’s allocations of Employer Contributions  
31 funds for retiree insurance from the prior fiscal year, the Department of Education is authorized to adjust a school district’s allocation  
32 in the current fiscal year accordingly to reflect actual payroll and payments to the Retirement System from the prior fiscal year. In  
33 the event the Department of Education is notified that an educational subdivision has failed to remit proper payments to cover  
34 Employee Fringe Benefit obligations, the Department of Education is directed to withhold the educational subdivision’s state funds  
35 until such obligations are met.

1 1.7. (SDE: Governor's School for Science & Math) Any unexpended balance on June thirtieth of the prior fiscal year of funds  
2 appropriated to or generated by the Governor's School for Science and Mathematics may be carried forward and expended in the  
3 current fiscal year pursuant to the direction of the board of trustees of the school.

4 1.8. (SDE: Educational Responsibility/Foster Care) The responsibility for providing a free and appropriate public education  
5 program for all children including disabled students is vested in the public school district wherein a child of lawful school age resides  
6 in a foster home, group home, orphanage, or a state operated health care facility including a facility for treatment of mental illness  
7 or chemical dependence and habilitation centers for persons with intellectual disabilities or persons with related conditions located  
8 within the jurisdiction of the school district or alternative residences. The districts concerned may agree upon acceptable local cost  
9 reimbursement. If no agreement is reached, districts providing education shall receive from the district where the child last resided  
10 before placement in a facility an additional amount equivalent to the statewide average of the local base student cost multiplied by  
11 the appropriate pupil weighting as set forth in Section 59-20-40 of the Education Finance Act. If a child from out of state is residing  
12 in a facility owned and/or operated by a for profit entity, the district providing educational services shall be reimbursed by the for  
13 profit entity the local district's local support per weighted pupil above the statewide average base student cost multiplied by the  
14 appropriate pupil weighting as set forth in Section 59-20-40 of the Education Finance Act. This also applies to John de la Howe  
15 School who also has the authority to seek reimbursement in any situation that the school district has participation in the placement  
16 of the student. John de la Howe School shall be reimbursed the local district's local support per weighted pupil above the statewide  
17 average base student cost multiplied by the appropriate pupil weighting as set forth in Section 59-20-40 of the Education Finance  
18 Act. Participation will be evidenced by a written agreement from the IEP team or 504 team, written referral, or the school district  
19 initiating the placement process. School districts providing the education shall notify the nonresident district in writing within  
20 forty-five calendar days that a student from the nonresident district is receiving education services pursuant to the provisions of the  
21 proviso. The notice shall also contain the student's name, date of birth, and disabling condition if available. If appropriate financial  
22 arrangements cannot be effected between institutions of the state, including independent school districts under the authority of the  
23 Department of Disabilities and Special Needs, and school districts, institutions receiving educational appropriations shall pay the  
24 local base student cost multiplied by the appropriate pupil weighting. Children residing in institutions of state agencies shall be  
25 educated with nondisabled children in the public school districts if appropriate to their educational needs. Such institutions shall  
26 determine, on an individual basis, which children residing in the institution might be eligible to receive appropriate educational  
27 services in a public school setting. Once these children are identified, the institution shall convene an IEP meeting with officials of  
28 the public school district in which the institution is located. If it is determined by the committee that the least restrictive environment  
29 in which to implement the child's IEP is a public school setting, then the school district in which the institution is located must  
30 provide the educational services. However, that school district may enter into contractual agreements with any other school district  
31 having schools located within a forty-five mile radius of the institution. The cost for educating such children shall be allocated in  
32 the following manner: the school district where the child last resided before being placed in an institution shall pay to the school  
33 district providing the educational services an amount equivalent to the statewide average of the local base student cost multiplied by  
34 the appropriate pupil weighting as set forth in Section 59-20-40 of the Education Finance Act; the school district providing the  
35 educational services shall be able to count the child for all funding sources, both state and federal. The institution and school district,  
36 through contractual agreements, will address the special education and related services to be provided to students. Should the school

1 district wherein the institution is located determine that the child cannot be appropriately served in a public school setting, then the  
2 institution may request a due process hearing pursuant to the procedures provided for in the Individuals with Disabilities Education  
3 Act.

4 The agreed upon acceptable local cost reimbursement or the additional amount equivalent to the statewide average of the local  
5 base student cost multiplied by the appropriate pupil weighting set forth in Section 59-20-40, for instructional services provided to  
6 out-of-district students, shall be paid within sixty days of billing, provided the billing district has provided a copy of the invoice to  
7 both the Superintendent and the finance office of the district being invoiced. Should the district not pay within sixty days, the billing  
8 district can seek relief from the Department of Education. The department shall withhold EFA funding equal to the billing from the  
9 district refusing to pay and submit the funding (equal to the invoice) to the billing school district.

10 The agency placing a child in any situation that requires changing school districts, must work with the schools to assure that all  
11 required school records, including confidential records, are transferred from the sending to the receiving school within three working  
12 days. School records to be transferred should include grade transcripts, state birth certificate, certificate of immunization, social  
13 security card, attendance records, discipline records, IEP's, psychological reports (or notation in the school records that a  
14 psychological report on the child is available at the school district office) and any other records necessary for the appropriate  
15 placement of the child in the new school. School districts must release all records upon presentation of a court order or appropriate  
16 permission for confidential release. If evaluation or placement is pending, the receiving school district is responsible to secure  
17 information and to complete the placement. The receiving school will maintain appropriate confidentiality of all records received  
18 on a child. Upon discharge or release from the treatment facility, the agency placing the child in the receiving school must work  
19 with the school district where the student will reside after treatment to assure continuity of the student's education.

20 **1.9.** (SDE: Instruction in Juvenile Detention Centers) It shall be the responsibility of the school district where a local juvenile  
21 detention center is located to provide adequate teaching staff and to ensure compliance with the educational requirements of this  
22 State. Students housed in local juvenile detention centers are to be included in the average daily membership count of students for  
23 that district and reimbursement by the Department of Education made accordingly.

24 **1.10.** (SDE: Revenue Authorization) The State Department of Education is hereby authorized to collect, expend, and carry  
25 forward revenues in the following areas to offset the cost of providing such services: the sale of publications, manuals and forms,  
26 the sale of Apple Tags, royalties, contributions, donations, foundation funds, special grants and contracts, brochures, photo copies,  
27 listings and labels, Directory of South Carolina Schools, student health record cards, items to be recycled, and high school diplomas  
28 and certificates; the collection of out-of-state and in-state investigation fees, registration fees for non-SDE employees, recurring  
29 facility inspection fees, teacher certification fees; the handling of audio-visual film; the provision of contract computer services to  
30 school districts and other state agencies, joint broadcast service to school districts, and education-related statistics through agreement  
31 with the National Center for Education Statistics; the lease or sale of programs of television, audio or microcomputer software; the  
32 lease or sale of virtual courses to other states; the collection of damage fees for instructional materials and the sale of unusable  
33 instructional materials; sale of fuel; use and repair of transportation equipment; fees for Medicaid reimbursable transportation; the  
34 receipt of insurance and warranty payments on Department of Education equipment and the sale of used school buses and support  
35 equipment. The Department of Education is authorized to collect revenue for deposit into the State General Fund for testing material  
36 purchases and test rescoring fees. The Department of Education is authorized to expend revenue collected for lost and damaged

1 instructional materials and the sale of unusable instructional materials for the purpose of contracting for the purchase and maintenance  
2 of a statewide textbook inventory management system, provided that schools' newly-adopted instructional materials needs are met  
3 first.

4 **1.11.** (SDE: School District Bank Accounts) Each school district in this State, upon the approval of the district's governing  
5 body, may maintain its own bank account for the purpose of making disbursement of school district funds as necessary to conduct  
6 school district business and each county treasurer is hereby authorized to transfer such amount as needed, upon receipt of a written  
7 order certified by the district governing body or their designee. Such order shall contain a statement that such amount is for immediate  
8 disbursement for the payment of correct and legal obligation of the school district.

9 **1.12.** (SDE: Travel/Outside of Continental U.S.) School District allocations from General Funds, lottery, and EIA funds shall  
10 not be used for travel outside of the continental United States. The International Baccalaureate Program shall be exempt from this  
11 restriction.

12 **1.13.** (SDE: Year End Closeout) The State Department of Education is authorized to expend federal and earmarked funds (not  
13 including state or EIA funds) in the current fiscal year for expenditures incurred in the prior year; however, state funds appropriated  
14 in Part IA, Section 1, X, Aid to School Districts, for the Children's Case Resolution System or private placements for services  
15 provided to children with disabilities may be used for those expenditures in prior fiscal years. The department is also authorized to  
16 use appropriated funds to pay for textbooks shipped in the fourth quarter of the prior fiscal year.

17 **1.14.** (SDE: Transportation Collaboration) The Department of Education School Bus Maintenance Shops shall be permitted, on

5 districts based on weighted pupil units.

7 from whatever source, for whatever purpose. The register must be prominently posted on the district's internet website and made  
8 available for public viewing and downloading. The register must include for each expenditure:

12 The register must not include an entry for salary, wages, or other compensation paid to individual employees. The register must  
13 not include any information that can be used to identify an individual employee. The register must be accompanied by a complete  
14 explanation of any codes or acronyms used to identify a payee or an expenditure. The register must be searchable and updated at  
15 least once a month.

22 between the school districts and search for the information they are seeking.

23 The provisions contained herein do not amend, suspend, supersede, replace, revoke, restrict, or otherwise affect Chapter 4, Title  
24 30, of the South Carolina Freedom of Information Act. Nothing in this proviso shall be interpreted as prohibiting the State Board of  
25 Education to exercise its authority to grant waivers under Regulation 43-261.

30 of the required Hazmat endorsement to their CDL.

31 **1.27.** (SDE: Budget Reduction) In compensating for any reduction in funding or an operating deficit publically recognized by  
32 the School Board of Trustees, local districts must give priority to preserving classroom teachers and operations. Funding reductions  
33 should first be applied to administrative and non-classroom expenses before classroom expenses are affected.

34 **1.28.** (SDE: Governor's School for the Arts and Humanities Carry Forward) Any unexpended balance on June thirtieth of the  
35 prior fiscal year of funds appropriated to or generated by the Governor's School for the Arts and Humanities may be carried forward  
36 and expended in the current fiscal year pursuant to the discretion of the Board of Trustees of the School.

1       **1.29.** (SDE: Governor’s Schools’ Fees) The South Carolina Governor’s School for the Arts and Humanities and the South  
2 Carolina Governor’s School for Science and Mathematics are authorized to charge, collect, expend, and carry forward student fees  
3 as approved by their respective Board of Directors. The purpose and amount of any such fees will be to maintain program quality in  
4 both academics and residential support. No student will be denied admittance or participation due to financial inability to pay. The  
5 respective Board of Directors shall promulgate administrative policy governing the collection of all student fees. Both schools shall  
6 conspicuously publish a fee schedule on their respective websites.

7       **1.30.** (SDE: School District Furlough) Should there be a midyear reduction in state funding to the districts, school districts may  
8 institute employee furlough programs for district-level and school-level professional staff. Before any of these employees may be  
9 furloughed, the chairman of the governing body of the school district must certify that all fund flexibility provided by the General  
10 Assembly has been utilized by the district and that the furlough is necessary to avoid a year-end deficit and a reduction in force. The  
11 certification must include a detailed report by the superintendent of the specific action taken by the district to avoid a year-end deficit.  
12 The certification and report must be in writing and delivered to the State Superintendent of Education and a copy must be forwarded  
13 to the Chairman of the Senate Finance Committee and the Chairman of the House Ways and Means Committee.

14       The local school district board of trustees may implement a furlough of personnel once certification to the State Superintendent  
15 documents all funding flexibility has been exhausted and continued year-end deficits exist. Local school boards of trustees shall  
16 have the authority to authorize furloughs of these employees in the manner in which it sees fit. However, instructional personnel  
17 may be furloughed for up to five non-instructional days if not prohibited by an applicable employment contract with the district and  
18 provided district administrators are furloughed for twice the number of days. District administrators may only be furloughed on  
19 non-instructional days and may not be furloughed for a period exceeding ten days. District administrators shall be defined by the  
20 Department of Education using the Professional Certified Staff (PCS) System. For individuals not coded in PCS, the determination  
21 shall be made based upon whether the individual performs the functions outlined in position codes identified by the department as  
22 administration. Educators who would have received a year’s experience credit had a furlough not been implemented, shall not have  
23 their experience credit negatively impacted because of a furlough implementation.

24       During any furlough, affected employees shall be entitled to participate in the same benefits as otherwise available to them except  
25 for receiving their salaries. As to those benefits that require employer and employee contributions, including, but not limited to,  
26 contributions to the South Carolina Retirement System or the optional retirement program, the district will be responsible for making  
27 both employer and employee contributions if coverage would otherwise be interrupted; and as to those benefits which require only  
28 employee contributions, the employee remains solely responsible for making those contributions. Placement of an employee on  
29 furlough under this provision does not constitute a grievance or appeal under any employee grievance procedure. The district may  
30 allocate the employee’s reduction in pay over the balance of the fiscal year for payroll purposes regardless of the pay period within  
31 which the furlough occurs.

32       Each local school district must prominently post on the district’s internet website and make available for public viewing and  
33 downloading the most recent version of the school district’s policy manual and administrative rule manual.

34       This proviso shall not abrogate the terms of any contract between any school district and its employees.

35       **1.31.** (SDE: School Lunch/Attendance Supervisors) For those counties in which an entity other than the school district  
36 administers the school lunch supervisor and/or attendance supervisor programs, the school districts in that county shall transfer to

1 the entity the amount available in the previous fiscal year for administration of the school lunch supervisor and/or attendance  
2 supervisor programs. Each district shall transfer a pro rata share of the total cost based upon the percentage of state EFA funds  
3 distributed to the districts within the county.

4 **1.32.** (SDE: SCGSAH Certified Teacher Designation) Because of the unique nature of the South Carolina Governor's School  
5 for the Arts and Humanities, the Charleston School of the Arts, and the Greenville County Fine Arts Center, the schools are authorized  
6 to employ at its discretion noncertified classroom teachers teaching in the literary, visual and performing arts subject areas who are  
7 otherwise considered to be appropriately qualified in a ratio of up to one hundred percent of the entire teacher staff.

8 **1.33.** (SDE: No Discrimination Requirement) State funds must not be appropriated to a school that discriminates against or  
9 participates with or is a member of an association with policies that discriminate or afford different treatment of students based on  
10 race or national origin.

11 **1.34.** (SDE: Medicaid Cash Match Accounting) The department is granted authority to transfer funds between budget lines and  
12 object codes to identify, reconcile, reimburse, and remit funds required for Medicaid cash match to the Department of Health and

16 **1.36.** (SDE: Lost & Damaged Instructional Materials Fees) Fees for lost and damaged instructional materials for the prior school  
17 year are due no later than December first of the current school year when invoiced by the Department of Education. The department  
18 may withhold instructional materials funding from schools that have not paid their fees by the payment deadline.

19 **1.37.** (SDE: Education Finance Act Reserve Fund) There is created in the State Treasury a fund separate and distinct from the  
20 General Fund of the State and all other funds entitled the Education Finance Act Reserve Fund. All unexpended general funds  
21 appropriated to the Department of Education for the Education Finance Act in the current fiscal year shall be transferred to the  
22 Education Finance Act Reserve Fund. In the event that the amount appropriated for the Education Finance Act is insufficient to fully  
23 fund the base student cost as established by this act, revenues from the Education Finance Act Reserve Fund may be used to  
24 supplement the funds appropriated. By June 30<sup>th</sup> of the current fiscal year, if the department determines that the funds are not needed  
25 to supplement the Education Finance Act, the department may utilize the funds for bus purchase. The General Assembly may make  
26 direct appropriations to this fund. All unexpended funds in the Education Finance Act Reserve Fund and any interest accrued by the  
27 fund must remain in the fund and may be carried forward into the current fiscal year.

28 **1.38.** (SDE: Prohibit Advertising on School Buses) The Department of Education and local school districts are prohibited from  
29 selling space for or the placement of advertisements on the outside or inside of state-owned school buses.

30 **1.39.** (SDE: Residential Treatment Facilities Student Enrollment and Funding) Each South Carolina resident of lawful school  
31 age residing in licensed residential treatment facilities (RTFs) for children and adolescents identified on the State Qualified Providers  
32 list and meets the requirements of Section 44-7-130 of the 1976 Code, (students) shall be entitled to receive educational services  
33 from the school district in which the RTF is located (facility school district). The responsibility for providing appropriate educational  
34 programs and services for these students, both with and without disabilities, who are referred, authorized, or placed by the State is  
35 vested in the facility school districts. For purposes of this proviso, an authorization must be pursuant to a physician's determination  
36 of medical necessity. If clinically appropriate, the facility school district, the RTF, and the parent or guardian of a student referred

1 or placed in a RTF may consider the appropriateness of providing the student's education program virtually through enrollment in  
2 either the facility district's virtual program, the South Carolina virtual school program provided through the Department of Education  
3 (Virtual SC), or a virtual charter school authorized by the South Carolina Public Charter School District, or a virtual charter school  
4 authorized by an approved institute of higher education. This decision should be made jointly with the best interest of the student  
5 and what is clinically indicated being considered.

6 A facility school district must provide the necessary educational programs and services directly to the student at the RTF's facility,  
7 provided that the RTF facility provides and maintains comparable adequate space for the educational programs and services  
8 consistent with all federal and state least restrictive environment requirements. Adequate space shall include appropriate electrical  
9 support and Internet accessibility. Unless the parent or legal guardian of the student seeks to continue the student's enrollment in  
10 the resident school district under a medical homebound instruction program and the district approves, if appropriate, then, under  
11 these circumstances, the facility school district shall enroll the student and assume full legal and financial responsibility for the  
12 educational services including enrolling the student, approving the student's entry into a medical homebound instructional program,  
13 if appropriate, and receiving and expending funds, unless the resident school district undertakes to carry out its educational  
14 responsibilities for the student directly. Alternatively, a facility school district may choose to provide the necessary educational  
15 programs and services by contracting with the RTF provided that the RTF agrees to provide educational services to the student at the  
16 RTF's facility. Under these circumstances, the facility school district must enroll the student and pay the RTF for the educational  
17 services provided. If the facility school district determines the educational program being offered by the RTF does not meet the  
18 educational standards outlines in the contract, the facility district shall be justified in terminating the contract.

19 The facility school districts are entitled to receive the base student cost multiplied by the Education Finance Act pupil weighting  
20 for Homebound pupils of 2.10, as set forth in Section 59-20-40 of the 1976 Code and any eligible categorical and federal funds.  
21 These funds may be retained by the facility school districts for the purpose of providing the educational programs and services  
22 directly to students referred or placed by the State or the facility school districts may use these funds to reimburse RTFs for the  
23 educational programs and services provided directly by the RTFs. A facility school district is entitled to reimbursement from a  
24 resident school district for the difference between (1) the reasonable costs expended for the educational services provided directly  
25 by the facility school district or the amount paid to the RTF and (2) the aggregate amount of federal and state funding received by  
26 the facility school district for that student. However, the reimbursement rate may not exceed \$45 per student per day. Facility school  
27 districts providing the educational services shall notify the resident district in writing within forty-five calendar days that a student  
28 from the resident district is receiving educational services pursuant to the provisions of the proviso. Reimbursements shall be paid  
29 within sixty days of billing, provided the facility district has provided a copy of the invoice to both the District Superintendent and  
30 the finance office of the resident district being invoiced. Should the facility school district be unable to reach agreement with the  
31 resident school district regarding reasonable costs differences, the facility school district shall notify the Department of Education's  
32 Office of General Counsel. The Department of Education shall facilitate a resolution of the dispute between the facility school  
33 district and the resident school district within forty-five days of the notice of dispute. If the issue of reasonable cost differences  
34 should remain unresolved, a facility school district shall have the right to file a complaint in a Circuit Court. Should a resident school  
35 district fail to distribute the entitled funding to the facility school district by the one hundred thirty-five day count, the Department  
36 of Education is authorized to withhold the equivalent amount of EFA funds and transfer those funds to the facility school district.

1 RTF facilities on the State Qualified Provider List not located within the boundaries of the state shall be reimbursed at a rate that  
2 may not exceed \$45 per student per day for education services and school districts shall be eligible to receive a base student cost  
3 weighted funding of 2.10 provided that the student remains enrolled in the school district. Facilities providing the educational  
4 services shall notify the resident district in writing within forty-five calendar days that a student from the resident district is receiving  
5 educational services pursuant to the provisions of the proviso. Reimbursements shall be paid within sixty days of billing, provided  
6 the qualified facility has provided a copy of the invoice to both the District Superintendent and the finance office of the resident  
7 district being invoiced. Should the facility be unable to reach agreement with the resident school district regarding reasonable costs  
8 differences, the provider shall notify the Department of Education's Office of General Counsel. The Department of Education shall  
9 facilitate a resolution of the dispute between the facility and the resident school district within forty-five days of the notice of dispute.  
10 If the issue of reasonable cost differences should remain unresolved, a facility shall have the right to file a complaint in a Circuit  
11 Court. Additionally, qualified RTF providers' general education curriculum must be aligned to the South Carolina academic  
12 standards in the core content areas. All students with disabilities who are eligible for special education and related services under  
13 the Individuals with Disabilities Education Act (IDEA), as amended, and the State Board of Education (SBE) regulations, as  
14 amended, shall receive special education and related services in the least restrictive environment by appropriately certified personnel.  
15 Students in a qualified RTF will at all times be eligible to receive the educational credits (e.g., Carnegie Units) earned through their  
16 educational efforts. The resident school district and the RTF should develop a memorandum of understanding to outline the  
17 responsibilities of the RTF in providing the educational services and responsibilities, if any, of the resident school district while the  
18 student is housed in the RTF.

19 If a child from out of state is placed in a RTF by an out-of-state school district or agency, the child's home state remains responsible  
20 for the educational services. The facility school district may choose to provide the educational program to the child and, upon  
21 choosing to do so, shall contract with the appropriate entity for payment of educational services provided to the child. Out-of-state  
22 students provided educational services by a facility school district shall not be eligible for funding through the Education Finance  
23 Act.

24 If a child is placed in a RTF by the child's parent or guardian and is not referred, authorized, or placed by the State, the facility  
25 school district may choose to provide the educational program to the child, and upon doing so, must negotiate with the resident  
26 school district for services through medical homebound procedures. A facility school district is responsible for compliance with all  
27 child find requirements under Section 504 of the Rehabilitation Act of 1973 and Individuals with Disabilities Act of 2004 (IDEA).

28 All students enrolled in the facility school districts shall have access to the facility school districts' general education curriculum,  
29 which will be tied to the South Carolina academic standards in the core content areas. All students with disabilities who are eligible  
30 for special education and related services under the Individuals with IDEA, as amended, and the State Board of Education (SBE)  
31 regulations, as amended, shall receive special education and related services in the least restrictive environment by appropriately  
32 certified personnel. Students in an RTF will at all times be eligible to receive the educational credits (e.g., Carnegie Units) earned  
33 through their educational efforts.

34 With respect to students enrolled in the facility school districts, for accountability purposes, the assessment and accountability  
35 measures for students residing in RTFs shall be attributed to a specific school only if the child physically attends the school. The  
36 performance of students residing in a RTF who receive their educational program on site at the RTF must be reflected on a separate

1 line on the facility school district's report card and must not be included in the overall performance ratings of the facility school  
2 district. The Department of Education shall examine the feasibility of issuing report cards for RTFs. For the current fiscal year, a  
3 facility school district shall not have the district's state accreditation rating negatively impacted by deficiencies related to the delivery  
4 of an educational program at a RTF.

5 RTFs shall notify the facility school district as soon as practical, and before admission to the RTF if practical, of a student's  
6 admission to the RTF. RTFs, the facility school districts and the Department of Education shall use their best efforts to secure and/or  
7 exchange information, including documents and records necessary to provide appropriate educational services and/or related services  
8 as necessary to assist the facility school district in determining the resident school district. The Department of Education, in  
9 collaboration with state placing agencies, RTFs, facility school districts, and resident school districts, shall implement a system to  
10 follow the release of students from a RTF and re-enrollment in public, private, or special schools to ensure these students, when  
11 appropriate, are not recorded as dropouts.

17 and expend any General Fund balances for school bus transportation.

18 **1.43.** (SDE: Administrative Costs Report Posting) School districts must report the amount of funds spent on administrative

14 districts by the Department of Education as follows: for each primary and elementary school, the school district shall be eligible to  
15 receive up to \$62,730 or the actual cost of salary and benefits for a full-time reading/literacy coach.

16 (B) By accepting these funds, a school district warrants that they will not be used to supplant existing school district expenditures,  
17 except for districts that either are currently, or in the prior fiscal year, were paying for reading/literacy coaches with local funds. A  
18 district may only utilize these funds to employ reading/literacy coaches that may serve in a primary, elementary, or middle school or  
19 a combination of these schools depending on the area of highest need in the district *except in the event that the district can request*  
20 *and receive a waiver from the Department of Education to expend the funds on interventionists who spend more than fifty percent of*  
21 *their time providing direct support to struggling readers in grades kindergarten through grade five.* The school district must align  
22 the placement of coaches to the district reading plan that is approved by the department.

23 (C) Funds appropriated for reading/literacy Coaches are intended to be used to provide primary, elementary, and/or middle  
24 schools with reading/literacy coaches who shall serve according to the provisions in Chapter 155 of Title 59.

25 (D) Schools and districts accepting funding to support a coaching position agree that the reading/literacy coach must not serve as  
26 an administrator. If the department finds that school districts are using these funds for administrative costs as defined in statute they  
27 must withhold that districts remaining balance of funds allocated pursuant to this proviso.

28 (E) The Department of Education must publish guidelines that define the minimum qualifications for a reading/literacy coach.  
29 These guidelines must deem any licensed/certified teacher qualified if, at a minimum, he or she:

- 30 (1) holds a bachelor's degree or higher and an add-on endorsement for literacy coach or literacy specialist; or
- 31 (2) holds a bachelor's degree or higher and is actively pursuing the literacy coach or literacy specialist endorsement; or
- 32 (3) holds a master's degree or higher in reading or a closely-related field.

33 Within these guidelines, the Department of Education must assist districts in identifying a reading/literacy coach in the event that  
34 the school is not successful in identifying and directly employing a qualified candidate. The provisions of subsection (A), including  
35 the local support requirements, shall also apply to any allocations made pursuant to this paragraph.

1 (F) The Department of Education must develop procedures for monitoring the use of funds appropriated for reading/literacy  
2 coaches to ensure they are applied to their intended uses and are not redirected for other purposes. The Department of Education  
3 may receive up to \$100,000 of the funds appropriated for reading/literacy coaches in order to implement this program, provided that  
4 this allocation does not exceed the department's actual costs.

5 (G) Prior to the close of the current fiscal year, any unspent or unallocated funds for reading/literacy coaches shall be used to fund  
6 Summer Reading Camps.

7 (H) The Department of Education shall require:

8 (1) any school district receiving funding under subsection (A) to identify the name and qualifications of the supported  
9 reading/literacy coach; as well as the school in which the coach is assigned; and

11 (I) With the data reported by the school districts, the department shall report by January fifteenth of the current fiscal year on the  
12 hiring of and assignment of reading/literacy coaches by school. The department shall also report the amount of funds that will be  
13 used for Summer Reading Camps.

14 (J) Funds appropriated for reading/literacy coaches shall be retained and carried forward to be used for the same purpose but  
15 may not be flexed.

17 has transferred from their resident school district to another school district to participate in a sport that was not offered in the resident  
18 school district. Should a school fail to comply with this provision, the Department of Education shall withhold one percent of their  
19 total state allocation.

20 **1.63.** (SDE: Graduation Rates) For the current fiscal year, if a high school has a graduation rate below sixty percent, using  
21 appropriated funds a local school district board of trustees must provide a report detailing a plan to increase the graduation rate in  
22 accordance with the provisions of the Education Accountability Act to the State Board of Education.

23 **1.64.** (SDE: South Carolina Community Block Grants for Education Pilot Program) There is created the South Carolina  
24 Community Block Grants for Education Pilot Program. The purpose of this matching grants program is to encourage and sustain  
25 partnerships between a community and its local public school district or school for the implementation of innovative, state-of-the-art  
26 education initiatives and models to improve student learning. The initiatives and models funded by the grant must be well designed,  
27 based on strong evidence of effectiveness, and have a history of improved student performance.

28 The General Assembly finds that the success offered by these initiatives and programs is assured best when vigorous community  
29 support is integral to their development and implementation. It is the intent of this proviso to encourage public school and district  
30 communities and their entrepreneurial public educators to undertake state-of-the-art initiatives to improve student learning and to  
31 share the results of these efforts with the state's public education community.

32 As used in this proviso:

33 (1) "Community" is defined as a group of parents, educators, and individuals from business, faith groups, elected officials,  
34 nonprofit organizations and others who support the public school district or school in its efforts to provide an outstanding education  
35 for each child. As applied to the schools impacted within a district or an individual school, "community" includes the school faculty  
36 and the School Improvement Council as established in Section 59-20-60 of the 1976 Code;

1 (2) "Poverty" is defined as the percent of students eligible in the prior year for the free and reduced price lunch program and  
2 or Medicaid; and

3 (3) "Achievement" is as established by the Education Oversight Committee for the report card ratings developed pursuant to  
4 Section 59-18-900 of the 1976 Code.

5 The Executive Director of the Education Oversight Committee is directed to appoint an independent grants committee to develop  
6 the process for awarding the grants including the application procedure, selection process, and matching grant formula. The grants  
7 committee will be comprised of seven members, three members selected from the education community and four members from the  
8 business community. The chairman of the committee will be selected by the committee members at the first meeting of the grants  
9 committee. The grants committee will review and select the recipients of the Community Block Grants for Education.

10 The criteria for awarding the grants must include, but are not limited to:

11 (1) the establishment and continuation of a robust community advisory committee to leverage funding, expertise, and other  
12 resources to assist the district or school throughout the implementation of the initiatives funded through the Block Grant Program;

13 (2) a demonstrated ability to meet the match throughout the granting period;

14 (3) a demonstrated ability to implement the initiative or model as set forth in the application; and

15 (4) an explanation of the manner in which the initiative supports the district's or school's strategic plan required by Section  
16 59-18-1310 of the 1976 Code.

17 In addition, the district or school, with input from the community advisory committee, must include:

18 (1) a comprehensive plan to examine delivery implementation and measure impact of the model;

19 (2) a report on implementation problems and successes and impact of the innovation or model; and

20 (3) evidence of support for the project from the school district administration when an individual school applies for a grant.

21 The match required from a grant recipient is based on the poverty of the district or school. No matching amount will exceed more  
22 than seventy percent of the grant request or be less than ten percent of the request. The required match may be met by funds or by  
23 in-kind donations, such as technology, to be further defined by the grants committee. Public school districts and schools that have  
24 high poverty and low achievement will receive priority for grants when their applications are judged to meet the criteria established  
25 for the grant program.

26 However, no grant may exceed \$250,000 annually unless the grants committee finds that exceptional circumstances warrant  
27 exceeding this amount.

28 The Education Oversight Committee will review the grantee reports and examine the implementation of the initiatives and models  
29 to understand the delivery of services and any contextual factors. The Oversight Committee will then highlight the accomplishments  
30 and common challenges of the initiatives and models funded by the Community Block Grant for Education Pilot Program to share  
31 the lessons learned with the state's public education community.

32 For the current fiscal year, funds allocated to the Community Block Grant for Education Pilot Program must be used to provide or  
33 expand high-quality early childhood programs for a targeted population of at-risk four-year-olds. High-quality is defined as meeting  
34 the minimum program requirements of the Child Early Reading Development and Education Program and providing measurable  
35 high-quality child-teacher interactions, curricula and instruction. Priority will be given to applications that involve public-private  
36 partnerships between school districts, schools, Head Start, and private child care providers who collaborate to: (1) provide

1 high-quality programs to four-year-olds to maximize the return on investment; (2) assist in making the transition to kindergarten; (3)  
2 improve the early literacy, social and emotional, and numeracy readiness of children; and (4) engage families in improving their  
3 children's readiness.

4 **1.65.** (SDE: Proceeds from Sale of Bus Shop & Boat) For the current fiscal year the Department of Education is authorized to

6 purposes.

7 **1.66.** (SDE: First Steps 4K Technology) During the current fiscal year, South Carolina Office of First Steps to School Readiness  
8 is authorized to expend up to \$75,000 from the four-year-old kindergarten carry forward funds to purchase electronic devices for the  
9 administration of required school readiness assessments to children enrolled in the full-day 4K program in private centers in the  
10 current fiscal year. The State Office of First Steps may purchase one device, which would be the property of the Office of First  
11 Steps, for every ten centers serving children in the program. The regional coordinators who provide support to the centers shall  
12 coordinate the usage of the devices among the centers. First Steps shall provide a report documenting its technology and materials  
13 expenditures to the Chairman of the Senate Finance Committee and the Chairman of the House Ways and Means Committee no later  
14 than January 15, ~~2019~~ *of the current fiscal year.*

16 such courses in grades seven through twelve without having the add on certification for middle-level education. A teacher certified  
17 in elementary education may teach first grade without having the add on certification in early childhood education. Districts must  
18 report to the Department of Education and the Center for Educator Recruitment Retention and Advancement on the teachers and  
19 courses that utilize this exemption.

20 **1.68.** (SDE: Digital Instructional Materials) The Department of Education shall continue to create an instructional materials list  
21 composed of those items (print and/or digital) that have received State Board of Education approval through the normal adoption  
22 process. The department shall continue to work with the publishers of instructional materials to ensure that districts have options for  
23 print/digital student materials to include class sets of print student editions, if needed. Funds appropriated for the purchase of  
24 instructional materials (print/digital) may be used for reimbursing school districts to offset the costs of refurbishing science kits on

10 dollars, or the amount the teacher expends on teacher supplies and materials, whichever is less. If any expenditures eligible for a  
11 credit are made after December thirty-first, the teacher may include the expenditures on his initial return or may file an amended  
12 ~~2018~~ 2019 return claiming the credit, so long as the return or amended return is filed in this fiscal year. The Department of Revenue

14 the reimbursement provided by this proviso is ineligible to take the income tax credit allowed by this proviso.

21 registration and fees; charges for materials supplied to local school districts or other entities not otherwise mandated to be provided  
22 by state law; and from other activities or functions sponsored by the committee including public awareness campaign activities. Any  
23 unexpended revenue from these sources may be carried forward into the current fiscal year and expended for the same purposes.

24 **1A.12.** (SDE-EIA: Technical Assistance) In order to best meet the needs of underperforming schools, funds appropriated for  
25 technical assistance must be used to provide intensive support to schools and districts with an absolute rating of below average or  
26 at-risk on the most recent annual school report card or with the lowest percentages of students meeting state standards on state  
27 assessments on the most recent state assessments or with the lowest high school graduation rates. The department will create a  
28 system of tiers of technical assistance for low-performing schools and districts that will receive technical assistance. The tiers will  
29 be determined by factors that include, but are not limited to, length of time performance of the school or district has been at-risk/below  
30 average, annual achievement ratings, annual growth ratings, school or district accreditation, and/or financial risk status. The tiers of  
31 technical assistance may include a per student allocation, placement of a principal mentor, transformation coach, instructional leader,  
32 replacement of the principal, reconstitution of a school, and declaration of a state of emergency. Low-performing schools and districts  
33 shall be placed within the tiered technical assistance framework not later than December fifteenth.

34 Low-performing schools shall receive a diagnostic review through the department. In addition, newly identified low-performing  
35 schools and districts must be reviewed by an External Review Team in the year of designation, and every third year thereafter. These  
36 reports shall be made available on the Department of Education's website; any information pertaining to personnel matters or

1 containing personally identifiable information shall be exempted. Based upon the recommendations in the review(s), low-performing  
2 schools and districts must develop and submit to the Department of Education an updated school renewal or district strategic plan  
3 outlining goals for improvements. The amended plans must address specific strategies designed to increase student achievement and  
4 must include measures to evaluate the success of implementation of the plan.

5 With the funds appropriated to the Department of Education, and any experts placed in the school or district for technical assistance  
6 services, the department will assist low-performing schools and districts in designing and implementing the strategies and  
7 measurement identified in the amended plans and in brokering for technical assistance personnel as stipulated in the plan. In addition,  
8 the department must monitor student academic achievement and progress on implementation and report their findings to the  
9 Chairman of the Senate Finance Committee, the Chairman of the House Ways and Means Committee, the Chairman of the Senate  
10 Education Committee, the Chairman of the House Education and Public Works Committee, the local legislative delegation, and the  
11 Governor in the fall following the school or district designation as low-performing. If the school or school district does not provide  
12 the evaluation information necessary to determine effective use, the principal of the school or the district superintendent may be  
13 subject to receiving a public reprimand by the State Board of Education if it is determined that those individuals are responsible for  
14 the failure to provide the required information.

15 Funds must be used by the department for implementation and delivery of technical assistance services. Using previous report  
16 card data and monitoring reports on the status of implementation of the school renewal plan, the department shall identify priority  
17 schools. Funds appropriated for technical assistance shall be used by the department to work with those schools identified as  
18 low-performing and to support priority schools under the tiered system. These funds shall not be transferred to any other funding  
19 category by the school district without prior approval of the State Superintendent of Education and funds are not subject to agency  
20 flexibility provisions.

21 Reconstitution means the redesign or reorganization of the school, which may include the declaration that all positions in the  
22 school are considered vacant. Certified staff currently employed in priority schools must undergo an evaluation in the spring  
23 following the school's identification as a priority school and must meet determined goals to be rehired and continue their employment  
24 at that school. Educators who were employed at a school that is being reconstituted prior to July 2009, and to whom the employment  
25 and dismissal laws apply will not lose their rights in the reconstitution. If they are not rehired or are not assigned to another school  
26 in the school district they have the opportunity for a hearing. However, employment and dismissal laws shall not apply to educators  
27 who are employed in the district and assigned to the priority schools July 1, 2009, in the event of a reconstitution of the school in  
28 which the educator is employed. Those rights are only suspended in the event of a reconstitution of the entire school staff.  
29 Additionally, the rights and requirements of the employment and dismissal laws do not apply to educators who on July 1, 2009, were  
30 on an induction or annual contract, that subsequently were offered continuing contract status after the effective date of this proviso,  
31 and are employed at a school that is subject to reconstitution under this proviso.

32 The reconstitution of a school could take place if the school has been identified as a priority school that has failed to improve  
33 satisfactorily. The decision to reconstitute a school shall be made by the State Superintendent of Education in consultation with the  
34 principal the school board of trustees, and the district superintendent. The decision to reconstitute a school shall be made by April  
35 first, at which time notice shall be given to all employees of the school. The department, in consultation with the district  
36 superintendent, shall develop a staffing plan and a budget for each reconstituted school.

1 The State Superintendent of Education may declare a state of emergency in a district if the accreditation status is probation or  
2 denied, if a majority of the schools fail to show improvement, if the district is classified as being in “high risk” status financially, or  
3 for financial mismanagement resulting in a deficit. The State Superintendent of Education may declare a state of emergency in a  
4 school if the accreditation status is probation or denied, or if the school fails to show improvement. Upon declaration of a state of  
5 emergency, the Superintendent may take over management of the school or district. Management of the school or district may  
6 include direct management, consolidation with another district, charter management, public/private management, or contracting with  
7 an educational management organization or another school district.

8 **1A.13.** (SDE-EIA: Proviso Allocations) In the event an official EIA revenue shortfall is declared by the Board of Economic  
9 Advisors, the Department of Education may reduce any allocation in Section 1A specifically designated by proviso in accordance  
10 with the lower Board of Economic Advisors revenue estimate as directed by the Executive Budget Office. No allocation for teacher  
11 salaries shall be reduced as a result of this proviso.

12 **1A.14.** (SDE-EIA: School Districts and Special Schools Flexibility) All school districts and special schools of this State may  
13 transfer and expend funds among appropriated state general fund revenues, Education Improvement Act funds, and Education Lottery  
14 Act funds, and funds received from the Children’s Education Endowment Fund for school facilities and fixed equipment assistance,  
15 to ensure the delivery of academic and arts instruction to students. However, a school district may not transfer funds allocated  
16 specifically for state level maintenance of effort requirements under IDEA, funds allocated specifically for state level maintenance  
17 of effort requirement for federal program, funds provided for the Education and Economic Development Act, funds provided for  
18 Career and Technology Education, nor funds required for debt service or bonded indebtedness. ~~All school districts and special  
19 schools of this State may suspend professional staffing ratios and expenditure regulations and guidelines at the sub-function and  
20 service area level, except for four-year old programs and programs serving students with disabilities who have Individualized  
21 Education Programs.~~ All school districts must report the student teacher ratio for every classroom to the Department of Education  
22 at the ninety and one hundred and eighty day mark. The department shall report this information to the General Assembly.

23 In order for a school district to take advantage of the flexibility provisions, at least seventy-five percent of the school district’s per  
24 pupil expenditures must be utilized within the In\$ite categories of instruction, instructional support, and only transportation, food  
25 service, and safety within non-instruction pupil services. No portion of the seventy-five percent may be used for facilities, business  
26 services, debt service, capital outlay, program management, and leadership services, as defined by In\$ite. The school district shall  
27 report to the Department of Education the actual percentage of its per pupil expenditures used for classroom instruction, instructional  
28 support, and transportation, food service, and safety within non-instruction pupil services for the current school year ending June  
29 thirtieth. Salaries of on-site principals must be included in the calculation of the district’s per pupil expenditures.

30 “In\$ite” means the financial analysis model for education programs utilized by the Department of Education.

31 School districts are encouraged to reduce expenditures by means, including, but not limited to, limiting the number of low  
32 enrollment courses, reducing travel for the staff and the school district’s board, reducing and limiting activities requiring dues and  
33 memberships, reducing transportation costs for extracurricular and academic competitions, restructuring administrative staffing, and  
34 expanding virtual instruction.

35 School districts and special schools may carry forward unexpended funds from the prior fiscal year into the current fiscal year.

1 Prior to implementing the flexibility authorized herein, school districts must provide to Public Charter Schools the per pupil  
2 allocation due to them for each categorical program.

3 Quarterly throughout the current fiscal year, the chairman of each school district's board and the superintendent of each school  
4 district must certify where non-instructional or nonessential programs have been suspended and the specific flexibility actions taken.  
5 The certification must be in writing, signed by the chairman and the superintendent, delivered electronically to the State  
6 Superintendent of Education, and an electronic copy forwarded to the Chairman of the Senate Finance Committee, the Chairman of  
7 the Senate Education Committee, the Chairman of the House Ways and Means Committee, and the Chairman of the House Education  
8 and Public Works Committee. Additionally, the certification must be presented publicly at a regularly called school board meeting,  
9 and the certification must be conspicuously posted on the internet website maintained by the school district.

10 For the current fiscal year, Section 59-21-1030 is suspended. The foreign language program assessment, and the physical  
11 education assessment must be suspended. School districts and the Department of Education are granted permission to purchase the  
12 most economical type of bus fuel.

13 For the current fiscal year, savings generated from the suspension of the assessments enumerated above must be allocated to school  
14 districts based on weighted pupil units.

15 School districts must maintain a transaction register that includes a complete record of all funds expended over one hundred dollars,  
16 from whatever source, for whatever purpose. The register must be prominently posted on the district's internet website and made  
17 available for public viewing and downloading. The register must include for each expenditure:

18 (i) the transaction amount;

19 (ii) the name of the payee; and

20 (iii) a statement providing a detailed description of the expenditure.

21 The register must not include an entry for salary, wages, or other compensation paid to individual employees. The register must  
22 not include any information that can be used to identify an individual employee. The register must be accompanied by a complete  
23 explanation of any codes or acronyms used to identify a payee or an expenditure. The register must be searchable and updated at  
24 least once a month.

25 Each school district must also maintain on its internet website a copy of each monthly statement for all of the credit cards  
26 maintained by the entity, including credit cards issued to its officers or employees for official use. The credit card number on each  
27 statement must be redacted prior to posting on the internet website. Each credit card statement must be posted not later than the  
28 thirtieth day after the first date that any portion of the balance due as shown on the statement is paid.

29 The Comptroller General must establish and maintain a website to contain the information required by this section from a school  
30 district that does not maintain its own internet website. The internet website must be organized so that the public can differentiate  
31 between the school districts and search for the information they are seeking.

32 The provisions contained herein do not amend, suspend, supersede, replace, revoke, restrict, or otherwise affect Chapter 4, Title  
33 30, of the South Carolina Freedom of Information Act. Nothing in this proviso shall be interpreted as prohibiting the State Board of  
34 Education to exercise its authority to grant waivers under Regulation 43-261.

23 the General Assembly in Part IA, Section 1 VIII.D. for school technology in the classroom and internet access, the State Department  
24 of Education shall approve district technology plans that specifically address and incorporate certified staff technology competency  
25 standards and local school districts must require certified staff to demonstrate proficiency in these standards as part of each certified  
26 staff's Professional Development plan. District adopted technology proficiency standards and plans should be, at minimum, aligned  
27 to the International Society for Technology in Education (ISTE) teacher standards. Evidence that districts are meeting the  
28 requirement is a prerequisite to expenditure of a district's technology funds.

30 Education Oversight Committee may carry forward unexpended Education Accountability Act funds authorized specifically for the

36 provision of services to age-eligible children ~~qualifying for free or reduced price lunch or Medicaid~~ in poverty, as defined in Proviso

2 medically documented disabilities who do not already qualify for special need services should also be considered for enrollment. In  
3 the event that more students seek to enroll than available space permits, districts shall prioritize students (at the time of acceptance)  
4 on the basis of family income expressed as a percentage of the federal poverty guidelines, with the lowest family incomes given the  
5 highest enrollment priority.

6 **1A.23.** (SDE-EIA: Reading) The funds allocated to the Department of Education for reading shall be used to provide districts  
7 with research-based strategies and professional development and to work directly with schools and districts to assist with

15 Instructional support may include family literacy and parenting programs to students at-risk for school failure and their families.  
16 Students at academic risk are defined as students who are not meeting grade level standards in English language arts/reading and  
17 mathematics as evidenced by summative state assessments in grades three through eight or students who are not on track to meeting

33 funds will be allocated to districts based on a formula which includes factors such as target populations without a high school  
34 credential, program enrollment the previous school year, number of students making an educational gain the previous school year,  
35 and performance factors such as number of high school credentials and career readiness certificates awarded the previous school  
36 year. Overall levels of state funding must meet the federal requirement of state maintenance of effort. Each school district must

1 collect information from both the student and the school including why the student has enrolled in Adult Education and whether or  
2 not the student is pursuing a GED or Diploma. The school district must then provide a quarterly report to the Department of Education  
3 and must include the unique student identifier. The department, in turn, will provide summary information to the House Ways and

17 reimbursement of \$574 per eligible child transported. All providers who are reimbursed are required to retain records as required by  
18 their fiscal agent. New providers participating for the first time in the current fiscal year and enrolling between one and six eligible  
19 children shall be eligible to receive up to \$1,000 per child in materials and equipment funding, with providers enrolling seven or

26 average daily membership.

27 Annually, the Department of Education is directed to audit the annual allocations to public providers to ensure that allocations are  
28 accurate and aligned to the appropriate pro rata per student allocation, materials, and equipment funding. In the event the department,  
29 during the audit process determines that the annual allocations of the prior fiscal year are not accurate, the department must adjust  
30 the allocations for the current fiscal year to account for the audit findings. The department must provide the results of the annual  
31 audit findings to the General Assembly no later than December first. Likewise, in the event the Office of First Steps determines that  
32 the annual allocations of the prior fiscal year to private providers are not accurate, the Office of First Steps must adjust the allocations  
33 for the current fiscal year to account for the findings.

34 Of the funds appropriated, \$300,000 shall be allocated to the Education Oversight Committee to conduct an annual evaluation of  
35 the South Carolina Child Development Education Pilot Program and to issue findings in a report to the General Assembly by January  
36 fifteenth of each year. To aid in this evaluation, the Education Oversight Committee shall determine the data necessary and both

1 public and private providers are required to submit the necessary data as a condition of continued participation in and funding of the  
2 program. This data shall include developmentally appropriate measures of student progress. Additionally, the Department of  
3 Education shall issue a unique student identifier for each child receiving services from a private provider. The Department of  
4 Education shall be responsible for the collection and maintenance of data on the public state funded full day and half-day  
5 four-year-old kindergarten programs. The Office of First Steps to School Readiness shall be responsible for the collection and  
6 maintenance of data on the state funded programs provided through private providers. The Education Oversight Committee shall  
7 use this data and all other collected and maintained data necessary to conduct a research based review of the program's  
8 implementation and assessment of student success in the early elementary grades.

9 **1A.30.** (SDE-EIA: Aid to Districts) Funds appropriated in Part IA, Section 1, VIII.A.1. Aid to Districts shall be dispersed monthly  
10 to school districts. For the current fiscal year, the remaining funds shall be allocated to districts based on the number of weighted

12 **1A.31.** (SDE-EIA: Centers of Excellence) Of the funds appropriated for Centers of Excellence, \$350,000 must be allocated to the  
13 Francis Marion University Center of Excellence to Prepare Teachers of Children of Poverty to expand statewide training for  
14 individuals who teach children of poverty through weekend college, nontraditional or alternative learning opportunities.

15 **1A.32.** (SDE-EIA: IDEA Maintenance of Effort) Prior to the dispersal of funds appropriated in Section VIII.A.1. Aid to Districts  
16 according to Proviso 1A.30 for the current fiscal year, in the event that there is a reduction in state funds or there are changes in the  
17 Education Finance Act/Base Student Cost formula that would reduce support for children with disabilities, the Department of  
18 Education is authorized to utilize funds appropriated in Section VIII.A.1. Aid to Districts to ensure maintenance of state financial  
19 support for the IDEA. The department shall distribute these funds using the current fiscal year one hundred thirty-five day Average  
20 Daily Membership or as directed by the United States Department of Education. Funds provided for these purposes may not be  
21 transferred to any other purpose and therefore are not subject to flexibility. For continued compliance with the federal maintenance  
22 of state financial support requirements of the IDEA, funding for children with disabilities must, to the extent practicable, be held  
23 harmless to budget cuts or reductions to the extent those funds are required to meet federal maintenance of state financial support  
24 requirements under the IDEA. In the event cuts to funds that are needed to maintain fiscal effort are necessary, when administering  
25 such cuts, the department must not reduce funding to support children with disabilities who qualify for services under the IDEA in a  
26 manner that is disproportionate to the level of overall reduction to state programs in general. By December first, the department  
27 must submit an estimate of the IDEA maintenance of state financial support requirement to the General Assembly and the Governor.  
28 For the current fiscal year, the department may carry forward IDEA Maintenance of Effort funds from the prior fiscal year and

30 **1A.33.** (SDE-EIA: Career Cluster Industry Partnerships) From the funds appropriated to the Department of Education, \$800,000  
31 must be provided as direct grants to the private sector statewide trade association or educational foundation providing nationally  
32 certified programs in career and technology education representing the automotive, construction, engineering, healthcare, mechanical  
33 contracting/construction, and hospitality tourism career clusters. Organizations applying for a grant must do so by July thirty-first  
34 and the Department of Education must award a minimum of one grant of at least \$150,000 in at least four of these specified career  
35 clusters to be used exclusively for career and technology education. The recipient industry organization must conduct end-of-course  
36 exams graded by a national industry organization and must include in their grant request how the money will be spent in direct

1 support of students to further industry-specific career technology education; a description and history of their program nationally and  
2 within South Carolina; estimates of future employment growth in their industry; and the national scope of their program. By August  
3 first of the following year, the organization must submit to the department a report detailing how the grant increased  
4 industry/employer awareness; the number of increased schools using the industry-based curriculum and partnered with the industry  
5 organization; the increased number of students in the program; and an overview and analysis of the organization's statewide student  
6 competition. The grant must be used for career awareness programs for that industry cluster; statewide student competitions leading  
7 to national competitions; teacher development and training; post-secondary scholarships in industry-specific degree programs;  
8 student recruitment into that career cluster programs; programs to educate middle and high school Career or Guidance Counselors  
9 about the industry; service to disadvantaged youth; and administering business/employer awareness and partnerships which help lead  
10 to experience-based, career-oriented experiences including internships, apprenticeships, mentoring, co-op education and service  
11 learning. The Office of Career and Technology Education of the department will develop goals with each career cluster on the  
12 number of new schools using the industry-based curriculum and partnered with that career cluster organization. These funds may  
13 not be used to supplant or replace, in whole or in part, other existing resources/assets sourced outside the present grant being used to  
14 provide the same services or programs. Organizations may carry-over grants for up to three years when a large project is identified  
15 in the grant application to be used at a future date; otherwise excess funds must be returned to the state. Organizations awarded must  
16 submit a semi-annual programmatic and financial report on the last day of December in addition to the final report due August first  
17 that has been audited by a third party accounting firm.

22 of the agency's annual budget request.

29 the average teacher salary in South Carolina through incremental increases over the next few years so as to make such equivalent to  
30 the national average teacher salary.

31 ~~The statewide minimum teacher salary schedule used in Fiscal Year 2017-18 will continue to be used in Fiscal Year 2018-19 and~~  
32 ~~the starting salary shall be increased to \$32,000 with the remaining salary schedule increased by one percent.~~

33 Additionally, for the current fiscal year, a local school district board of trustees must increase the salary compensation for all  
34 eligible certified teachers employed by the district by no less than one year of experience credit using the district salary schedule  
35 utilized the prior fiscal year as the basis for providing the step. Application of this provision must be applied uniformly for all eligible

1 certified teachers. For Fiscal Year ~~2018-19~~ 2019-20, the requirement that school districts maintain local salary supplements per  
2 teacher no less than their prior fiscal year level is suspended if additional State funds fill the gap.

3 Funds allocated by Proviso 1.3 for implementing a revised state minimum salary schedule ~~appropriated in Part IA, Section 1,~~  
4 ~~VIII.C.2.~~ for Teacher Salaries must be used to increase salaries of those teachers eligible pursuant to Section 59-20-50(4)(b), to

12 pursue a high school diploma. The Education Oversight Committee working with the Department of Education will determine how  
13 to calculate a dropout recovery rate that will be reflected on the annual school and district report cards. The department may carry  
14 forward and expend the funds for the same purpose.

20 may be carried forward from the prior fiscal year into the current fiscal year and expended for the same purposes.

21 **1A.39.** (SDE-EIA: Educational Partnerships) The funds provided to the Center for Educational Partnerships at the College of

36 technology, and genetic education and exposure to career opportunities in science, including mobile science laboratory programs, to

1 students enrolled in the Abbeville equity school districts and students in high poverty schools. These funds may also focus on  
2 creating public-private literacy partnerships utilizing a 2:1 matching funds provision when the initiative employs research-based  
3 methods, has demonstrated success in increasing reading proficiency of struggling readers, and works directly with high poverty  
4 schools and districts. The committee will work to expand the engagement of stakeholders including state agencies and boards like  
5 the Educational Television Commission, businesses, and higher education institutions. The committee shall annually report to the

33 may receive up to \$100,000 of the funds appropriated for reading/literacy coaches in order to implement this program, provided that  
34 this allocation does not exceed the department's actual costs.

12 process. The department shall continue to work with the publishers of instructional materials to ensure that districts have options for  
13 print/digital student materials to include class sets of print student editions, if needed. Funds appropriated for the purchase of  
14 instructional materials (print/digital) may be used for reimbursing school districts to offset the costs of refurbishing science kits on  
15 the state-adopted instructional materials inventory, purchasing new kits or those adopted as supplemental from the central textbook  
16 depository, or a combination of refurbishment and purchase. The refurbishing cost of kits may not exceed the cost of the  
17 state-adopted refurbishing kits plus a reasonable amount for shipping and handling. Costs for staff development, personnel costs,

25 department shall manage the administration of assessments that analyze the early literacy and language development of children in  
26 publicly funded prekindergarten as done in the prior fiscal year. Each school district and private provider participating in a publicly  
27 funded prekindergarten program will administer one of the formative assessments selected by the department to each child eligible

30 manner set forth by the student's Individualized Education Program or 504 Accommodations Plan and for students who are Limited  
31 English Proficient according to their LEP Plan. The department will provide the assessment data to the Education Oversight  
32 Committee. The results of the assessment and the developmental intervention strategies recommended or services needed to address  
33 the child's identified needs must also be provided, in writing, to the parent or guardian. The assessment may not be used to deny a  
34 student to admission to prekindergarten.

35 Furthermore, up to \$2,000,000 of the funds appropriated for half-day programs for four-year-olds and funds carried forward from  
36 assessment must be expended by the Department of Education to administer the Kindergarten Readiness Assessment (KRA) to each

1 child entering kindergarten in the public schools. The assessment of kindergarten students must be administered at a minimum of

6 Individualized Education Program, 504 Accommodations Plan, or LEP Plan. Districts are given the option of designating up to two  
7 days of the one hundred eighty day school calendar to administer the assessment to kindergarten students. The department will also  
8 provide the results of the assessment of kindergarten students to the Education Oversight Committee. With available funds, the  
9 department will also provide or secure training for appropriate educators in how to administer the assessment.

10 For all students assessed with the Kindergarten Readiness Assessment (KRA), the Department of Education is required to collect  
11 data from schools and school districts on the prior early learning experience of each student. The data would include whether the  
12 kindergartener had attended in the prior school year a Head Start program, a South Carolina Early Reading Development and  
13 Education Program in a public school or a private center, a half-day 4K program in a public school, a full-day 4K program in a public

25 extended program per this proviso in the prior school year, then to districts to increase the length of the program to a maximum of  
26 eight and a half hours per day or two hundred and twenty days per year or to fund summer programs. By August 1, the Department  
27 of Education and the Office of First Steps must collect the documented waiting lists and determine a process to notify parents of

18 The match required from a grant recipient shall be based on the poverty of the district or school. No matching amount will exceed  
19 more than seventy percent of the grant request or be less than ten percent of the request. The required match may be met by funds  
20 or by in-kind donations, such as technology, to be further defined by the grants committee. Public school districts and schools that  
21 have high poverty and low achievement will receive priority for grants when their applications are judged to meet the criteria  
22 established for the grant program. The committee shall submit its process to the Governor, the Chairman of House Ways and Means

26 initiatives and models to understand the delivery of services and any contextual factors. The evaluation will then highlight the  
27 accomplishments and common challenges of the initiatives and models funded to share the lessons learned with the state's public  
28 education community.

19 to pay, with districts of the lowest index of taxpaying ability receiving priority consideration. Districts must apply for funding  
20 through the department and no districts shall receive an award of more than four certified school resource officer positions. In

20 qualifies for the SC WINS scholarship.

21 (G) Additionally, a three-hundred-dollar book allowance is applied to an SC WINS recipient's account for expenses towards  
22 the cost of attendance including the cost of textbooks.

23 (H) If a critical workforce area program is placed on suspension during the SBTCE's program evaluation process, that

24 The department shall work with Clerks of Court to identify and prepare for the changes involved in the implementation of the Transfer

7       **38.29.** (DSS: Faith-Based Private Child Placing Agencies) From the funds appropriated to the Department of Social Services, the  
8 department shall make and promulgate such rules and regulations relating to licensing standards and other matters as may be  
9 necessary to carry out the purposes of Title 63, Chapter 11, Article 1 of the 1976 Code as applied to faith-based private Child Placing  
10 Agencies. For purposes of these regulations, any person or entity who holds legal or physical custody of a child for the purpose of  
11 placement for foster care or adoption or a private placement and, which for the purposes of these regulations, retain their own system  
12 of foster homes, is a child placing agency as defined in S.C. Code of Regulations 114-550. Such regulation must not discriminate or  
13 suggest the taking of any adverse action against a faith-based child-placing agency or an agency seeking to become a child-placing  
14 agency on the basis, wholly or partly, that a faith-based child placing agency has declined or will decline to provide any service that  
15 conflicts with, or provide any service under circumstances that conflict with, a sincerely-held religious belief or moral conviction of  
16 the faith-based child placing agency.

17       **38.30.** (DSS: Foster Care Child Placements) With funds appropriated and authorized to the Department of Social Services for  
18 Fiscal Year 2018-19, the department shall ensure that the following provisions are implemented related to child placements. The  
19 department shall promulgate any necessary rules or regulations to implement these provisions:

20       (A) If a child in foster care has been placed within the same foster home for at least 9 consecutive months and if the foster  
21 parents are willing to provide permanency through adoption for the child, the department must obtain an attachment assessment, as  
22 defined through rules or regulations promulgated by the agency, of the child and current foster parents before selecting a different  
23 adoptive placement or other alternative setting. The attachment assessment must be conducted by a qualified attachment expert.  
24 Qualified attachment experts may include individuals who can demonstrate training and or education in attachment theory,  
25 developmental psychology, and other qualifications defined through rules or regulations promulgated by the agency.

26       (B) If a child's permanency plan includes reunification with a parent or caregiver, the department shall develop a transition  
27 plan for the child, with input from the Guardian ad Litem and a child-focused or other appropriate mental health professional. The  
28 department's proposed transition plan must include sufficient visitation with the permanent guardian to promote a successful and  
29 emotionally healthy transition for the child, facilitate a positive relationship between caregiver and child, and lessen trauma that may  
30 result from the move. If the department pursues placement with a natural parent, relative, or other adult with whom the child has  
31 never lived, as determined to be in the child's best interest, the department's proposed transition plan must be progressive and include  
32 increased overnight visitation with ongoing assessment of the plan and the child's adjustment by the Guardian ad Litem and child  
33 focused or other appropriate mental health professional. Modifications to the plan must be driven by the child's adjustment to the  
34 transition.

35       (C) The department must file a Termination of Parental Rights petition if a child has been in foster care for 15 of the last 22  
36 months unless there are extenuating circumstances as defined in Section 63-7-1710 as follows:

- 1 (1) When the child is over the age of 16 and the department has identified another planned permanent living arrangement.
- 2 (2) The department asserts to the court that the child may be safely returned to the parent because the parent has remedied
- 3 the conditions that caused the removal, with or without supervision by the department for up to 12 months.
- 4 (3) The department's proposed treatment plan can be extended up to 18 months but only if: (a) the department presents
- 5 compelling and persuasive evidence of how the parent has demonstrated due diligence in completing the plan; (b) the department
- 6 can articulate for the court specific reasons to believe the parent will timely remedy the conditions which led to the removal; (c) the
- 7 department affirms that the return of child to the parent would not cause unreasonable risk of harm; (d) the department has compelling
- 8 reasons to assert that a Termination of Parental Rights is not in the best interests of the child; (e) the department has compelling
- 9 reasons to assert the best interests of the child will be served by the extension.

10 (4) If the department assesses the viability of adoption and determines that adoption is not a viable option and has

11 compelling reasons to assert that Termination of Parental Rights is not in the best interests of the child, then the department may

12 pursue a permanent plan of custody or legal guardianship to relative or other person.

13 (D) In accordance with Sections 63-7-1640(G) and 1700(E), the department must file the petition for a Termination of Parental

14 Rights within sixty days of the family court order designating the child's permanent plan or concurrent plan as Termination of Parental

15 Rights and adoption.

17 in the Death Penalty Trial Fund or the Conflict Fund, provided the designated fund has become exhausted during the year.

22 Appointments funds may not be transferred or used for any other purpose.

23 A portion of the funds appropriated under “SC Appellate Court Rule 608 Appointments” shall be used for “Termination of Parental  
24 Rights” cases and “Abuse and Neglect” cases to reimburse private attorneys who are appointed by the Family Court to represent  
25 guardians ad litem, children, or parents under the provisions of S.C. Code Sections 20-7-110 et seq., 20-7-1570 et seq., 20-7-1695

7 exceed three thousand five hundred dollars in any single felony case or one thousand dollars in any single misdemeanor case.

8 Reimbursement in excess of the hourly rate and limit set forth herein is authorized only if the court certifies, in a written order  
9 with specific findings of fact, prior to the fees being incurred, that reimbursement in excess of the rates or limit is necessary to provide  
10 reimbursement adequate to ensure effective assistance of counsel and reimbursement in excess of the limit is appropriate because  
11 the services to be provided are reasonable and necessary. If prior approval by written order of the court is not obtained, no additional  
12 fees shall be paid under any circumstances.

13 Upon a finding in ex parte proceedings that investigative, expert, or other services are reasonable and necessary for the  
14 representation of the defendant, the court shall authorize the defendant's attorney to obtain such services on behalf of the defendant  
15 and shall authorize the payment, from funds available to the Commission on Indigent Defense, of fees and expenses not to exceed  
16 five hundred dollars as the court considers appropriate. Payment in excess of the five hundred dollar limit is authorized only if the  
17 court certifies, in a written order with specific findings of fact, prior to the expense being incurred, that payment in excess of the  
18 limit is appropriate because the services to be provided are reasonable and necessary to provide adequate defense. Payments shall

30 **61.6.** (INDEF: Public Defender Fee) Every person placed on probation on or after July 1, 2003, who was represented by a public  
31 defender or appointed counsel, shall be assessed a fee of five hundred dollars. The revenue generated from this fee must be collected  
32 by the clerk of court and sent on a monthly basis to the Commission on Indigent Defense. However, if a defendant fails to pay this  
33 fee, this failure alone is not sufficient basis for incarceration for a probation violation. This assessment shall be collected and paid  
34 over before any other fees.

35 **61.7.** (INDEF: Defense of Indigents Civil Action Application Fee) (A) A person requesting appointment of counsel in any  
36 termination of parental rights (TPR), abuse and neglect, or any other civil court action in this state shall execute an affidavit that the

1 person is financially unable to employ counsel and that affidavit shall set forth all of the person's assets. This affidavit must be  
2 completed before counsel may be appointed. If it appears that the person has some assets but they are insufficient to employ private  
3 counsel, the court, in its discretion, may order the person to pay these assets or a portion thereof to the Commission on Indigent  
4 Defense.

5 (B) A forty dollar application fee for appointed counsel services must be collected from every person who executes an affidavit  
6 that they are financially unable to employ counsel. The person may apply to the court, the clerk of court, or other appropriate official  
7 for a waiver or reduction in the application fee. If it is determined that the person is unable to pay the application fee, the fee may  
8 be waived or reduced, provided that if the fee is waived or reduced, the clerk or appropriate official shall report the amount waived  
9 or reduced to the trial judge and the trial judge shall order the remainder of the fee paid by a time payment method or such method  
10 as the trial judge deems appropriate. The clerk of court or other appropriate official shall collect the application fee imposed by this  
11 section and remit the proceeds to the Commission on Indigent Defense on a monthly basis. The monies must be deposited in an  
12 interest-bearing account separate from the general fund and used only to provide for indigent defense services. The monies shall be  
13 administered by the Commission on Indigent Defense. The clerk of court or other appropriate official shall maintain a record of all  
14 persons applying for representation and the disposition of the application and shall provide this information to the Commission on  
15 Indigent Defense on a monthly basis as well as reporting the amount of funds collected or waived.

16 (C) In matters in which a juvenile is brought before a court, the parents or legal guardian of such juvenile shall execute the above  
17 affidavit based upon their financial status and shall be responsible for paying any fee. In matters concerning juveniles, the parents  
18 or legal guardians of said juvenile, shall be advised in writing of this requirement at the earliest stage of the proceedings against said  
19 juvenile.

20 (D) Nothing contained above shall restrict or hinder a court from appointing counsel in any emergency proceedings or where  
21 existing statutes do not provide sufficient time for an individual to complete the application process.

22 (E) The appointment of counsel, as herein before provided, creates a claim against the assets and estate of the person who is  
23 provided counsel or the parents or legal guardians of a juvenile in an amount equal to the costs of representation as determined by a  
24 voucher submitted by the appointed counsel and approved by the court, less that amount that the person pays to the appointed counsel.

25 (F) Such claim shall be filed in the office of the clerk of court in the county where the person is assigned counsel, but the filing  
26 of a claim shall not constitute a lien against real or personal property of the person unless, in the discretion of the court, part or all of  
27 such claim is reduced to judgment by appropriate order of the court, after serving the person with at least thirty days' notice that  
28 judgment will be entered. When a claim is reduced to judgment, it shall have the same effect as judgments, except as modified by  
29 this provision.

30 **61.8.** (INDEF: Exemption for Pass Through Funding) The funds distributed by the Commission on Indigent Defense to the

8       The commission shall establish all policies, procedures and contract provisions as it deems appropriate for the implementation of  
9 the system, including but not limited to the selection and compensation of contract awardees.

10       **61.12.** (INDEF: Optional Courts and Indigent Representation) If a municipality has or elects to have an optional municipal court  
11 system, it must provide adequate funds for representation of indigents. No public defender shall be appointed in any such court  
12 unless the municipality and the office of the circuit public defender have reached an agreement for indigent representation and no  
13 funds allocated to the commission shall be used to provide compensation for appointed counsel in municipal courts.

34 made only if the loss has resulted from actions by the employee deemed to be appropriate and in the line of duty by the agency head  
35 and if the damaged or destroyed item is found by the agency head to be reasonable in value, and necessary for the employee to carry

31 (I) No expense shall be allowed an employee either at his place of residence or at the official headquarters of the agency by  
32 which he is employed except as provided in paragraph E, of this section. When an employee is assigned to work a particular territory  
33 or district, and such territory or district and his official headquarters are in different localities or sections of the State, expenses may

13 to equal the standard business mileage rate as established by the Internal Revenue Service will be allowed for the use of such  
14 automobile and the employee shall bear the expense of supplies and upkeep thereof. The standard business mileage rate used in this  
15 calculation shall be the current rate established by the Internal Revenue Service. Whenever state provided motor pool vehicles are  
16 reasonably available and their use is practical and an employee of the State shall request for his own benefit to use his or her personal  
17 vehicle in traveling on necessary official business, a charge of four cents per mile less than the standard business mileage rate as  
18 established by the Internal Revenue Service will be allocated for the use of such vehicle and the employee shall bear the expense of  
19 supplies and upkeep thereof. The standard business mileage rate used in this calculation shall be the current rate established by the  
20 Internal Revenue Service. When such travel is by a state-owned automobile, the State shall bear the expense of supplies and upkeep  
21 thereof but no mileage will be allowed. Agencies and employees are directed to use state fueling facilities to the maximum extent  
22 possible, when such use is cost beneficial to the State. When using commercial fueling facilities, operators of State-owned vehicles

34 when such reimbursements are considered by the agency head to be essential to successful recruitment of professionally competent  
35 staff members.

1 (M) The Office of Comptroller General is authorized to promulgate and publish rules and regulations governing travel and

12 review and/or audit, when requested to do so by the State Fiscal Accountability Authority. From the funds an organization receives  
13 from a state agency, for accountability purposes, by June thirtieth organizations receiving contributions in this act shall submit a  
14 report to the state agency making the contribution that includes an accounting of how the funds were spent and the outcome measures  
15 used to determine the success of the stated goals. State agencies receiving such data from organizations shall forward the information  
16 to the Chairman of the Senate Finance Committee and the Chairman of the House Ways and Means Committee.

19 also be posted online. Any and all aircraft owned or operated by agencies of the State Government shall be used only for official  
20 business. The Division of Aeronautics and other agencies owning and operating aircraft may furnish transportation to the Governor,  
21 Constitutional Officers, members of the General Assembly, members of state boards, commissions, and agencies and their invitees  
22 for official business only; no member of the General Assembly, no member of a state board, commission, or committee, and no state  
23 official shall use any state-owned or operated aircraft unless the member or official files within twenty-four hours after the completion

25 no member of the General Assembly, no member of a state board, commission or committee, and no state official shall be furnished  
26 air transportation by a state agency unless such agency prepares and maintains in its files a sworn statement from the highest ranking  
27 official of the agency or its designee certifying that the member's or state official's trip was in conjunction with the official business  
28 of the agency. Official business shall not include routine transportation to and from meetings of the General Assembly or committee

11 appropriation reductions for the current fiscal year. Agencies shall not withhold services in order to carry forward general funds.

12 This provision shall be suspended if necessary to avoid a fiscal year-end general fund deficit. For purposes of this proviso, the  
13 amount of the general fund deficit shall be determined after first applying the Capital Reserve Fund provisions in Section  
14 11-11-320(D) of the 1976 Code, and before any transfers from the General Reserve. The amount of general funds needed to avoid  
15 a year-end deficit shall be reduced proportionately from each agency's carry forward amount.

16 Agencies which have separate general fund carry forward authority must exclude the amount carried forward by such separate  
17 authority from their base for purposes of calculating the ten percent carry forward authorized herein. Any funds that are carried  
18 forward as a result of this provision are not considered part of the base of appropriations for any succeeding years.

19 **117.24.** (GP: TEFRA-Tax Equity and Fiscal Responsibility Act) It is the intent of the General Assembly that the State Medicaid

32 for the prior fiscal year which shall be distributed to the Senate Finance Committee, the House Ways and Means Committee, and the  
33 Statehouse Press Room. The Comptroller General may use up to \$500 of general fund appropriations for the purpose of providing  
34 copies to the media or the public upon request. The report must contain a listing for every agency receiving an appropriation in the  
35 annual General Appropriations Act. The listing must show at a minimum the top ten percent of employees for whom travel expenses  
36 and registration fees were paid within each agency, not to exceed twenty-five employees per agency. Agencies should include

1 position titles for each of the top twenty-five travelers for each agency. Expenditures must include state, federal and other sources  
2 of funds. Expenditures for in-state and out-of-state registration fees (fees to attend conferences, teleconferences, workshops, or  
3 seminars for training on a per person basis) must be shown as a separate subtotal within the grand total for the individual employees  
4 and the agency as a whole. The list for each agency must be in rank order with the largest expenditure first and the name of the  
5 employee must be shown with each amount. Agencies should include a brief summary of the type of travel the agency incurs. The  
6 Comptroller General may provide additional information as deemed appropriate. The Comptroller General shall provide no  
7 exceptions to this report in that the information contained is not considered confidential or restricted for economic development  
8 purposes. However, further disclosure of detailed information shall be restricted as provided for by law.

9 **117.27.** (GP: School Technology Initiative) From the funds appropriated/authorized for the K-12 technology initiative, the  
10 Department of Education, in consultation with the Department of Administration, the State Library, the Educational Television  
11 Commission, and a representative from the Education Oversight Committee, shall administer the K-12 technology initiative funds.  
12 These funds are intended to provide technology, encourage effective use of technology in K-12 public schools throughout the state,  
13 conduct cost/benefit analyses of the various technologies, and should, to the maximum extent possible, involve public-private sector  
14 collaborative efforts. Funds may also be used to establish pilot projects for new technologies with selected school districts as part of  
15 the evaluation process. K-12 technology initiative funds shall be retained and carried forward to be used for the same purpose.

23 or before September fifteenth, for the purpose of a zero-base budget analysis and in order to ensure that the Agency Head Salary  
24 Commission has the accountability reports for use in a timely manner. Accountability Report guidelines shall require agencies to  
25 identify key program area descriptions and expenditures and link these to key financial and performance results measures. The  
26 Executive Budget Office is directed to develop a process for training agency leaders on the annual agency accountability report and  
27 its use in financial, organizational, and accountability improvement. Until performance-based funding is fully implemented and

3 agency shall notify the General Assembly within fifteen days of this determination and shall further request the Executive Budget  
4 Office to work with it to develop a plan to avoid the deficit. Within fifteen days of the deficit avoidance plan being completed, the

6 will not be sufficient to avoid a deficit or notify the General Assembly of how the deficit will be avoided based on the deficit  
7 avoidance plan if the Executive Budget Office determines the plan will be sufficient to avoid a deficit.

8 Upon notification from the Executive Budget Office that an agency will run a deficit and requesting that it be recognized, the  
9 General Assembly, by joint resolution, may make a finding that the cause of, or likelihood of, a deficit is unavoidable due to factors

- 10 (2) to request data similar to the information contained in the report required by Section 17-22-1120 from private organizations  
11 for which programs are operated through a court and that divert individuals from prosecution, incarceration, or confinement, such as  
12 diversion from incarceration for failure to pay child support, and for which programs are sanctioned by, coordinated with, or funded  
13 by federal, state, or local governmental agencies;
- 14 (3) (a) to calculate:

23 Speaker of the House of Representatives, the Chief Justice of the South Carolina Supreme Court, and the Governor. The report also  
24 shall recommend whether or not to appropriate up to thirty-five percent of any state expenditures that are avoided as calculated in  
25 item (3)(a) to the Department of Probation, Parole and Pardon Services. With respect to the recommended appropriations in this item  
26 (c), none of the calculated savings shall be recommended for appropriation for that fiscal year if there is an increase in the percentage  
27 of individuals supervised by the Department of Probation, Parole and Pardon Services who are convicted of a new felony offense as  
28 calculated in subitem (3)(a)(ii);
- 29 (d) any funds appropriated during this fiscal year pursuant to the recommendations in item (c) shall be used to supplement,

11 activities.

12 **117.160.** (GP: Food Preparation and Service) In the current fiscal year and from the funds appropriated or authorized to the  
13 Department of Revenue, the department shall consider an establishment as a business that is bona fide engaged primarily and  
14 substantially in the preparation and serving of meals if the establishment meets all criteria required by law and generates at least  
15 15% of its revenue from the sale of food.

16 **117.161.** (GP: Job Order Contracting Pilot Program) Procurement Services of the State Fiscal Accountability Authority may  
17 pilot test a job order contracting method on behalf of one or more governmental bodies or public procurement units by entering into  
18 job order contracts to acquire construction services when the exact time or exact quantities of future jobs are not known at the time  
19 of contract award. Procurement Services shall determine, in its sole discretion, which governmental bodies and public procurement  
20 units may participate in the pilot project. Procurement Services may enter into job order contracts with up to four businesses for  
21 each geographic area for each licensing classification and sub-classification for construction. Licensing classification and sub-  
22 classification is defined by Chapter 11 of Title 40 of the 1976 Code. Except as otherwise provided in this provision, a job order  
23 contract must be procured as provided for in the South Carolina Procurement Code. All bidders shall be prequalified as provided  
24 for in Section 11-35-1520(11) and the State Engineer or his designee shall supervise the prequalification process. Procedures and  
25 requirements for the notification of intent to award the contracts shall follow those provided in Section 11-35-1520(10). For the  
26 current fiscal year, Section 11-35-3023 shall not apply to contracts awarded pursuant to this provision.

27 For purposes of this provision the term 'job order contract' means a contract that provides for the issuance of job orders for the  
28 performance of construction, renovation, and repair work, where contractors propose an adjustment factor or factors to be applied  
29 to a catalog of preset unit prices calculated using local prevailing wage rates, local equipment and local material costs, and where  
30 individual job orders are issued to the awarded contractors on an as needed basis and the price paid for the work is a lump sum of  
31 the preset unit prices needed to complete the job order multiplied by the quantity required multiplied by the adjustment factor.

32 For purpose of the pilot project, a job order contract may not exceed five years, including extensions. The sum of all individual  
33 job orders may not exceed four million dollars per contract annually. Any unused capacity from the prior year may be carried over  
34 for one year and be added to the current year's limit. The maximum annual volume including unused capacity shall not exceed the  
35 limit of two years. A single project must not be performed using job order contracts in combination with contracts awarded pursuant  
36 to Section 11-35-1550.

1 A job order must clearly specify all tasks to be performed or property to be delivered under the order so the full price for the  
2 performance of the work can be established when the order is placed. All job orders must be issued on a fixed-price basis. All job  
3 orders must be issued within the period of the contract and must be within the scope and maximum value of the contract. An  
4 individual project using job orders may not exceed five hundred thousand dollars. Work may not be divided artificially in order to  
5 avoid these limits. Each job order shall provide an itemized list of each construction tasks required to complete the work with the  
6 task's associated unit price and applied adjustment factor. Each job order proposal shall be certified as contract compliant by a  
7 reviewer independent of the contractor.

8 Any solicitation for a job order contract must include the following:

9 (1) the period of the contract, including the number of options to extend the contract and the period for which the contract  
10 may be extended under each option, if any;

11 (2) the maximum dollar value of the services to be procured under the contract;

12 (3) the maximum dollar value of the services to be procured under a single job order;

13 (4) a description that reasonably describes the licensing classification and the general scope, nature, complexity, and purposes  
14 of the services to be procured under the contract in a manner that will enable a prospective bidder to decide whether to submit a  
15 bid;

16 (5) the procedures that the governmental body will use for issuing job orders, which may be on a rotation or some other  
17 method deemed appropriate by the governmental body except that soliciting quotes for individual job orders shall be prohibited;

18 (6) if applicable, the geographic area to which the job order contract applies. Ordinarily, a geographically contiguous area  
19 should not be subdivided; and

20 (7) the number of job order contracts to be awarded.

21 Administrative review under Article 17 is not available for the award of an individual job order, except for a protest of the award  
22 of a job order on the grounds that the order increases the scope, period, or maximum value of the job order contract under which  
23 the order is issued.

24 **117.162.** (GP: Santee Cooper Competitive Bidding Process/Management Proposals) (A) The Department of Administration shall  
25 establish a process to conduct a competitive bidding process for the sale of some or all of the Public Service Authority ("Santee  
26 Cooper") and to receive management proposals that do not involve a sale of Santee Cooper but are designed to improve the efficiency  
27 and cost-effectiveness of Santee Cooper's electric operations, including but not limited to, a management arrangement, joint venture  
28 or alternative arrangement. This process shall not be limited to the individuals or entities that responded to ICF's Requests for  
29 Expressions of Interest for its February 1, 2019 report to the Public Service Authority Evaluation and Recommendation Committee.  
30 The department shall resume the competitive bidding process and receipt of management proposals that do not involve a sale of  
31 Santee Cooper from the February 1, 2019 ICF Requests for Expressions of Interest; provided however, that the department shall,  
32 for a period of time set by the department, (1) allow any individual or entity submitting bids or management proposals the option to  
33 resubmit, modify, or replace its prior submission to ICF and (2) allow other individuals or entities to submit offers for sale of some  
34 or all of Santee Cooper or management proposals that do not involve a sale of Santee Cooper but are designed to improve the  
35 efficiency and cost-effectiveness of Santee Cooper's electric operations, including but not limited to, a management arrangement,  
36 joint venture or alternative arrangement. Santee Cooper shall also submit a proposal to the department, as an alternative to a sale

1 or management proposal, setting forth its plans for reform, restructuring and changes in operation. Santee Cooper's proposal shall  
2 be given to the department simultaneously with the sale and management proposal deadline set by the department. This process  
3 must be established in accordance with commercially reasonable terms that are customary in connection with bids and proposals of  
4 this type. Nothing in this joint resolution precludes the department, through its professional services experts, from negotiating with  
5 entities offering bids, management proposals or Santee Cooper to improve their proposal. The department shall determine the date  
6 when the bids and proposals must be received; however, the process to receive bids, management proposals and Santee Cooper's  
7 proposal shall be concurrent.

8 The department shall procure such professional services that are necessary to qualify bids and proposals; conduct a sale; evaluate  
9 bids received for a sale, management proposals, and Santee Cooper's proposal; and, negotiate contracts for the consummation of a  
10 sale or a management proposal, and related activities. These professional services shall include, but may not be limited to, financial  
11 institutions, investment bankers, legal counsel, industry consultants and utility consultants.

12 The department must not utilize the professional services of an individual or entity that would have a financial interest in the  
13 outcome of this process, nor may the department contract or otherwise employ an individual or entity based upon a contingency fee  
14 due to the outcome of this process. The department must not utilize the professional services of an individual or entity that has  
15 engaged in a substantive commercial, fee-earning or services relationship since January 1, 2018 with any party that has submitted  
16 a conforming bid into the ICF-led Requests for Expressions of Interest process earlier this year.

17 Staff from the State Fiscal Accountability Authority's Procurement Services Division shall assist the department in conducting the  
18 competitive bidding process and reviewing management proposals and procuring necessary professional services.

19 Santee Cooper is directed to provide any and all resources necessary to assist in the process for competitive bids and management  
20 proposals, as well as the evaluation of the bids and management proposals received by the department. Due diligence material  
21 provided to the bidders and those making management proposals shall include any significant information Santee Cooper is utilizing  
22 in making its own proposal. The department shall have the authority to consult with Santee Cooper's bondholders, underwriters,  
23 financial institutions, and any other advisors to gather information to assist the department in carrying out its responsibilities, and  
24 Santee Cooper shall be cooperative in providing the department with access to the bondholders, underwriters, financial institutions,  
25 and other advisors. Santee Cooper shall ensure that the bidders have full access to due diligence materials and fair opportunity for  
26 access to Santee Cooper staff, and shall ensure that its responses to any inquiries are timely.

27 (B) The department shall conduct a thorough evaluation of all bids for the sale of Santee Cooper received through the competitive  
28 bidding process. The evaluation must take into account at least the following:

33 (b) issuance of new bonds and plans to finance other indebtedness;

34 (c) the projected financial impact on all customer classes of Santee Cooper's retail customers for the satisfaction  
35 of existing debt and issuance of new bonds and finance of other indebtedness; and

- 1           (3) consideration, in cash, to be paid by the bidder to the State for the benefit of South Carolina and its taxpayers;  
2           (4) the amount of projected rates and revenue requirements for each customer class of Santee Cooper's retail customers  
3 over the next 20 years and plans demonstrating how these rates can be achieved, and the bidder's willingness to contractually agree  
4 to those rates;  
5           (5) the bidder's plans for generation, power purchases, and other resources over the next 20 years, including but not  
6 limited to:  
7                 (a) the forecasted demand;  
8                 (b) a timeline of when those plans would be put in place;  
9                 (c) the projected financial impact to Santee Cooper's retail customers; and  
10                (d) the assumptions underlying its plans, including but not limited to, additional infrastructure required to support  
11 any generating unit, the projected rate base, debt-to-equity ratios, authorized return on equity, inflation and cost escalation rates,  
12 fuel costs, tax rates, assumed tax abatements, credits and payments in lieu of taxes and projected GAAP accounting financial  
13 statements of the rate projections;  
14           (6) the bidder's plans for transmission investment over the next 20 years, including but not limited to:  
15                 (a) a timeline of when those investments will be needed;  
16                 (b) the projected financial impact to Santee Cooper's retail customers; and  
17                 (c) the assumptions underlying those plans, including but not limited to, projected rate base, debt-to-equity ratios,  
18 authorized return on equity, inflation and cost escalation rates, fuel costs, tax rates, assumed tax abatements, credits and payments  
19 in lieu of taxes, and projected GAAP accounting financial statements of the rate projections;  
20           (7) the bidder's willingness to bear any costs required by the Federal Energy Regulatory Commission to mitigate market  
21 power resulting from an acquisition of Santee Cooper;  
22           (8) the bidder's provision of reasonable financial and other protections for Santee Cooper employees and retirees in a  
23 manner that would not impact South Carolina's pension system liability or the liability associated with providing health insurance  
24 coverage to employees who have retired from employment at Santee Cooper;  
25           (9) a projection of the jobs the bidder expects to eliminate within five years if it acquires Santee Cooper;  
26           (10) the bidder's proposed location for its headquarters post-acquisition;  
27           (11) whether bid included or excluded the assets collectively included under FERC License 199, the wholesale water  
28 systems operated by Santee Cooper, undeveloped lands, other natural resources and recreational assets of Santee Cooper. In the  
29 event that the bid excludes the assets listed herein, each bidder shall provide for revenue streams, including the purchase of  
30 hydroelectric power generated from Project 199, to provide for the continued operation of Lakes Marion and Moultrie with no loss  
31 of quality or access;  
32           (12) the bidder's capacity and willingness to partner with the State for future economic development projects;  
33           (13) a comparison of the bidder's service territory in South Carolina, if the bid is successful, with investor-owned utilities  
34 serving South Carolina; and  
35           (14) any terms or conditions the bidder would require to complete the purchase of Santee Cooper.

1 The bidder must also submit its regulatory filings within the past seven years from each state where the bidder provides electric  
2 service that are related to the bidder's forecasts for electric generation, transmission, and distribution; requests for generation  
3 and/or transmission projects; electric rate requests made by the bidder; and requests to acquire, merge with, or manage another  
4 electric utility, and the final disposition of each request.

5 The department must:

6 (1) verify the information provided by the bidder, to the extent possible, and may request additional information from the  
7 bidder if needed to conduct its verification;

8 (2) establish a list of items that would be excluded from the sale of Santee Cooper's electric utility assets, including but not  
9 limited to, the wholesale water systems operated by Santee Cooper, undeveloped lands, other natural resources and recreational  
10 assets of Santee Cooper;

11 (3) conduct an analysis as to the potential risks to South Carolina taxpayers, Santee Cooper's retail customers, and Santee  
12 Cooper's bondholders, that could result from the sale of Santee Cooper, either in whole or in part. This analysis must include, but  
13 is not limited to, the loss of tax-exempt status of a buyer, impact on economic development, and whether the bid would preclude  
14 South Carolina from recovering the full value of Santee Cooper;

15 (4) compare the bidder's financing options for anticipated projects with the financing options currently available to Santee  
16 Cooper;

17 (5) require that the bidder's projected ratebase for all of Santee Cooper's retail customers exclude any portion of debt  
18 attributed to V.C. Summer nuclear units 2 and 3 that is not considered to be used and useful, as determined by the professional  
19 services experts and the Office of Regulatory Staff;

20 (6) consider if the bidder is committed to keeping its headquarters in South Carolina post-acquisition;

21 (7) consider if the bidder intends to, and has the capability to, provide electric services in South Carolina for at least 20 years;  
22 and

23 (8) engage a third party to administer the procurement and dissemination of information from Santee Cooper to third party  
24 bidders in order to ensure consistency, proper characterization and accuracy of information provided.

25 (C) The department shall conduct a thorough evaluation of all management proposals for Santee Cooper. The evaluation must  
26 take into account at least the following:

27 (1) terms and conditions of the proposal, including the proposed time period for the management proposal;

28 (2) the amount of projected rates for each customer class of Santee Cooper's retail customers over the next 20 years and  
29 plans demonstrating how these rates can be achieved;

31 to that entity resulting from the proposal;

32 (4) projected needs for generation, transmission and distribution during the period of the proposal and how those needs  
33 would be met;

34 (5) an opinion letter from a bond attorney that the management proposal would neither violate nor alter the terms of  
35 Santee Cooper's bonds and other indebtedness;

36 (6) an opinion letter from a tax attorney that the proposal would not impact Santee Cooper's current tax status;

1 (7) the proposer's experience with the type of arrangement as proposed with an investor-owned utility and a publicly  
2 owned utility;

3 (8) the impact the management proposal would have on Santee Cooper's employees, including but not limited to, any  
4 projected elimination of positions within the next five years, if any;

5 (9) the financial capability of the entity offering the proposal;

6 (10) a comparison of the service territory in South Carolina of the entity offering the proposal, if the proposal is successful,

9 report to the Governor, the President of the Senate, and the Speaker of the House of Representatives regarding the implementation  
10 of the management plan, including but not limited to, plans for the next calendar year and accomplishments and challenges for the  
11 prior calendar year.

12 The department must:

13 (1) verify the information provided by the entity submitting the management proposal, to the extent possible, and may request  
14 additional information if needed to conduct its verification;

15 (2) conduct an analysis as to the potential risks to South Carolina taxpayers, Santee Cooper's retail customers, and Santee  
16 Cooper's bondholders, that could result from the management proposal;

17 (3) compare the proposing entity's financing options for anticipated projects with the financing options currently available to  
18 Santee Cooper; and

19 (4) consider if the proposing entity offers to pay a franchise fee or another form of consideration to the State of South Carolina  
20 as a condition of the management proposal.

21 (D) Santee Cooper must submit a proposal to the department for reform, restructuring and changes in operation that must include,  
22 but is not limited to:

23 (1) its plans for generation, power purchases, and other resources over the next 20 years, including but not limited to:

24 (a) the forecasted demand;

25 (b) a timeline of when those plans would be put in place;

26 (c) the projected financial impact to all customer classes of ratepayers;

27 (d) the assumptions underlying its plans, including but not limited to, additional infrastructure required to support  
28 any generating unit, projected financial ratios, including debt-to-equity and debt service coverage ratios, projected contribution  
29 percentages to the Capital Improvement Fund, inflation and cost escalation rates, fuel costs, and payments to the State and other  
30 sums in lieu of taxes; and

31 (e) the amount of projected rates and revenue requirements for each customer class of Santee Cooper's retail  
32 customers over the next 20 years and plans demonstrating how these rates can be achieved;

33 (2) its plans for transmission investment over the next 20 years, including but not limited to:

34 (a) a timeline of when those investments will be needed;

35 (b) the projected financial impact to all classes of its retail customers; and

1                   (c) the assumptions underlying its plans, including but not limited to, projected financial ratios, including debt-  
2 to-equity and debt service coverage ratios, projected contribution percentages to the Capital Improvement Fund inflation and cost  
3 escalation rates, fuel costs, and payments to the State and other sums in lieu of taxes;

4                   (3) its plans to address the V.C. Summer debt and the projected impact to all customer classes of its ratepayers;

5                   (4) a proposal for Santee Cooper reform, restructuring and operational changes;

6                   (5) any other information Santee Cooper deems relevant as to future operations as a state asset;

7                   (6) the projected financial impact on all customer classes of Santee Cooper's retail customers for the satisfaction of  
8 existing debt and issuance of new bonds and finance of other indebtedness; and

9                   (7) a projection of the jobs Santee Cooper expects to eliminate within five years.

10                  The department must verify the information provided by Santee Cooper, to the extent possible, and may request additional  
11 information if needed to conduct its verification. The department must also conduct an analysis to determine if the proposal is  
12 feasible. As part of the analysis, the department will:

13                  (1) compare Santee Cooper's rate projections with all other proposals on a comparable basis and assess the risks  
14 associated with Santee Cooper's projections of revenue requirements and consumer rates;

15                  (2) Conduct an analysis as to the potential risk to South Carolina taxpayers, Santee Cooper's retail customers and Santee  
16 Cooper's bondholders; and

17                  (3) Determine if changes are needed to the Santee Cooper enabling legislation to make the Santee Cooper proposal  
18 successful.

19                  If Santee Cooper's proposal to reform its operations is accepted by the General Assembly, Santee Cooper shall submit an annual  
20 report to the Governor, the President of the Senate, and the Speaker of the House of Representatives regarding the implementation  
21 of its plan, including but not limited to, plans for the next calendar year and accomplishments and challenges for the prior calendar  
22 year.

23                  (E) The Department of Administration shall establish a process in which its professional services experts oversee confidential  
24 negotiations between Central Electric Power Cooperative, Inc. ("Central") and each entity that is determined to be qualified to  
25 submit a bid to purchase Santee Cooper or a proposal to manage Santee Cooper. The department shall first establish a process by  
26 which parties interested in making offers to purchase or proposals to manage Santee Cooper can demonstrate that they are qualified  
27 to meet the requirements set out in this joint resolution. Once the qualification process is finalized, those parties determined by the  
28 department to be qualified shall undertake negotiations with Central pursuant to a process overseen by the department's professional  
29 services expert. Santee Cooper shall also conduct negotiations with Central pursuant to a process overseen by the department's  
30 professional services expert. No negotiations or any form of discussion regarding potential terms or conditions for an agreement  
31 with Central can occur outside of the process established by the department. The department shall require that the parties enter into  
32 a contract to negotiate in good faith, as well as any other conditions for negotiation as determined by the department. Each entity  
33 that submitted a bid or proposal, including Santee Cooper, must individually negotiate with Central to determine terms for a binding  
34 contract between Central and that entity in the event the entity's bid or proposal is successful. If the professional services experts  
35 conducting the negotiations determine that one or more parties, including Central, is not negotiating in good faith, that negotiation  
36 shall be terminated and the professional services experts may submit terms they determine to be reasonable and in the best interests

1 of Santee Cooper's customers and of the State of South Carolina and its taxpayers to the General Assembly. The General Assembly  
2 may consider a party's failure to negotiate in good faith as a disqualification of the bid or proposal.

3 (F) Following the negotiations between Central and each entity which submitted a bid or proposal, the professional services  
4 experts shall review the projected financial impact on Santee Cooper's retail customers to ensure that any increases or decreases to  
5 current rates for the retail and wholesale customers are initially proportionate.

6 (G) (1) To protect the integrity of the process, information received during this process and ensuing negotiations must be  
7 confidential prior to the department providing its professional services experts' recommendations to the General Assembly. Each  
8 individual and entity involved in the process shall handle the information with sufficient care to prevent disclosure of information  
9 submitted, received or reviewed during the process. After the department has provided its professional services experts'  
10 recommendations to the General Assembly, only information regarding those recommendations shall be released in accordance with  
11 the provisions of the Freedom of Information Act, provided that information described in Section 30-4-40 of the 1976 Code must not  
12 be released without the written permission of the entity whose bid or proposal was recommended. In order to effectuate the purposes  
13 of this paragraph, the department shall require non-disclosure agreements which must be entered into by each individual or entity  
14 involved in the process, including but not limited to, an individual or entity that submits a bid or proposal, or receives or reviews  
15 any part of the submission. The non-disclosure agreement must also contain a provision in which the signer agrees that neither it  
16 nor its agents, servants, officers, directors or employees, except as provided in subsection (G)(2), shall advocate for or against,  
17 directly or indirectly, a recommendation provided by the department to the General Assembly pursuant to Section (H). Members of  
18 the General Assembly, the Governor, and their respective staff must not be provided with, or have access by any means to, the  
19 information obtained during this process except as provided in this section.

20 (2) If any person or entity that is bound by the provisions of subsection 1 of this section is required by its governance  
21 structure, fiduciary responsibilities or regulatory requirements to communicate information about the report provided by the  
22 department to the General Assembly pursuant to Section H, the substance of such communications shall be reduced to writing and  
23 a copy provided to the General Assembly. Any such communication must be signed by the person or entity making it. This exception  
24 shall not be construed to allow advocacy for or against a recommendation in the department's report.

25 (H) (1) At the conclusion of the evaluation of the bids and proposals, and negotiations, as required by this joint resolution, but  
26 no later than December 1, 2019, the department shall concurrently present a recommendation by its professional service experts of  
27 one bid for sale and one management proposal that the professional service experts consider to be in the best interests of the State,  
28 its taxpayers, and the customers of Santee Cooper, as well as the recommendation for Santee Cooper's proposal. Each  
29 recommendation must include justifications for the recommendation; also, the recommendations in regard to the sale and  
30 management proposal must include a contract for each recommended bidder obligating the bidder to comply with terms of its bid in  
31 the event it is approved by the General Assembly, along with a proposed contract to execute the sale or management proposal, and  
32 any supporting documents. The proposed contracts must include covenants that the bidder will abide by the terms of its bid for sale  
33 or its proposal, as applicable. The department must also present a full evaluation of each recommendation and for Santee Cooper's  
34 proposal. An evaluation must include, but not be limited to: (a) a description of each item listed in Sections B, C or D, as applicable,  
35 along with a copy of an opinion letter submitted by a bond attorney and/or tax attorney; (b) a proposed contract with Central Power  
36 Electric Cooperative, Inc., including a statement from the professional service experts involved in the negotiations that each party

1 did or did not negotiate in good faith; (c) the Office of Regulatory Staff's commentary; (d) any recommendations or concerns from  
2 the department's professional services; and (e) any supporting documents.

3 The department must enter into a contract with each entity that submitted a bid for sale or management proposal that establishes  
4 penalties for failure to proceed with finalizing the sale or management proposal in the event the bid or proposal is selected by the  
5 General Assembly. This contract must include, but is not limited to, earnest money to be paid upon a recommendation of that entity  
6 being made to the General Assembly and penalties for failure to finalize the terms of the bid or proposal upon selection by the  
7 General Assembly.

8 (2) The department shall present to the Chairman of the Senate Finance Committee and the Chairman of the House of  
9 Representatives Ways and Means Committee the documents described in subsection (H)(1). The Senate Finance Committee and the  
10 House Ways and Means Committee shall each meet as soon as practicable to review each recommendation presented by the  
11 department and determine which recommendation to approve. Each committee shall make a recommendation within 30 days of  
12 receipt of the recommendations presented by the department. Upon receipt of the recommendation from their respective committees,  
13 the President of the Senate and the Speaker of the House shall convene their respective bodies and each body shall, within 30 days  
14 of receipt of the committee recommendation, approve or disapprove the legislation needed to effectuate the sale or management  
15 proposal or to implement reform, restructuring and changes in operation at Santee Cooper. Such legislation shall be in the form of  
16 a resolution approving the contract for sale or management or approving Santee Cooper's reform proposal. The question before  
17 each body shall then be the approval of the contract or proposal which must be decided by a vote of "yeas" or "nays."

18 (3) In the event that the General Assembly approves the sale of Santee Cooper, the department must execute any documents  
19 necessary in order to effectuate the sale upon the enactment of a joint resolution approving the sale. The net proceeds of the sale  
20 shall be deposited in the General Fund of the State, and such amounts may never be recoverable in rates or otherwise by the  
21 purchaser.

22 (4) In the event that the General Assembly approves a management proposal, the department must execute any documents  
23 necessary in order to effectuate the proposal upon the enactment of a joint resolution approving the proposal.

24 (5) It is the intent of the General Assembly that this provision is the sole governing instrument regarding the sale or  
25 management of Santee Cooper and that a vote of the General Assembly in favor of approving the sale or management of Santee  
26 Cooper is sufficient to authorize the department to execute the sale.

27 (1) The provisions of the Consolidated Procurement Code in Chapter 35, Title 11 of the 1976 Code, the provisions of Chapter  
28 31, Title 58 relating to the South Carolina Public Service Authority, and any other provisions of the general law of this State in  
29 conflict with this provision, are hereby suspended with regard to the activities undertaken herein.

30 **117.163.** (GP: Fire Department Definition) For all funds collected solely for the purpose of disbursing funds from the aid to fire  
31 district account within the State Treasury, as directed by Section 38-7-20 (B) (2) of the 1976 Code, a fire department shall be defined  
32 as having a charter from the Office of the State Fire Marshal. These funds shall be sent from the State Treasury to the Department  
33 of Labor, Licensing and Regulation to be disbursed equally among the chartered fire departments.

34 **117.164.** (GP: Growing Rural Economies with Access to Technology (GREAT) Program) (A) There is established the Growing  
35 Rural Economies with Access to Technology (GREAT) program to facilitate the deployment of broadband to unserved areas of the

1 State. The purpose of this program is to encourage the deployment of broadband at the highest possible speeds throughout as much  
2 of the inhabitable geographic area of the State that is practical and feasible by the year 2030.

3 (B) For purposes of this provision:

4 (1) 'Agriculture' means:

5 (a) the cultivation of soil for production and harvesting of crops including, but not limited to, fruits, vegetables, sod,  
6 flowers, and ornamental plants;

11 (e) the operation, management, conservation, improvement, and maintenance of a farm and the structures and  
12 buildings on the farm, including building and structure repair, replacement, expansion, and construction incident to the farming  
13 operation;

14 (f) when performed on the farm, 'agriculture', 'agricultural', and 'farming' also include the marketing and selling of  
15 agricultural products, agritourism, the storage and use of materials for agricultural purposes, packing, treating, processing, sorting,  
16 storage, and other activities performed to add value to crops, livestock, and agricultural items produced on a farm, and similar  
17 activities incident to the operation of a farm; or

18 (g) a public or private grain warehouse or warehouse operation where grain is held ten days or longer and includes,  
19 but is not limited to, all buildings, elevators, equipment, and warehouses consisting of one or more warehouse sections and  
20 considered a single delivery point with the capability to receive, load out, weigh, dry, and store grain.

21 (2) 'Authority' means the South Carolina Rural Infrastructure Authority.

22 (3) 'Broadband service' means terrestrially-deployed Internet access service with transmission speeds of at least twenty-five  
23 megabits per second (Mbps) download and at least three megabit per second upload.

24 (4) 'Cooperative' means a telephone membership corporation, organized pursuant to Article 1, Chapter 46, Title 33.

25 (5) 'Director' means the Executive Director of the South Carolina Rural Infrastructure Authority.

26 (6) 'Eligible economically-distressed county' means a county designated as a Tier IV or Tier III county as defined in Section  
27 12-6-3360.

28 (7) 'Eligible project' means a discrete and specific project located in an unserved area of an economically-distressed county  
29 seeking to provide broadband service to homes, businesses, and community anchor points not currently served. Eligible projects do  
30 not include middle mile, backhaul, and other similar projects not directed at broadband service to end users. The designated area  
31 for an eligible project may not be smaller than a census block.

32 (8) 'Eligible recipient' means private providers of broadband services, including cooperatively organized entities, or any  
33 partnerships formed between cooperatively organized entities, private providers, or any combination thereof. To be considered an  
34 'eligible recipient' there must be either a demonstrated success in having previously managed retail end-user networks with proof of  
35 acceptable customer satisfaction, or the 'eligible recipient' must hold a contract with such an entity to actually provide service over  
36 the facilities being funded.

1           (9) 'Household' means a house, apartment, single room, or other group of rooms, if occupied or intended for occupancy as  
2 separate living quarters, and where the occupants do not live with any other persons in the structure, and there is direct access from

4           (10) 'Infrastructure costs' means costs directly related to the construction of broadband infrastructure for the extension of  
5 broadband service for an eligible project, including installation, acquiring or updating easements, equipment, fiber, construction,  
6 backhaul infrastructure, and testing costs. The term does not include overhead or administrative costs.

7           (11) 'Unserved area' means a designated geographic area where at least ninety percent of households are presently without  
8 access to fixed, terrestrially-deployed broadband at speeds of at least ten Mbps download and at least one Mbps upload. Areas  
9 where a private provider has been designated or has applied to receive funds through other state or federally-funded programs  
10 designed for broadband deployment must be considered served if the funding is intended to result in construction of facilities in the  
11 area within twenty-four months.

12           (C) (1) The Growing Rural Economies with Access to Technology Fund is established as a special revenue fund in the South  
13 Carolina Rural Infrastructure Authority, with amounts to be appropriated by the General Assembly. The director may award grants  
14 from the fund to eligible recipients for eligible projects. The funds must be used by the recipient to pay for infrastructure costs  
15 associated with an eligible project. To ensure consumers served by the infrastructure funded by this program are actually receiving  
16 the service intended and that the network is properly maintained, the recipients are subject to applicable rules and regulations  
17 governing other similar providers or others receiving state support to provide communication services and are subject to the  
18 authority of the Office of Regulatory Staff regarding inspections, audits, or examinations, as set forth in Section 58-4-50 of the 1976  
19 Code. The authority and the Office of Regulatory Staff are authorized to share relevant information with each other for the purpose  
20 of carrying out their respective tasks.

21           (2) Project areas comprised of census blocks, or portions thereof, within which a broadband provider is receiving state or  
22 federal matching funds to deploy technologically neutral scalable broadband facilities within the next twenty-four months are  
23 ineligible for the GREAT program. It is essential for the authority to know the location of census blocks, or portions thereof,  
24 comprising these areas so it can determine project eligibility. A private provider receiving state or federal matching funds to deploy  
25 broadband facilities within the area shall, before January 1, 2020, submit only a listing of the census blocks, or portions thereof,  
26 comprising each of its federally-funded project areas meeting this requirement and nothing more to the authority and thereafter shall  
27 submit this census block data by May fifteenth. The authority only shall utilize this data to update maps of census blocks to reflect  
28 these census blocks, or portions thereof, as being served. Information provided to the Office of Regulatory Staff pursuant to this  
29 paragraph is exempt from public disclosure pursuant to Chapter 4, Title 30.

30           (3) Applications for grants must be submitted at times designated by the director and, at a minimum, must include:

31           (a) an attestation to the office that the proposed project area is eligible;

32           (b) evidence demonstrating the applicant's experience and ability in building, operating, and managing Broadband

33 Service networks serving residential customers;

34           (c) the total cost and duration of the project;

35           (d) the amount to be funded by the applicant;

- 1           (e) an illustration or description of the area to be served and the number of homes, businesses, community-anchor  
2 points, agricultural operations, or agricultural processing facilities that have access to broadband service as a result of the project;  
3           (f) an assessment of the current level of access to broadband service in the proposed deployment area and the current  
4 level of service provided at the point from which broadband deployment is made;  
5           (g) the proposed construction time line, with specific annual build-out percentage commitments;  
6           (h) a description of the services to be provided, including the proposed upstream and downstream broadband speeds  
7 to be delivered and any applicable data caps, provided that any applicant proposing a data cap below one hundred fifty gigabytes  
8 of usage each month shall provide justification to the satisfaction of the office that the proposed cap is in the public interest and  
9 consistent with industry standards;  
10           (i) any other information or supplementary documentation requested by the office;  
11           (j) for the proposed area to be served, the infrastructure cost for each household for the project;  
12           (k) evidence of support for the project from citizens, local government, businesses, and institutions in the community;  
13           (l) the proposed advertised speed to be marketed to end users;  
14           (m) an explanation of the scalability of the broadband infrastructure to be deployed for higher broadband speeds in the  
15 future;  
16           (n) proof that appropriate interconnection agreements and physical pathways to transport consumer broadband traffic  
17 to the internet exist;  
18           (o) a five-year business plan demonstrating that the project in question is a viable business and that operating costs,  
19 including capital cost, can be supported from operations; and  
20           (p) evidence of successful operation of retail services, including evidence of appropriate customer satisfaction, or  
21 evidence that an operating contract exists with a third party that can meet these requirements.  
22           (4) Applications must be made publicly available by posting on the website of the authority for a period of at least thirty  
23 days before award. During the thirty-day period, any interested party may submit comments to the director concerning any pending  
24 application. A provider of broadband services may submit a protest of any application on the grounds the proposed project covers  
25 an area that is not an eligible area pursuant to this provision. Protests must be submitted in writing, accompanied by all relevant  
26 supporting documentation and must be considered by the authority in connection with the review of the application. For applications  
27 with filed protests, the director shall issue a written decision to the protesting party at least fifteen days before the approval of that  
28 application. The authority may not award any grants to fund deployment in an area that fails to meet the criterion for being unserved.  
29 Appeals may be made to the Administrative Law Court pursuant to the Administrative Procedures Act.  
30           (5) The authority may consult with the Department of Commerce to determine if an eligible project proposed pursuant to  
31 this provision will benefit a potential economic development project relevant to the proposed area outlined in the eligible project.  
32           (6) Applications must be scored based upon a system that awards a single point for criteria considered to be the minimum  
33 level for the provision of broadband service with additional points awarded to criteria that exceed minimum levels. The authority  
34 shall score project applications in accordance with the following:  
35           (a) projects involving service by a South Carolina-based company, a company that historically has provided broadband  
36 service, or that has existing facilities in close proximity to the designated area, must be given five points in its application score

1 where it is documented to the satisfaction of the authority that service by the company will facilitate deployment and reduce cost for  
 2 each housing unit by utilizing existing resources, facilities, and infrastructure;

3 (b) the authority shall give additional points to projects based upon the estimated number of unserved households  
 4 within the eligible economically-distressed county, as determined by the most recent data published by the Federal Communications  
 5 Commission or any other reliable information available to the authority. Points are given as follows:

6 (1) projects that will be located in counties with estimated unserved households of seven hundred or less receive  
 7 one point;

8 (2) projects that will be located in counties with estimated unserved households of between seven hundred and  
 9 one thousand ninety-nine receive two points; and

10 (3) projects that will be located in counties with estimated unserved households of two thousand and over receive  
 11 three points;

12 (c) the authority shall give additional points to projects that will provide broadband service to unserved households  
 13 within the eligible economically-distressed county, as determined by the most recent data published by the Federal Communications  
 14 Commission or any other reliable information available to the authority. Points are given as follows:

15 (1) projects proposing to serve less than one hundred fifty unserved households within the project area receive  
 16 one point;

17 (2) projects proposing to serve between one hundred fifty and two hundred forty-nine unserved households within  
 18 the project area receive two points; and

19 (3) proposing to serve two hundred fifty or more unserved households within the project area receive three points;

20 (d) the authority shall give additional points to projects that will provide broadband service to unserved businesses  
 21 located within the eligible economically-distressed county, as determined by the most recent data published by the Federal  
 22 Communications Commission or any other reliable information available to the authority. Points are given to projects that serve  
 23 unserved businesses within the project area as follows:

24 (1) projects proposing to serve between one and four businesses receive one point;

25 (2) projects proposing to serve between five and ten businesses receive two points; and

26 (3) projects proposing to serve either more than ten businesses or an agricultural operation, agricultural  
 27 processing facility, or a business with thirty-one or more full-time employees receive three points;

28 (e) the authority shall give additional points to projects that minimize the infrastructure cost of the proposed project  
 29 for each household, based upon information available to the authority; and

30 (f) projects that will provide minimum download and minimum upload speeds have the aggregate points given under  
 31 items (1) through (5) multiplied by a factor at the level indicated in the table below:

32 Minimum Download: Minimum Upload Score Multiplier

33 25:3 Mbps. 1.00

34 100:3 Mbps. or greater 2.00

35 (7) The office shall score applications based upon the metrics provided in subsection (C)(6).

1           (8) Applications receiving the highest score receive priority status for the awarding of grants pursuant to this section.  
 2 Applicants awarded grants pursuant to this section shall enter into an agreement with the authority. The agreement must contain  
 3 all of the elements outlined in subsection (C)(3) and any other provisions the authority may require. The agreement must contain a  
 4 provision governing the time line and minimum requirements and thresholds for disbursement of grant funds measured by the  
 5 progress of the project. Grant funds must be disbursed only upon verification by the authority that the terms of the agreement have  
 6 been fulfilled according to the progress milestones contained in the agreement. At project completion, the grant recipient shall  
 7 certify and provide to the authority evidence consistent with Federal Communications Commission attestation that the proposed  
 8 minimum upstream and minimum downstream broadband speeds identified in the application guidelines, and for which a base speed  
 9 multiplier was awarded pursuant to item (C)(6)(f), are available throughout the project area before any end user connections. A  
 10 single grant award may not exceed two million dollars. No more than one grant may be awarded each fiscal year for a project in  
 11 any one eligible economically-distressed county.

12           (9) (a) Grant recipients are required to provide matching funds based upon the application scoring pursuant to this section  
 13 in the following minimum amounts:

<u>Score Matching</u>	<u>Requirement</u>
<u>7.0 points or less</u>	<u>55%</u>
<u>Greater than 7.0, but less than 14.0 points</u>	<u>50%</u>
<u>Greater than 14.0, but less than 21.0 points</u>	<u>45%</u>
<u>21.0 points or greater</u>	<u>30%</u>

19           (b) Federal or state grants or program funds may not be used for any portion of the matching funds paid by the grant  
 20 recipient.

21           (10) The authority shall require that grant recipients offer the proposed advertised minimum download and minimum upload  
 22 speeds identified in the project application for the duration of the five-year service agreement. At least annually, a grant recipient  
 23 shall provide to the authority evidence consistent with Federal Communications Commission attestation that the grant recipient is  
 24 making available the proposed advertised speed, or a faster speed, as contained in the grant agreement. For the duration of the  
 25 agreement, grant recipients shall disclose any changes to data caps for the project area that differ from the data caps listed in the  
 26 grant application to the authority.

27           (11) A grant recipient shall forfeit the amount of the grant received if it fails to perform, in material respect, the obligations  
 28 established in the agreement. Grant recipients that fail to provide the minimum advertised connection speed for which a reduction  
 29 in matching funds was applied shall forfeit that amount. A grant recipient that forfeits amounts disbursed pursuant to this section is  
 30 liable for the amount disbursed plus interest, computed from the date of the disbursement. The number of subscribers that subscribe  
 31 to broadband services offered by the provider in the project area may not be a measure of performance pursuant to the agreement  
 32 for the purposes of this subsection.

33           (12) Grant recipients shall submit to the Office of Regulatory Staff an annual report for each funded project for the duration  
 34 of the agreement. The report must include a summary of the items contained in the grant agreement and level of attainment for each  
 35 and also must include:

1 (a) the number of households, businesses, agricultural operations, and community anchor points that have broadband  
2 access as a result of the project;

3 (b) the percentage of end users in the project area who have access to broadband service and actually subscribe to the  
4 broadband service;

5 (c) the average monthly subscription cost for broadband service in the project area;

6 (d) verifiable evidence that retail services are offered at rates and upon terms and conditions commensurate with those  
7 provided by any incumbent broadband provider operating in the general area; and

8 (e) information related to service outages, customer complaints, or other such performance data as necessary to ensure  
9 the funding is being used to provide high-quality service.

10 (13) The Office of Regulatory Staff shall submit an annual report to the General Assembly before September first. The report  
11 must contain the following:

12 (a) the number of grant projects applied for and the number of grant agreements entered into;

13 (b) a timeline for each grant agreement and the number of households, businesses, agricultural operations, and  
14 community anchor points expected to benefit from each agreement;

15 (c) the amount of matching funds required for each agreement and the total amount of investment;

16 (d) a summary of areas receiving grants that are now being provided broadband service and the advertised broadband  
17 speeds for those areas;

18 (e) any breaches of agreements, grant fund forfeitures, or subsequent reductions or refunds of matching funds; and

19 (f) any recommendations for the grant program, including better sources and methods for improving outcomes and  
20 accountability.

21 (14) Nothing in this article is intended to regulate the provision of broadband except as it relates to oversight of providers  
22 receiving funds to provide the services described herein.

23 (D) The Rural Infrastructure Authority shall collaborate with the following agencies in implementing this provision: the  
24 Department of Commerce, the Department of Administration, the Revenue and Fiscal Affairs Office, the Educational Television  
25 Commission, and the Department of Transportation.

26 (E) Nothing in this provision shall change any rights an entity may have to provide broadband service in this State.

31 expenses of the State Government shall lapse on July 31, ~~2019~~ 2020. State agencies are required to submit all current fiscal year  
32 input documents and all electronic workflow for accounts payable transactions to the Office of Comptroller General by July ~~12, 2019~~  
33 14, 2020. Appropriations for Permanent Improvements, now outstanding or hereafter provided, shall lapse at the end of the second  
34 fiscal year in which such appropriations were provided, unless definite commitments shall have been made, with the approval of the  
35 State Fiscal Accountability Authority and Joint Bond Review Committee, toward the accomplishment of the purposes for which the  
36 appropriations were provided. Appropriations for other specific purposes aside from ordinary operating expenses, now outstanding

1 or hereafter provided, shall lapse at the end of the second fiscal year in which such appropriations were provided, unless definite  
2 commitments shall have been made, with the approval of the State Fiscal Accountability Authority, toward the accomplishment of  
3 the purposes for which the appropriations were provided.

4 **118.2.** (SR: Titling of Real Property) It is the intent of the General Assembly to establish a comprehensive central property and  
5 office facility management process to plan for the needs of state government agencies and to achieve maximum efficiency and  
6 economy in the use of state owned or state leased real properties. The Department of Administration is directed to identify all state  
7 owned properties whether titled in the name of the state or an agency or department, and all agencies and departments of state  
8 government are upon request to provide the department all documents related to the title and acquisition of the real properties that  
9 are occupied or used by the agency or titled in the name of the agency. Except for any properties where the department determines  
10 title should not be in the name of the State because the properties are subject to reverter clauses or other restraints on the property,  
11 or where the department determines the state would be best served by not receiving title, and with the exception of properties,  
12 highways and roadways owned by the Department of Transportation, title of any property held by or acquired by a state agency or  
13 department shall be titled in the name of the state under the control of the Department of Administration. Titling in the name of the  
14 state shall not affect the operation or use of real property by an agency.

15 This provision applies to all state agencies and departments except: institutions of higher learning; the Public Service Authority;  
16 the Ports Authority; the South Carolina Division of Public Railways; the MUSC Hospital Authority; the Myrtle Beach Air Force  
17 Redevelopment Authority; the Department of Transportation; the Midlands Technical College Enterprise Campus Authority, the  
18 Trident Technical College Enterprise Campus Authority; the Area Commission of Tri-County Technical College; and the Charleston  
19 Naval Complex Redevelopment Authority.

20 *With respect to any past or future acquisition of real property, the application of this provision and prior comparable titling*  
21 *provisions to the South Carolina Department of Natural Resources and real property under its ownership or control is subject to the*  
22 *exemption adopted by the South Carolina Budget and Control Board on March 21, 2006.*

23 This provision is comprehensive and supersedes any conflicting provisions concerning title and acquisition and disposition of state  
24 owned real property whether in permanent law, temporary law or by provision elsewhere in this act.

25 The Department of Administration is directed to provide to the Department of Education, funds equal to the amount realized from  
26 the sale of the Greenville Halton Road Bus Shop property for school bus maintenance shop relocations, construction, and shop  
27 equipment.

28 **118.3.** (SR: Contingency Reserve Fund) (A) There is created in the State Treasury a fund separate and distinct from the general  
29 fund of the State, the Capital Reserve Fund, and all other funds entitled the Contingency Reserve Fund. All general fund revenues  
30 accumulated in a fiscal year in excess of general appropriations and supplemental appropriations must be credited to this fund.  
31 Revenues credited to this fund in a fiscal year may be appropriated by the General Assembly. Upon determination by the Comptroller  
32 General as to the amount to be deposited in the Contingency Reserve Fund, the Comptroller General shall notify the Board of  
33 Economic Advisors and the board shall recognize that amount as surplus funds. Revenues in this fund may be appropriated only for

17	<u><b>118.17.</b> (SR: Farm Aid) There is created the 'South Carolina Farm Aid Fund'. This fund is separate and distinct from the</u>

19	<u>year must be used in that fiscal year to operate a grant program that provides financial assistance to farmers.</u>	
20	<u>To be eligible for a grant, the person must have:</u>	
21	<u>(1) experienced a verifiable loss of agricultural commodities of at least thirty percent as a result of the flooding occurring in</u>	
22	<u>the aftermath of Hurricanes Michael and Florence for which:</u>	
23	<u>(a) the Governor declared a state of emergency in the State for the county in which the farm is located; and</u>	
24	<u>(b) the United States Secretary of Agriculture issued a Secretarial Disaster Declaration for the county in which the farm</u>	
25	<u>is located;</u>	
26	<u>(2) a farm number issued by the Farm Service Agency;</u>	
27	<u>(3) signed an affidavit, under penalty of perjury, certifying that each fact of the loss presented by the person is accurate; and</u>	
28	<u>(4) a signed affidavit, under penalty of perjury, certifying that no federal funds have been received for these specific disasters,</u>	
29	<u>and in the event that federal funds are received, the person will return all state monies received under this program.</u>	
30	<u>The Department of Agriculture (department) shall administer the grant program authorized by this proviso. The Department of</u>	
31	<u>Revenue shall assist the Department of Agriculture in the administration of the grant program by providing auditing services,</u>	
32	<u>accounting services, and review and oversight of all financial aspects of the grant program. There is created the Farm Aid Advisory</u>	
33	<u>Board to make recommendations to the department regarding the duties of the department in administering the grant program. The</u>	
34	<u>Commissioner of Agriculture, or his designee, shall serve ex officio, as chairman of the board. Also, the Director of the Department</u>	
35	<u>of Revenue, or his designee, the Vice President for Public Service and Agriculture of Clemson Public Service Activities, or his</u>	

1 designee, and the Vice President for Land Grant Services of South Carolina State Public Service Activities, or his designee, shall  
2 serve on the board. The following additional members shall be appointed to the board:

3 (1) the Commissioner of Agriculture shall appoint one member representing the South Carolina Farm Bureau;

4 (2) the Commissioner of Agriculture shall appoint one member representing a farm credit association;

5 (3) the Director of the Department of Revenue shall appoint one member representing the crop insurance industry; and

6 (4) the Director of the Department of Revenue shall appoint one member who is an agricultural commodities producer.

7 By July twentieth of the current fiscal year, the board shall hold its initial meeting to recommend an application process by which  
8 a person with a loss resulting from the flooding occurring in the aftermath of Hurricanes Michael and Florence may apply for a  
9 grant. Upon adoption of an application process, the Department of Agriculture shall provide the Chairman of the House Ways and  
10 Means Committee and the Chairman of the Senate Finance Committee with a written copy of its application process within ten days  
11 after its adoption. A person shall apply not later than forty-five days after the adoption of the application process. The department  
12 must ensure every person interested in applying for a grant has access to adequate resources to submit his application in a timely  
13 manner, and upon request, the department must assist a person with the preparation of his application.

14 Each grant awarded by the department may not exceed twenty percent of the person's verifiable loss of agricultural commodities.  
15 However, a person, including any grant made to a related person, may not receive grants aggregating more than one hundred  
16 thousand dollars. Also, a person, including any grant made to a related person, may not receive grants that when combined with  
17 losses covered by insurance, exceed one hundred percent of the actual loss. If a grant is made to a related person, the amount to be  
18 included in the limits set by this proviso must be the amount of the grant multiplied by the person's ownership interest in the related  
19 person. However, a person who shares an ownership interest with another person or entity may not be refused a grant solely because  
20 the other person or related person has otherwise received the maximum grant amount, but in this case, the person's grant amount is  
21 limited by the person's ownership interest.

22 If the total amount of grants allowed pursuant to this proviso exceeds the monies in the fund, then each person's grant must be  
23 reduced proportionately.

24 To determine loss, the department:

25 (1) must measure the person's cumulative total loss of all affected agricultural commodities for the year in which the flooding  
26 occurred against the person's expected production of all agricultural commodities affected by the flooding occurring in the aftermath  
27 of Hurricanes Michael and Florence;

28 (2) shall use the person's applicable actual production history yield, as determined by the Federal Crop Insurance  
29 Corporation, to determine loss for insured agricultural commodities. In determining loss for uninsured agricultural commodities,  
30 the department shall use the most recent year's county price and county yield, as applicable, as determined by the National  
31 Agriculture Statistics Service, United States Department of Agriculture; and

32 (3) may require any documentation or proof it considers necessary to efficiently administer the grant program, including the  
33 ownership structure of each entity and the social security numbers of each owner. Minimally, in order to verify loss, the department  
34 shall require the submission of dated, signed, and continuous records. These records may include, but are not limited to, commercial  
35 receipts, settlement sheets, warehouse ledger sheets, pick records, load summaries, contemporaneous measurements, truck scale

1 tickets, contemporaneous diaries, appraisals, ledgers of income, income statements of deposit slips, cash register tape, invoices for  
2 custom harvesting, u-pick records, and insurance documents.

3 Grant awards must be used for agricultural production expenses and losses due to the flooding which demonstrate an intent to  
4 continue the agricultural operation; however, awards may not be used to purchase new equipment. The department shall develop  
5 guidelines and procedures to ensure that funds are expended in the manner outlined in grant applications, and may require any  
6 documentation it determines necessary to verify the appropriate use of grant awards including receipts.

7 If the department determines that a person who received a grant provided inaccurate information, then the person shall refund  
8 the entire amount of the grant. If the department determines that a person who received a grant used the funds for ineligible expenses,  
9 then the person must refund the amount of the ineligible expenses. If the person does not refund the appropriate amount, the  
10 Department of Revenue shall utilize the provisions of the Setoff Debt Collection Act to collect the money from the person.

11 The department shall coordinate the exchange of information between the USDA and the Department of Revenue to identify any  
12 person that received a Farm Aid grant for the flooding occurring in the aftermath of Hurricanes Michael and Florence and also  
13 received federal aid relief for the same disaster. Any person that is determined to have received grant funds from both the state and  
14 federal government, must immediately repay the state grant they received.

15 If the department determines that a person knowingly provided false information to obtain a grant pursuant to this proviso or  
16 knowingly used funds for ineligible expenses, the person shall be subject to prosecution pursuant to Section 16-13-240.

17 Within forty-five days of the completion of the awarding of grants, but no later than the end of the fiscal year, the Farm Aid  
18 Advisory Board is dissolved. Any funds remaining in the fund upon dissolution shall lapse to the general fund.

19 The department may accept private funds, grants, and property to be used to make financial awards from the grant program.

20 If federal funds are allocated for persons that are otherwise eligible for a grant pursuant to this proviso before the current fiscal  
21 year begins, then the provisions of this proviso are not effective and no funds may be credited to the South Carolina Farm Aid Fund.

22 For purposes of this proviso:

23 (1) 'Agricultural commodities' means wheat, cotton, flax, corn, dry beans, oats, barley, rye, tobacco, rice, peanuts, soybeans,  
24 sugar beets, sugar cane, tomatoes, grain sorghum, sunflowers, raisins, oranges, sweet corn, dry peas, freezing and canning peas,  
25 forage, apples, grapes, potatoes, industrial hemp, timber and forests, nursery crops, citrus, and other fruits and vegetables, nuts,  
26 tame hay, native grass, aquacultural species including, but not limited to, any species of finfish, mollusk, crustacean, or other aquatic  
27 invertebrate, amphibian, reptile, or aquatic plant propagated or reared in a controlled or selected environment, excluding stored  
28 grain;

29 (2) 'Person' means any individual, trust, estate, partnership, receiver, association, company, limited liability company,  
30 corporation, or other entity or group;

31 (3) 'Related person' means any person, joint venture, or entity that has a direct or indirect ownership interest of a person or  
32 legal entity; and

33 (4) 'Department' means the Department of Agriculture.
